Redemption Date 01 March 2021

Redemption

The Investor is entitled to receive from the Issuer on the Redemption Date an amount in the Settlement Currency, according to the following scenarios:

Scenario 1	If the Expiration Value is above the Strike Level, the Investor will receive a cash amount according to the following formula: $\text{Capital Protection} + \text{Nominal} * \text{Participation} * \left(\frac{\text{Expiration Value} - \text{Strike Level}}{\text{Initial NAV Level}} \right)$
Scenario 2	If the Expiration Value is at or below the Strike Level, the Investor will receive the Capital Protection.
Expiration Value	The NAV of the Fund on the Expiration Date, as determined by the Calculation Agent.
NAV	The net asset value of a Fund as published by or on behalf of a Fund (or its Manager). For the purpose of calculating such value as of the Expiration Date, the Calculation Agent, acting in its sole discretion, shall determine such value based on the redemption proceeds that a Notional Investor would have received, if that investor had, for a Fund, subject to it giving the appropriate prior notice, requested redemption of a Fund shares as of the Expiration Date.
Manager	The manager, investment manager or investment advisor of the Fund.
Fund Business Day	Means, in respect of the Fund, any day in respect of which (i) the administrator of the Fund calculates and publishes the NAV in accordance with the relevant prospectus and constitutional documents of the Fund and (ii) a Notional Investor could subscribe and redeem the relevant Fund shares of the Fund.
Notional Investor	Means a notional investor in shares in the Fund.

Product Structure

The CPN is a note with an embedded call option that offers an unlimited maximum gain opportunity, while providing certain capital preservation. The Investor is participating in the upside performance of the Fund, if it closes above the Strike Level.

On the Redemption Date, the risk of loss is - subject to the credit risk of the Issuer - limited to the difference between the purchase price and the Capital Protection.

Extraordinary Events

Consequences of Extraordinary Events	If, in the opinion of the Calculation Agent, an Extraordinary Event has occurred, or is likely to occur, up to and including the Redemption Date the Calculation Agent may, in its sole discretion: (i) Adjustment: make such reasonable adjustment(s) as it determines to be appropriate to any variable, calculation methodology, valuation, settlement, payment terms or any other terms in respect of the Products to account for the effect of such Extraordinary Event on the Issuer and/or the Fund(s) and/or the market value of the Products; and/or (ii) Early Redemption: early redeem the Products with immediate effect (the " Early Redemption Date "). The early redemption amount will be the fair market value of the Products as determined by the Calculation Agent in its sole discretion. The Issuer may also deduct any additional costs to the Issuer of early redeeming the Products, which includes the reasonable costs and expenses, if any, incurred by the Issuer in closing any hedge it may hold in relation to its exposure under this Product. The early redemption amount will be paid by the Issuer to the Investors within 5 Business Days of the Early Redemption Date.
Extraordinary Events	An Extraordinary Event occurs if the Calculation Agent determines that one of the following events has occurred or is likely to occur with respect to the Fund (the

Product specific risks

Loss Potential	On the Redemption Date, the risk of loss is - subject to the credit risk of the Issuer - limited to the difference between the purchase price and the Capital Protection.
Capital Protection (at Expiry)	Yes. However, Investors are exposed to the credit risk of the Issuer.
Risk Potential in comparison to a direct investment in the Underlying	The Capital Protection limits the risk exposure compared to a direct investment.
Issuer Call right	None
Stop Loss Event	None
Extraordinary termination risk	The Product contains terms and conditions that allow the Issuer to terminate and redeem the Product prior to the Redemption Date. In case of such extraordinary termination, the Issuer shall pay to the Investors an extraordinary termination amount as determined by the Calculation Agent which is usually equivalent to the market value of the Product. Potential Investors should note that the extraordinary termination amount may deviate from and may be considerably below the amount which would be payable pursuant to the final redemption provisions on the Redemption Date. Investors are not entitled to request any further payments on the Product after the termination date. Investors should note that the extraordinary termination amount may be considerably below the Capital Protection. The Capital Protection applies at maturity only .
Adjustment risk	Potential Investors should be aware that it cannot be excluded that certain events occur or certain measures are taken (by parties other than the Issuer) in relation to the Underlying(s) which can lead to changes to the Underlying(s) or its concept (e.g. corporate events of a company whose shares constitute an Underlying, market disruption events or other circumstances affecting normal activities). In the case of the occurrence of such events or measures, the Issuer and/or the Calculation Agent are entitled to effect adjustments according to the Product Documentation. Such adjustments might have a negative impact on the value of the Product.
Illiquidity risk in secondary market	<p>The Issuer or the Lead Manager, as applicable, intends, under normal market conditions, to provide bid and/or offer prices for this Product on a regular basis. However, the Issuer or the Lead Manager, as applicable, makes no firm commitment to provide liquidity by means of bid and/or offer prices for this Product, and assumes no legal obligation to quote any such prices or with respect to the level or determination of such prices.</p> <p>Potential Investors therefore should not rely on the ability to sell this Product at a specific time or at a specific price. Potential Investors should note that prices quoted typically include a spread and therefore may deviate from the market value of the Product. In special market situations, where the Issuer is completely unable to enter into hedging transactions, or where such transactions are very difficult to enter into, the spread between the bid and offer prices in the secondary market may be temporarily expanded, in order to limit the economic risks of the Issuer. Hence, Investors might sell at a price considerably lower than the actual price of the Product at the time of its sale. By selling the Product in the secondary market Investors may receive less than the capital invested.</p> <p>In case of a secondary market transaction, there is a possibility that costs, including taxes, related to or in connection with the Product may arise for Investors that are not paid by the Issuer or imposed by the Issuer.</p>
Market Disruption risk	Investors are exposed to market disruption events (such as trading disruption, exchange disruption and early closure of the relevant exchange), which could have an impact on the redemption amount through delay in payment, change in value or suspension of trading in the Product in the secondary market. For a detailed description of such events and their effects please refer to the Product Documentation.
Withholding tax	Investors in this Product should note that any payment under this Product may be subject to withholding tax (such as, inter alia, Swiss Withholding Tax, and/or withholding related to FATCA or 871(m) of the US Tax Code). Any payments due under this Product are net of such tax. Please refer to the General Terms and Conditions for detailed information. If the Issuer is required to withhold any amount pursuant to Section 871(m) or FATCA of the U.S. Tax Code, the Issuer will not be

Risk Factors relating to the Issuer

In addition to the market risk with regard to the development of the Underlying, each Investor bears the general risk that the financial situation of the Issuer could deteriorate. The Products constitute immediate, unsecured and unsubordinated obligations of the Issuer, which, particularly in case of insolvency of the Issuer, rank *pari passu* with each and all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of those that have priority due to mandatory statutory provisions.
