Reference-Portfolio Level	<p>Sum of all Reference-Portfolio Components taking into consideration their respective weightings whereby the stocks are valued at the closing price published by the related exchange of the respective stocks. Any Reference-Portfolio Components denominated not in the Settlement Currency are converted into the Settlement Currency at the currently prevailing exchange rate, as decided in the reasonable discretion of the Calculation Agent. The calculation also takes into account the effect of all fees and costs associated with the Reference Portfolio. The Reference-Portfolio Level is calculated for each Business Day by the Calculation Agent on the next Business Day.</p> <p>If a Business Day is not an Exchange Business Day for any Reference-Portfolio Constituent, then the price for such Reference-Portfolio Constituent used to calculate the Reference-Portfolio Level will be the price of the previous Exchange Business Day for such Reference-Portfolio Constituent.</p>
Dividends	Any amounts reflecting net dividends of the Reference-Portfolio Constituents will be re-invested in the Reference-Portfolio.

Product Structure

The Product allows for participation in the performance of the Reference-Portfolio. The Reference-Portfolio is a notional actively managed portfolio, created and maintained by the Reference-Portfolio Advisor. The Reference-Portfolio aims to replicate the performance level of a basket of stocks and, from time to time a cash position, less fees and costs. Any amounts reflecting net dividends of the Reference-Portfolio Constituents will be re-invested into the Reference-Portfolio.

In addition, the Product Documentation is available on the internet at www.ubs.com/keyinvest.

Notices in connection with this Product shall be validly given to investors by publication in electronic media such as Reuters and/or Investdata. In addition, any changes with regard to the terms of this Product shall be published on the internet at www.ubs.com/keyinvest.

Classification

This Product does not represent a participation in any of the collective investment schemes pursuant to Art. 7 ff of the Swiss Federal Act on Collective Investment Schemes (CISA) and thus does not require an authorisation of the Swiss Financial Market Supervisory Authority (FINMA). Therefore, investors in this Product are not eligible for the specific investor protection under the CISA.

Furthermore, this Product does not benefit from any depositor protection under Art. 37b under the Swiss Federal Law on Banks and Savings Banks (Banking Act) or other forms of deposit insurance under any other law as might be applicable to this Product.

Prudential Supervision

UBS AG is authorised and regulated by the Swiss Financial Market Supervisory Authority (FINMA). In addition, its London Branch is authorised by the Prudential Regulation Authority and subject to regulation by the Financial Conduct Authority and limited regulation by the Prudential Regulation Authority and its Jersey Branch is authorised and regulated by the Jersey Financial Services Commission (JFSC).

2. Prospects of Profits and Losses

Market Expectation	Investor expects the positive performance in a basket of stocks over the life of the Product.
Risk Tolerance	<p>Investors should be experienced investors and familiar with both derivative products and the stock markets as well as with the investment management abilities of the Reference-Portfolio Advisor.</p> <p>The investors must be willing to make an investment that is fully exposed to the performance of the Underlying, meaning that Investors might lose their whole investment in the Product in the worst case.</p> <p>The Reference-Portfolio may contain Reference-Portfolio Components denominated in currencies other than the Settlement Currency. The currency risk is not hedged.</p>

Profit Potential	<p>The Product allows for participation in positive performance of the Underlying, as adjusted by various fees and costs as described in more detail above.</p> <p>Furthermore, if the Investor decides to buy/sell the Product prior to the Expiration Date / Early Termination Date / Automatic Early Termination Date under the Secondary Market terms (as detailed above), the Investor may also be exposed to any funding costs of the Issuer (including, but not limited to, any internal funding costs whether caused by changes in UBS's credit status or otherwise) in relation to the Product.</p>
Loss Potential	<p>The Investors may lose some or all of the investment as they are exposed to the negative performance of the Underlying. Investors are further exposed to currency risks as the currency risk is not hedged.</p> <p>The Issuer is entitled to redeem the Product early.</p>

3. Significant Risks for Investors

For product specific risks please see above (2. Prospects of Profits and Losses)

Risk Factors relating to the Issuer

In addition to the market risk with regard to the development of the Underlying, each Investor bears the general risk that the financial situation of the Issuer could deteriorate. The Products constitute immediate, unsecured and unsubordinated obligations of the Issuer, which, particularly in case of insolvency of the Issuer, rank pari passu with each and all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of those that have priority due to mandatory statutory provisions. The general assessment of the Issuer's creditworthiness may affect the value of the Products. This assessment generally depends on the ratings assigned to the Issuer or its affiliated companies by rating agencies such as Moody's, Fitch and Standard & Poor's.

The Issuer Ratings indicated in this document reflect the situation at the time of issuance and may be subject to changes. The actual Issuer Ratings at any given time can be seen on the Issuer's website (www.ubs.com) under "Analysts & Investors".

Secondary Market

The Issuer or the Lead Manager, as applicable, intends, under normal market conditions, to provide bid and offer prices for this Product on a regular basis. However, the Issuer or the Lead Manager, as applicable, makes no firm commitment to provide liquidity by means of bid and offer prices for this Product, and assumes no legal obligation to quote any such prices or with respect to the level or determination of such prices. Potential Investors therefore should not rely on the ability to sell this Product at a specific time or at a specific price.

In special market situations, where the Issuer is completely unable to enter into hedging transactions, or where such transactions are very difficult to enter into, the spread between the bid and offer prices may be temporarily expanded, in order to limit the economic risks of the Issuer.

Market Risk

The investor is exposed to market disruption events (such as trading disruption, exchange disruption and early closure of the relevant exchange), adjustments and early termination which could have an impact on the redemption amount through delay in payment or change in value. For a detailed description of such events and their effects please read the Final Terms and the General Terms and Conditions.

Reference-Portfolio Guidelines

Global BuyBack Basket EUR

Global BuyBack Basket EUR (the "**Reference-Portfolio**") is a notional EUR ("Quanto EUR") denominated actively managed Reference-Portfolio, created and maintained by Finaport Ltd., Zurich (the "**Reference-Portfolio Advisor**"). The Reference-Portfolio aims to replicate (i) the performance of a basket of BuyBack stocks (the "**Constituents**"), and (ii) from time to time, a cash position, money market instruments or cash obligations (the "**Cash Position**", which together with the Constituents shall be referred to as the "**Reference-Portfolio Components**"), less fees and costs. The Reference-Portfolio Components are selected by the Reference-Portfolio Advisor in accordance with the following guidelines (the "Reference-Portfolio Guidelines"):

1. Only related stocks (the "Investment Universe") with sufficient liquidity may be incorporated as Reference-Portfolio Constituents in the Reference-Portfolio ("Eligible Stocks")
2. No interest will be paid on the Cash Position of the Reference-Portfolio.

In case of a rebalancing the theoretical volume of a buy or sell order for a Constituent is limited to 200% of the average traded daily volume of that Constituent. A rebalancing may happen at the discretion of the Reference-Portfolio Advisor. The Calculation Agent has the right to reject Constituents that form part of a Rebalancing. The theoretical volume is defined as the number of outstanding Certificates multiplied by the Reference-Portfolio Level (using a reasonable foreign exchange rate to convert into the currency of the Constituent) and multiplied by the change in the percentage weight of the Constituent. The average traded daily volume is defined as the 30 Day average trading turnover.

At any time, the Reference-Portfolio may reflect a cash position which mirrors the holding of cash, money market instruments or cash obligations (the "Cash Position").

Quarterly fee of 0.50% (2.00% per year) of the Reference-Portfolio Level accrued on a daily basis, charged by the Calculation Agent and deducted from the Reference-Portfolio Level. The Reference-Portfolio Fee is accrued on a daily basis and paid on a quarterly basis, on 31 March, 30 June, 30 September and 31 December. Should any of these dates fall on a day which is not a Business Day, the Fees are paid on the next Business Day.

No Rebalancing Fee will be levied for adjustments. The amount of possible Rebalancings is limited to 52 per year.

The Reference-Portfolio is denominated in EUR, while the Reference-Portfolio Components, notionally comprised in the Reference-Portfolio, might be denominated in other currencies than EUR. In order to appropriately reflect the performance of the Components in the determination of the value of the Reference-Portfolio, the value of the Components denominated in other currencies than EUR is expressed in EUR. The exchange rate equals the currently prevailing exchange rate. The exchange-rate risk is not mitigated.

The above Investment Universe can be amended in agreement between the Calculation Agent and the Reference-Portfolio Advisor. The Calculation Agent has the right to reject Constituents that form part of a Rebalancing.
