Nominal × Exit Rate × i

Where:

i = the number assigned to the relevant Early Redemption Observation Date as defined above.

Redemption

If no Early Redemption has occurred, the Investor is entitled to receive from the Issuer on the Redemption Date an amount in the Settlement Currency, according to the following scenarios:

Scenario 1	<p>If a Kick-In Event has NOT occurred the redemption amount per Product shall be:</p> <p>Nominal x 112.00 %</p>
Scenario 2	<p>If a Kick-In Event has occurred, the Redemption Amount per Product shall be calculated according to the following formula:</p> <p>1) If on Expiry the Commodity Reference Price of the Underlying is at or above its respective Early Redemption Level, the redemption amount per Product shall be:</p> <p>Nominal x 112.00%</p> <p>2) Otherwise, redemption amount per Product shall be:</p> $\text{MIN} \left(100\%, \frac{\text{Underlying}(\text{FinalLevel})}{\text{Underlying}(\text{InitialLevel})} \right) \times \text{Nominal}$ <p>Where:</p> <p>Underlying (InitialLevel) = As specified in the table "Information on Underlying" in column "Initial Level" above</p> <p>Underlying (FinalLevel) = Commodity Reference Price for the Underlying on the relevant Expiration Date</p>
Kick-In Event	A Kick-In Event shall be deemed to occur if on the Kick-In Observation Date, the official closing level of the Commodity Reference Price quoted by the Related Exchange is below the respective Kick-In Level, as reasonably determined by the Calculation Agent.
Kick-In Observation Date	Any Exchange Business Day during the period from and including the Pricing Date to and including the Expiration Date
Commodity Reference Price	Specified Price per Unit of the Underlying, stated in the relevant Currency, and published by the Rate Source
Rate Source	<p>Underlying Commodity: NYMEX WTI Crude Oil (Bloomberg Ticker: CL1 <Comdty>)</p> <p>Specified Price: The official settlement price of the futures contract for the Delivery Date</p> <p>Delivery Date: Front Month</p> <p>Exchange: NYM – New York Mercantile Exchange</p> <p>Unit: Barrel</p> <p>Currency: USD</p>
Front Month	The delivery date will be the "first nearby month" (i.e. the first futures contract traded on the Relevant Exchange to expire following the given day the Reference Price is observed), provided that if such date is the same or subsequent to the First Notice Date or Last Trade Date, then it will be the second nearby month (i.e. the second futures contract traded on the Relevant Exchange to expire following the given day the Reference Price is observed).
Last Trade Date	The last trading day of a given futures contract as commonly understood in the market as applying to such futures contract and, in the event of any dispute, shall be the date

specified by the Calculation Agent determined in good faith.

First Notice Date The first date on which a party to a given futures contract may demand delivery of the underlying commodity, as commonly understood in the market as applying to the futures contract and, in the event of any dispute, shall be the date specified by the Calculation Agent determined in good faith.

Product Structure

The Express Certificate is a product that offers an attractive return if on any Early Redemption Observation Date the Underlying closes at or above a predefined Early Redemption Level. In this case the Investor will receive a fixed payment for every observation period that passed since inception, and the product will be redeemed early.

If no Early Redemption Event and no Kick-In Event has occurred, investors will receive on the Redemption Date 100% of the Nominal and the Exit Rate amount per product.

Otherwise, if a Kick-In Event has occurred but no Early Redemption Event has occurred, investors will receive an amount equivalent to the Commodity Reference Price at Expiry.

Swiss Federal Stamp Duty The product qualifies as a taxable security (bond). In principle secondary market transactions are subject to Swiss Stamp Duty.

Swiss Federal Income Tax For tax purposes this product is qualified as a combination of an option and bond, where the majority of the return of the bond part is in the form of a discount or of one payment on redemption date (IUP). For private investors with tax domicile in Switzerland the increase of the value of the bond part (according to the "Modifizierte Differenzbesteuerung") at sale or maturity is subject to Swiss federal as well as cantonal and communal income tax. Such an investor is taxed on the difference between the bondfloor at purchase* and the bond floor at sale or redemption*. However, any gain derived from the option is considered as capital gain and is therefore for such investors subject to neither Swiss federal nor cantonal and communal income tax.
* each to be converted into CHF at the prevailing exchange rate at purchase and sale or redemption (if applicable).

Swiss Withholding Tax This product is not subject to the Swiss Issuer Withholding Tax.

The tax information only provides a general overview of the potential tax consequences linked to this product at the time of issue. Tax laws and tax doctrine may change, possibly with retroactive effect.

Classification

This Product does not represent a participation in any of the collective investment schemes pursuant to Art. 7 ff of the Swiss Federal Act on Collective Investment Schemes (CISA) and thus does not require an authorisation of the Swiss Financial Market Supervisory Authority (FINMA). Therefore, Investors in this Product are not eligible for the specific investor protection under the CISA. Moreover, Investors in this Product bear the issuer risk.

Furthermore, this Product does not benefit from any depositor protection under Art. 37a under the Swiss Federal Law on Banks and Savings Banks (Banking Act) or other forms of deposit insurance under any other law as might be applicable to this Product.

2. Prospects of Profits and Losses

Market Expectation Investors in this Product expect the Underlying to trade sideways. In any case Investors expect that the Kick-In Level will not be touched.

Effect of the performance of the Underlying on redemption amount or on delivery obligation:

- Positive performance If the Underlying performs positively, Investors realise a positive return.
- Sideways to slightly negative performance If the Underlying performs sideways to slightly negative, Investors still realise a positive return.
- Pronounced negative performance If the Underlying performs negatively and additionally the Kick-In Level has been touched, Investors may lose some or all of their investment.

Maximum Return The profit potential is limited to the Exit Rate.

Maximum Loss Investors may lose some or all of the investment as they are fully exposed to the performance of the Underlying.

3. Significant Risks for Investors

General risk warning Potential Investors should understand the risks associated with an investment in the Product and shall only reach an investment decision after careful considerations with their legal, tax, financial and other advisors of (i) the suitability of an investment in the Product in the light of their own particular financial, fiscal and other circumstances; (ii) the information set out in this document and (iii) the Underlying(s). The following is a summary of the most significant risks. Further risks are set out in the Product Documentation.

Risk Tolerance Investors in this Product should be experienced Investors and familiar with both derivative products and the stock markets. Investors must be willing to make an investment that is exposed to the full downside risk of the Underlying.

A high coupon can indicate a higher risk, in that the rate of the coupon relative to the rate of the risk-free return indicates the overall risk of the product.

Product specific risks

Loss Potential	Investors may lose some or all of the investment as they are fully exposed to the performance of the Underlying.
Capital Protection (at Expiry)	None
Risk Potential in comparison to a direct investment in the Underlying	If the Kick-In Level is touched at Expiry, the risk potential is similar as with a direct investment in the Underlying.
Issuer Call right	None, but an automatic Early Redemption may occur.
Stop Loss Event	None
Extraordinary termination risk	The Product contains terms and conditions that allow the Issuer to terminate and redeem the Product prior to the Redemption Date. In case of such extraordinary termination, the Issuer shall pay to the Investors an extraordinary termination amount as determined by the Calculation Agent which is usually equivalent to the market value of the Product. Potential Investors should note that the extraordinary termination amount may deviate from and may be considerably below the amount which would be payable pursuant to the final redemption provisions on the Redemption Date. Investors are not entitled to request any further payments on the Product after the termination date.
Adjustment risk	Potential Investors should be aware that it cannot be excluded that certain events occur or certain measures are taken (by parties other than the Issuer) in relation to the Underlying(s) which can lead to changes to the Underlying(s) or its concept (e.g. corporate events of a company whose shares constitute an Underlying, market disruption events or other circumstances affecting normal activities). In the case of the occurrence of such events or measures, the Issuer and/or the Calculation Agent are entitled to effect adjustments according to the Product Documentation. Such adjustments might have a negative impact on the value of the Product.
Illiquidity risk in secondary market	<p>The Issuer or the Lead Manager, as applicable, intends, under normal market conditions, to provide bid and/or offer prices for this Product on a regular basis. However, the Issuer or the Lead Manager, as applicable, makes no firm commitment to provide liquidity by means of bid and/or offer prices for this Product, and assumes no legal obligation to quote any such prices or with respect to the level or determination of such prices.</p> <p>Potential Investors therefore should not rely on the ability to sell this Product at a specific time or at a specific price. Potential Investors should note that prices quoted typically include a spread and therefore may deviate from the market value of the Product. In special market situations, where the Issuer is completely unable to enter into hedging transactions, or where such transactions are very difficult to enter into, the spread between the bid and offer prices in the secondary market may be temporarily expanded, in order to limit the economic risks of the Issuer. Hence, Investors might sell at a price considerably lower than the actual price of the Product at the time of its sale. By selling the Product in the secondary market Investors may receive less than the capital invested.</p> <p>In case of a secondary market transaction, there is a possibility that costs, including taxes, related to or in connection with the Product may arise for Investors that are not paid by the Issuer or imposed by the Issuer.</p>
Risks specific to commodity investments	Investments in commodities may have greater volatility than investments in traditional securities, particularly if the instruments involve leverage. The value of commodity-linked derivative instruments may be affected by changes in overall market movements, commodity index volatility, changes in interest rates, or factors affecting a particular industry or commodity, such as drought, floods, weather, livestock disease, embargoes, tariffs and international economic, political and regulatory developments. Use of leveraged commodity-linked derivatives creates an opportunity for increased return but, at the same time, creates the possibility for greater loss.
Market Disruption risk	Investors are exposed to market disruption events (such as trading disruption, exchange disruption and early closure of the relevant exchange), which could have an impact on the redemption amount through delay in payment, change in value or suspension of trading in the Product in the secondary market. For a detailed description of such events and their effects please refer to the Product Documentation.

Withholding tax

Investors in this Product should note that any payment under this Product may be subject to withholding tax (such as, inter alia, Swiss Withholding Tax, and/or withholding related to FATCA or 871(m) of the US Tax Code). **Any payments due under this Product are net of such tax.** Please refer to the General Terms and Conditions for detailed information. If the Issuer is required to withhold any amount pursuant to Section 871(m) or FATCA of the U.S. Tax Code, the Issuer will not be required to pay additional amounts with respect to the amount so withheld.

Risk Factors relating to the Issuer

In addition to the market risk with regard to the development of the Underlying, each Investor bears the general risk that the financial situation of the Issuer could deteriorate. The Products constitute immediate, unsecured and unsubordinated obligations of the Issuer, which, particularly in case of insolvency of the Issuer, rank *pari passu* with each and all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of those that have priority due to mandatory statutory provisions. The general assessment of the Issuer's creditworthiness may affect the value of the Products. This assessment generally depends on the ratings assigned to the Issuer or its affiliated companies by rating agencies such as Moody's, Fitch and Standard & Poor's.

The Issuer Ratings indicated in this document reflect the situation at the time of issuance and may be subject to changes. The actual Issuer Ratings at any given time can be seen on the Issuer's website (www.ubs.com) under "Analysts & Investors".

4. Additional Information

Product Documentation

This document ("**Indicative Terms**") constitutes the non-binding Indicative Simplified Prospectus for the Product and contains the information required by Article 5 CISA and the corresponding Guidelines of the Swiss Bankers Association. The prospectus requirements of Article 652a/Article 1156 of the Swiss Code of Obligations are not applicable. The Indicative Simplified Prospectus contains indicative terms and conditions subject to change. The Final Simplified Prospectus in accordance with Article 5 CISA will be made available on the Issue Date.

These Indicative Terms (Indicative Simplified Prospectus) together with the 'General Terms and Conditions for Structured Products on Equity, Commodity and Index Underlyings', stipulated in English and as amended from time to time, ("**General Terms and Conditions**") shall form the non-binding and indicative documentation for this Product ("**Indicative Product Documentation**"), and accordingly the Indicative Terms should always be read together with the General Terms and Conditions. The Indicative Simplified Prospectus may be provided in various languages, however, only the English version will be relevant and any translations are for convenience only. Definitions used in the Indicative Terms, but not defined therein shall have the meaning given to them in the General Terms and Conditions. In the event that the Product will be listed (see above item 'Listing' under «General Information»), the Product Documentation will be amended in accordance with the listing requirements of the relevant exchange.

The Indicative Product Documentation can be obtained free of charge from UBS AG, P.O. Box, CH-8098 Zurich (Switzerland), via telephone (+41-(0)44-239 47 03), fax (+41-(0)44-239 69 14) or via e-mail (swiss-prospectus@ubs.com). In addition, for clients outside of the United Kingdom, the Indicative Product Documentation is available on the internet at www.ubs.com/keyinvest. Notices in connection with this Product shall be validly given by publication as described in the General Terms and Conditions. Furthermore, for clients outside of the United Kingdom, any changes with regard to the terms of this Product shall be published on the internet at www.ubs.com/keyinvest.
