I. SUMMARY OF THE PROSPECTUS

A. SUMMARY OF THE PROSPECTUS (IN THE ENGLISH LANGUAGE)

This Summary contains all the Elements required to be included in a summary for this type of securities and Issuer. As some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements.

Even though an Element may be required to be inserted in the summary because of the type of securities and Issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the summary with the mention of "not applicable".

Element	Section A – Introduction and warnings	
A.1	Warning.	This Summary should be read as an introduction to the Prospectus. Any decision to invest in the Securities should be based on consideration of the Prospectus as a whole by the investor. Potential investors should be aware that where a claim relating to the information contained in the Prospectus is brought before a court, the plaintiff investor might, under the national legislation of the respective European Economic Area member state, have to bear the costs of translating the document before the legal proceedings are initiated. Those persons who are responsible for the summary including the translation thereof, or who have initiated the preparation of the summary can be held liable, but only if the summary is misleading, inaccurate or inconsistent when read together with the other parts of the Prospectus or it does not provide, when read together with the other parts of the Prospectus, all required key information. UBS AG, with registered offices at Bahnhofstrasse 45, CH-8001 Zurich, Switzerland, and Aeschenvorstadt 1, CH-4051 Basle, Switzerland, (the "Issuer") in its capacity as Issuer assumes responsibility for the content of this Summary (including any translation hereof) pursuant to section 5 paragraph 2b No. 4 of the German Securities Prospectus Act (<i>Wertpapierprospektgesetz</i>).

The Manager will provide information to investors on the terms and conditions of the Public Offer of the Securities at the time such Public Offer is made by the Manager to the investor.

Element	Section B – Issuer	
B.1	Legal and commercial name of the issuer.	The legal and commercial name of the Issuer is UBS AG (“ Issuer ” or “ UBS AG ”; together with its subsidiaries, “ UBS ”, “ UBS Group ” or the “ Group ”).
B.2	Domicile, legal form, legislation and country of incorporation of the issuer.	UBS AG in its present form was created on 29 June 1998 by the merger of Union Bank of Switzerland (founded 1862) and Swiss Bank Corporation (founded 1872). UBS AG is entered in the Commercial Registers of Canton Zurich and Canton Basel-City. The registration number is CH-101.329.561. UBS AG is incorporated and domiciled in Switzerland and operates under the Swiss Code of Obligations and Swiss Federal Banking Law as an <i>Aktiengesellschaft</i>, a corporation that has issued shares of common stock to investors. The addresses and telephone numbers of UBS AG's two registered offices and principal places of business are: Bahnhofstrasse 45, CH-8001 Zurich, Switzerland, telephone +41 44 234 1111; and Aeschenvorstadt 1, CH-4051 Basel, Switzerland, telephone +41 61 288 5050.
B.4b	A description of any known trends affecting the issuer or the industries in which it operates.	Trend Information As stated in UBS AG's third quarter report issued on 28 October 2014 (including the Group's unaudited consolidated financial statements), at the start of the fourth quarter of 2014, many of the underlying challenges and geopolitical issues that the Group has previously highlighted remain and in some cases have intensified. A number of new concerns have arisen including the fear of risks related to the Ebola virus. The mixed outlook for global growth, the absence of sustained and credible improvements to unresolved issues in Europe, continuing U.S. fiscal and monetary policy issues and increasing geopolitical instability would make improvements in prevailing market conditions unlikely. Despite these ongoing challenges, the Group will continue to execute on its strategy in order to ensure the firm's long-term success and to deliver sustainable returns for shareholders.
B.5	Description of the group and the issuer's position within the group.	UBS AG is the parent company of the Group. Neither the business divisions of UBS nor the Corporate Center are separate legal entities. Currently, they primarily operate out of UBS AG, through its branches worldwide. Businesses also operate through local subsidiaries where necessary or desirable. UBS has commenced a share for share exchange offer to establish a group holding company. Upon completion of the initial settlement of the exchange offer, which took place on 28 November 2014, UBS Group AG has become the parent company of UBS AG and the holding company of the UBS Group.

		UBS has also announced that it intends to establish a banking subsidiary in Switzerland in mid-2015. The scope of this future subsidiary's business will include the Retail & Corporate business division and the Swiss-booked business within the Wealth Management business division. In the UK, and in consultation with the UK and Swiss regulators, in May 2014 UBS Limited, UBS's UK bank subsidiary, implemented a modified business operating model under which UBS Limited bears and retains a greater degree of risk and reward in its business activities. This principally involves: UBS Limited retaining and managing credit risk as well as some market and other risks, UBS Limited taking a more independent role in managing its funding and liquidity requirements and it involved an increase in UBS Limited's total regulatory capital. In the US, UBS will comply with new rules for banks under the Dodd-Frank Wall Street Reform and Consumer Protection Act that will require an intermediate holding company to own all of its operations other than US branches of UBS AG by 1 July 2016. As a result, UBS will designate an intermediate holding company to hold all US subsidiaries of UBS.																																																																								
B.9	Profit forecast or estimate.	Not applicable; no profit forecast or estimate is included in this Prospectus.																																																																								
B.10	Qualifications in the audit report.	Not applicable. The auditor's reports on the audited historical financial information are unqualified.

¹ Net profit / loss attributable to UBS shareholders (annualized as applicable) / average equity attributable to UBS shareholders. ² Operating income before credit loss (expense) or recovery (annualized as applicable) / average total assets. ³ Operating expenses / operating income before credit loss (expense) or recovery. ⁴ Change in net profit attributable to UBS shareholders from continuing operations between current and comparison periods / net profit attributable to UBS shareholders from continuing operations of comparison period. Not meaningful and not included if either the reporting period or the comparison period is a loss period. ⁵ Combined Wealth Management's and Wealth Management Americas' net new money for the period (annualized as applicable) / invested assets at the beginning of the period. Figures for the periods ended 31 December 2013, 2012 and 2011 are derived from the accounting records of the Group. ⁶ Common equity tier 1 capital / risk-weighted assets. ⁷ Based on the Basel III framework as applicable to Swiss systemically relevant banks (SRB), which became effective in Switzerland on 1 January 2013. The information provided on a fully applied basis entirely reflects the effects of the new capital deductions and the phase out of ineligible capital instruments. The information provided on a phase-in basis gradually reflects those effects during the transition period. Numbers for 31 December 2012 are on a pro-forma basis. Numbers for 31 December 2012 are calculated on an estimated basis described below and are referred to as "pro-forma" in this prospectus. The term "pro-forma" as used in this prospectus does not refer to the term "pro forma financial information" within the meaning of Regulation (EC) 809/2004. Some of the models applied when calculating 31 December 2012 pro-forma information required regulatory approval and included estimates (as discussed with UBS's primary regulator) of the effect of new capital charges. These figures are not required to

	be presented, because Basel III requirements were not in effect on 31 December 2012. They are nevertheless included for comparison reasons, because the Basel III requirements were effective as of 1 January 2013. Information for 31 December 2011 is not available. ⁸ Swiss SRB Basel III common equity tier 1 capital and loss-absorbing capital / total adjusted exposure (leverage ratio denominator). The Swiss SRB leverage ratio came into force on 1 January 2013. Numbers for 31 December 2012 are on a pro-forma basis (see footnote 7 above). Information for 31 December 2011 is not available. ⁹ Net profit / loss attributable to UBS shareholders before amortization and impairment of goodwill and intangible assets (annualized as applicable) / average equity attributable to UBS shareholders less average goodwill and intangible assets. ¹⁰ Operating income before credit loss (expense) or recovery (annualized as applicable) / average risk-weighted assets. Based on Basel III risk-weighted assets (phase-in) for 2014 and 2013, on Basel 2.5 risk-weighted assets for 2012 and on Basel II risk-weighted assets for 2011. ¹¹ On 1 January 2014, UBS adopted <i>Offsetting Financial Assets and Financial Liabilities</i> (Amendments to IAS 32, <i>Financial Instruments: Presentation</i>). The prior period balance sheet as of 31 December 2013 was restated to reflect the effects of adopting these amendments to IAS 32. ¹² The leverage ratio denominator is also referred to as "total adjusted exposure" and is calculated in accordance with Swiss SRB leverage ratio requirements. Data represent the average of the total adjusted exposure at the end of the three months preceding the end of the reporting period. The figure for the period ended 31 December 2012 is derived from the accounting records of the Group. Numbers for 31 December 2012 are on a pro-forma basis (see footnote 7 above). Information for 31 December 2011 is not available. ¹³ Group invested assets includes invested assets for Retail & Corporate.

Status of the Securities The Securities will constitute direct, unsecured and unsubordinated obligations of the Issuer, ranking <i>pari passu</i> among themselves and with all other present and future unsecured and unsubordinated obligations of the Issuer, other than obligations preferred by mandatory provisions of law.
C.11	Admission to trading on a regulated market or other equivalent markets.	The Securities are listed at SIX Swiss Exchange ("SIX") and admitted to trading on the platform of SIX Structured Products Exchange AG.
C.15	Influence of the underlying on the value of the securities.	The value of the UBS Open End Certificates during their term depends on the performance of the Underlying. In case the level of the Underlying increases, the value of the UBS Open End Certificates is likely to increase. In case the level of the Underlying decreases, the value of the the UBS Open End Certificates is likely to decrease. In particular, the Redemption Amount, if any, to be received by the Securityholder upon exercise of the UBS Open End Certificates depends on the performance of the Underlying. Therefore, the UBS Open End Certificates allow investors to participate, considering the Management Fee, in the positive development of the Underlying. Conversely, investors in UBS Open End Certificates also participate in the negative development of the Underlying. Upon exercise of the UBS Open End Certificates by either the Securityholder or the Issuer, Securityholders receive on the Maturity Date a Redemption Amount in the Redemption Currency, the amount of which depends on the Settlement Price of the Underlying. The Redemption Amount is calculated by reducing the Settlement Price by a Management Fee and multiplying the result by the Conversion Ratio. During their term, the UBS Open End Certificates do not generate any regular income (e.g. dividends or interest).
C.16	Expiration or maturity date, the exercise date or final reference date.	The Maturity Date means the fifth Banking Day after (i) the relevant Valuation Date and (ii) in the case of a Termination or a Termination for Tax Reasons, as the case may be, by the Issuer after the Termination Date or the Tax Termination Date, as the case may be. The Valuation Date means (i) in the case of an exercise by the Securityholder, subject to an effective exercise procedure, the 14 June of the next succeeding calendar year and (ii) in the case of an Redemption by the Issuer, the Redemption Date. The Exercise Date means each 14 June of a calendar year.
C.17	Settlement procedure of the derivative securities.	Payments shall, in all cases subject to any applicable fiscal or other laws and regulations in the place of payment or other laws and regulations to which the Issuer agree to be subject, be made in accordance with the relevant regulation and operating procedure applicable to and/or issued by the Clearing System (the "CA Rules") to the Clearing System or to its order for credit to the accounts of the relevant account holders of the Clearing System. The Issuer shall be discharged from its redemption obligations or any other

		payment obligations under the Securities by delivery to the Clearing System in the manner described above.
C.18	A description of how the return on derivative securities takes place.	Securityholders will receive on the relevant Maturity Date payment of the Redemption Amount.
C.19	Exercise price or final reference price of the underlying.	The Settlement Price of the Underlying equals the Price of the Underlying on the Valuation Date at the Valuation Time.
C.20	Type of the underlying and where the information on the underlying can be found.	Type of Underlying: The UBS Risk Adjusted Dynamic Alpha (RADA) Net Total Return Index (EUR) on EURO STOXX 50® Index (the “Index”) is an index as maintained, calculated and published by UBS AG, London Branch (the “Index Sponsor”). The Index uses a strictly rules-based methodology to implement a market timing strategy based on the proprietary UBS Dynamic Equity Risk Indicator in order to rotate in and out of equity investments. Information about the past and the further performance of the Underlying and its volatility can be obtained upon request from the Issuer.

Element	Section D – Risks	
		The purchase of Securities is associated with certain risks. The Issuer expressly points out that the description of the risks associated with an investment in the Securities describes only the key risks which were known to the Issuer at the date of the Prospectus.
D.2	Key information on the key risks that are specific and individual to the issuer.	The Securities entail an issuer risk, also referred to as debtor risk or credit risk for investors. An issuer risk is the risk that UBS AG becomes temporarily or permanently unable to meet its obligations under the Securities. General insolvency risk Each investor bears the general risk that the financial situation of the Issuer could deteriorate. The debt or derivative securities of the Issuer will constitute immediate, unsecured and unsubordinated obligations of the Issuer, which, in particular in the case of insolvency of the Issuer, rank <i>pari passu</i> with each other and all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of those that have priority due to mandatory statutory provisions. The Issuer's obligations relating to the Securities are not protected by any statutory or voluntary deposit guarantee system or compensation scheme. In the event of insolvency of the Issuer, investors may thus experience a total loss of their investment in the Securities. UBS as Issuer is subject to various risks within its business activities. Such risks comprise in particular the following types of risks, where all of these risks might have adverse effects on the value of the Securities: • Effect of downgrading of the Issuer's rating • Regulatory and legislative changes may adversely affect UBS' business and ability to execute its strategic plans • UBS' capital strength is important in supporting its strategy, client franchise and competitive position • UBS may not be successful in completing its announced strategic plans or in implementing changes in its businesses to meet changing market,

		regulatory and other conditions • Material legal and regulatory risks arise in the conduct of UBS' business • Operational risks may affect UBS' business • UBS' reputation is critical to the success of UBS' business • Performance in the financial services industry is affected by market conditions and the macroeconomic climate • UBS holds legacy and other risk positions that may be adversely affected by conditions in the financial markets; legacy risk positions may be difficult to liquidate • UBS' global presence subjects it to risk from currency fluctuations • UBS is dependent upon its risk management and control processes to avoid or limit potential losses in its trading and counterparty credit and trading businesses • Valuations of certain positions rely on models; models have inherent limitations and may use inputs which have no observable source • Liquidity and funding management are critical to UBS' ongoing performance • UBS might be unable to identify or capture revenue or competitive opportunities, or retain and attract qualified employees • UBS' financial results may be negatively affected by changes to accounting standards • UBS' financial results may be negatively affected by changes to assumptions supporting the value of UBS' goodwill • The effect of taxes on UBS' financial results is significantly influenced by reassessments of its deferred tax assets
D.6	Key information on the risks that are specific and individual to the securities.	Potential investors of the Securities should recognise that the Securities constitute a risk investment which can lead to a total loss of their investment in the Securities. Securityholders will incur a loss, if the amounts received in accordance with the Conditions of the Securities is below the purchase price of the Securities (including the transaction costs). Each investor in the Securities bears the risk of the Issuer's financial situation worsening and the potential subsequent inability of the Issuer to pay its obligations under the Securities. Potential investors must therefore be prepared and able to sustain a partial or even a total loss of the invested capital. Any investors interested in purchasing the Securities should assess their financial situation, to ensure that they are in a position to bear the risks of loss connected with the Securities. Security specific Risks 1. <u>Special risks related to specific features of the Security structure</u> Prior to investing in the Securities, potential investors should note that the following special features of the Securities may have a negative impact on the value of the Securities or, as the case may be, on any amount, if any, payable according to the Conditions of the Securities and that the Securities accordingly have special risk profiles:

		<u>Determination of the relevant Settlement Price</u> Prospective investors should note in case of an exercise of the Securities in accordance with the exercise procedure described in the Conditions of the Securities, the Valuation Date relevant for determining the Settlement Price will, subject to the Conditions of the Securities, be the 14 June of the immediately succeeding calendar year. Any negative performance of the Price of the Underlying between the exercise of the Securities by the Securityholder and the determination of the Price of the Underlying on the relevant Valuation Date are borne by the Securityholders. <u>No pre-defined term of the Securities</u> The Securities have - in contrast to securities with a fixed term - no pre-determined expiration date, and thus no defined term. As a result, the Securityholder's right vested in those Securities, must be exercised by the respective Securityholder on a specific Exercise Dates in accordance with the exercise procedure described in the Conditions of the Securities, if the Security Right is to be asserted. In the event that the required Exercise Notice is not duly received on the relevant Exercise Date, the Securities cannot be exercised until the next exercise date stated in the Conditions of the Securities. 2. <u>Termination and Early Redemption at the option of the Issuer</u> Potential investors in the Securities should furthermore be aware that the Issuer is under certain circumstances entitled to terminate and early redeem the Securities in total. In case the Issuer terminates and early redeems the Securities, the Securityholder is entitled to demand the payment of an amount in relation to this redemption. However, the Securityholder is not entitled to request any further payments on the Securities after the relevant termination date. The Securityholder, therefore, bears the risk of not participating in the performance of the Underlying to the expected extent and during the expected period and, therefore, receives less than its capital invested. In the case of a termination of the Securities by the Issuer, the Securityholder bears the risk of a reinvestment, <i>i.e.</i> the investor bears the risk that it will have to re-invest the Termination Amount, if any, paid by the Issuer in the case of termination at market conditions, which may be less favourable than those existing prevailing at the time of the acquisition of the Securities. 3. <u>Possible fluctuations in the level of the Underlying after termination of the Securities</u> In the event that the term of the Securities is terminated by the Issuer, potential investors of the Securities should note that any adverse fluctuations in the level of the Underlying between the announcement of the termination by the Issuer and the determination of the price of the Underlying relevant for the calculation of the then payable Termination Amount are borne by the Securityholders. 4. <u>Adverse impact of adjustments of the Security Right</u> It cannot be excluded that certain events occur or certain measures are taken (by parties other than the Issuer) in relation to the Underlying, which potentially lead to changes to the Underlying or result in the underlying concept of the Underlying being changed. In such case, the Issuer shall be entitled to effect adjustments according to the Conditions of the Securities to account for these events or measures. The adjustments to the Underlying might have a negative impact on the value of the Securities.
--	--	--

		5. <u>Determinations by the Calculation Agent</u> The Calculation Agent has certain discretion under the Conditions of the Securities (i) to determine whether certain events have occurred (in particular, the occurrence of a Market Disruption in accordance with the Conditions of the Securities), (ii) to determine any resulting adjustments and calculations, (iii) also to make adjustments to the Underlying and (iv) to postpone valuations or payments under the Securities. The Calculation Agent will make any such determination at its reasonable discretion (in accordance with § 317 of the BGB) and in a commercially reasonable manner. Potential investors should be aware that any determination made by the Calculation Agent may have an impact on the value and financial return of the Securities. Any such discretion exercised by, or any determination made by, the Calculation Agent shall (save in the case of manifest error) be final, conclusive and binding on the Issuer and the Securityholders. 6. <u>Trading in the Securities / Illiquidity</u> It is not possible to predict if and to what extent a secondary market may develop in the Securities or at what price the Securities will trade in the secondary market or whether such market will be liquid or illiquid. Even though the Securities are listed at SIX Swiss Exchange ("SIX") and admitted to trading on the platform of SIX Structured Products Exchange AG, no assurance is given that any such admission or listing will be maintained. The fact that the Securities are admitted to trading or listed does not necessarily denote greater liquidity than if this were not the case. If the Securities are not listed or traded on any exchange, pricing information for the Securities may be more difficult to obtain and the liquidity of the Securities, if any, may be adversely affected. The liquidity of the Securities, if any, may also be affected by restrictions on the purchase and sale of the Securities in some jurisdictions. Additionally, the Issuer has the right (but no obligation) to purchase Securities at any time and at any price in the open market or by tender or private agreement. Any Securities so purchased may be held or resold or surrendered for cancellation. In addition, it cannot be excluded that the number of Securities actually issued and purchased by investors is less than the intended Issue Size of the Securities. Consequently, there is the risk that due to the low volume of Securities actually issued the liquidity of the Securities is lower than if all Securities were issued and purchased by investors. The Manager intends, under normal market conditions, to provide bid and offer prices for the Securities of an issue on a regular basis. However, the Manager makes no firm commitment to the Issuer to provide liquidity by means of bid and offer prices for the Securities, and assumes no legal obligation to quote any such prices or with respect to the level or determination of such prices. Potential investors therefore should not rely on the ability to sell Securities at a specific time or at a specific price. 7. <u>Taxation in relation to the Securities</u> Potential investors should be aware that they may be required to pay taxes or other documentary charges or duties in accordance with the laws and practices of the country where the Securities are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available for innovative financial instruments such as the Securities. Potential investors are advised not to rely upon the tax summary contained in
--	--	--

		this Prospectus but to ask for their own tax adviser's advice on their individual taxation with respect to the acquisition, sale and redemption of the Securities. Only these advisors are in a position to duly consider the specific situation of the potential investor. 8. <u>Changes in Taxation in relation to the Securities</u> The considerations concerning the taxation of the Securities set forth in the Securities Note reflect the opinion of the Issuer on the basis of the legal situation identifiable as of the date of the Securities Note. However, a different tax treatment by the fiscal authorities and tax courts cannot be excluded. Each investor should seek the advice of his or her personal tax consultant before deciding whether to purchase the Securities. Potential investors should be aware that the legal situation identifiable as of the date of the Securities Note may change, possibly with retroactive effect. Neither the Issuer nor the Manager assumes any responsibility vis-à-vis the Securityholders for the tax consequences of an investment in the Securities. 9. <u>Potential conflicts of interest</u> The Issuer and affiliated companies may participate in transactions related to the Securities in some way, for their own account or for account of a client. Such transactions may not serve to benefit the Securityholders and may have a positive or negative effect on the value of the Underlying, and consequently on the value of the Securities. Furthermore, companies affiliated with the Issuer may become counterparties in hedging transactions relating to obligations of the Issuer stemming from the Securities. As a result, conflicts of interest can arise between companies affiliated with the Issuer, as well as between these companies and investors, in relation to obligations regarding the calculation of the price of the Securities and other associated determinations. In addition, the Issuer and its affiliates may act in other capacities with regard to the Securities, such as calculation agent, paying agent and administrative agent. Furthermore, the Issuer and its affiliates may issue other derivative instruments relating to the Underlying; introduction of such competing products may affect the value of the Securities. The Issuer and its affiliated companies may receive non-public information relating to the Underlying, and neither the Issuer nor any of its affiliates undertakes to make this information available to Securityholders. Within the context of the offering and sale of the Securities, the Issuer or any of its affiliates may directly or indirectly pay fees in varying amounts to third parties, such as distributors or investment advisors, or receive payment of fees in varying amounts, including those levied in association with the distribution of the Securities, from third parties. Potential investors should be aware that the Issuer may retain fees in part or in full. The Issuer or, as the case may be, the Manager, upon request, will provide information on the amount of these fees. <u>Underlying specific Risks</u> The Securities issued under the Prospectus are linked to an index. The amounts payable on redemption under the Securities will be determined by reference to the price or value of the Underlying. Accordingly, investing in the Securities also involves certain risks that are related to the Underlying and investors should review carefully the Prospectus to understand the effect on the Securities of such linkage to the Underlying.
--	--	--

		The purchase of, or investment in, the Securities linked to an Underlying involves substantial risks. These Securities are not conventional securities and carry various unique investment risks which potential investors should understand clearly before investing in the Securities. Potential investors in such Securities should be familiar with this type of securities and should fully review all documentation, read and understand the Prospectus and be aware of the nature and extent of the exposure to risk of loss. Investing in the Securities, hence, also involves certain risks that are related to the Underlying: 1. <u>General risks related to the Underlying</u> Investors should be aware that some risks are related to the Underlying in general: Risk of fluctuations in value The performance of the Underlying is subject to fluctuations. Therefore, Securityholders cannot foresee what consideration they can expect to receive for the Securities they hold on a certain day in the future. When the Securities are redeemed, exercised or otherwise disposed of on a certain day, they may be worth a lot less than if they were disposed of at a later or earlier point in time. Uncertainty about future performance It is not possible to reliably predict the future performance of the Underlying. Likewise, the historical data of the Underlying does also not allow for any conclusions to be drawn about the future performance of the Underlying and the Securities. No warranties or representations regarding the future performance of the Underlying The Issuer does not give any explicit or tacit warranty or representation regarding the future performance of the Underlying. In addition, the issuer or the sponsor of the Underlying does not assume any obligation to consider the interests of the Issuer of the Securities or the Securityholders for any reason whatsoever. No rights of ownership in the Underlying Potential investors should be aware that the Underlying will not be held by the Issuer for the benefit of the Securityholders, and that Securityholders will not obtain any rights of ownership (including, without limitation, any voting rights, any rights to receive dividends or other distributions or any other rights) with respect to any Underlying to which the Securities are related. Neither the Issuer nor any of its affiliates is under any obligation whatsoever to acquire or hold any Underlying. 2. <u>Specific risks related to the Underlying</u> In addition, the following risks are specifically related to the Underlying: Investors should be aware that some risks are related to the Underlying. Consequently, any investment in the Securities is, to a certain extent, subject to market risks similar to a direct investment in the index components. These risks include risks related to a direct investment in the index components, the dependence on the value of the index components, the influence of the Issuer or the index sponsor on the Index, the adverse effect of fees on the index and currency exchange risk contained in the index. Potential investors should seek respective advice and familiarise themselves with the specific risk profile of the

		Index and seek the advice of a professional, if necessary.
	Risk warning to the effect that investors may lose the value of their entire investment or part of it.	Each investor in the Securities bears the risk of the Issuer's financial situation worsening and the potential subsequent inability of the Issuer to pay its obligations under the Securities. Potential investors must therefore be prepared and able to sustain a partial or even a total loss of the invested capital. Any investors interested in purchasing the Securities should assess their financial situation, to ensure that they are in a position to bear the risks of loss connected with the Securities.

As a result, conflicts of interest can arise between companies affiliated with the Issuer, as well as between these companies and investors, in relation to obligations regarding the calculation of the price of the Securities and other associated determinations. The Issuer or, as the case may be, the Manager, upon request, will provide information on the amount of these fees. Punkt	Abschnitt B – Emittentin	
B.1	Juristische und kommerzielle Bezeichnung der Emittentin.	Die juristische und kommerzielle Bezeichnung der Emittentin ist UBS AG ("Emittentin" oder "UBS AG"; gemeinsam mit ihren Tochtergesellschaften, "UBS", "UBS Gruppe" oder die "Gruppe").
B.2	Sitz, Rechtsform, geltendes Recht und Land der Gründung der Emittentin.	UBS AG in ihrer heutigen Form entstand am 29. Juni 1998 durch die Fusion der 1862 gegründeten Schweizerischen Bankgesellschaft und des 1872 gegründeten Schweizerischen Bankvereins. UBS AG ist in den Handelsregistern des Kantons Zürich und des Kantons Basel-Stadt eingetragen. Die Handelsregisternummer lautet CH-101.329.561. UBS AG hat ihren Sitz in der Schweiz, wo sie als Aktiengesellschaft nach schweizerischem Aktienrecht und den schweizerischen bankengesetzlichen Bestimmungen eingetragen ist. Die Adressen und Telefonnummern der beiden Satzungs- und Verwaltungssitze der UBS AG lauten: Bahnhofstraße 45, CH-8001 Zürich, Schweiz, Telefon +41 44 234 1111, und Aeschenvorstadt 1, CH 4051 Basel, Schweiz, Telefon +41 61 288 5050.
B.4b	Alle bereits bekannten Trends, die sich auf die Emittentin und die Branchen, in denen sie tätig ist, auswirken.	Trendinformation Wie im am 28. Oktober 2014 publizierten dritten Quartalsbericht 2014 der UBS AG (einschließlich ungeprüften konsolidierten Finanzangaben) dargestellt, bleiben zu Beginn des vierten Quartals 2014 viele der bereits früher erwähnten Herausforderungen grundsätzlicher und geopolitischer

		Natur unverändert bestehen und haben sich in einigen Fällen verschärft. Es sind einige neue Bedenken entstanden, darunter die befürchteten Risiken im Zusammenhang mit dem Ebola-Virus. Die durchwachsenen Perspektiven für das globale Wachstum, das Fehlen nachhaltiger und glaubwürdiger Fortschritte bei den ungelösten Problemen in Europa, offene Fragen im Zusammenhang mit der amerikanischen Fiskal- und Geldpolitik sowie erhöhte geopolitische Instabilität würden Ergebnisverbesserungen unter den herrschenden Marktbedingungen unwahrscheinlich machen. Ungeachtet dieser anhaltenden Herausforderungen wird die UBS mit der Umsetzung ihrer Strategie fortfahren, um so den langfristigen Erfolg des Unternehmens sicherzustellen und für die Aktionäre nachhaltige Renditen zu erwirtschaften.
B.5	Beschreibung der Gruppe und Stellung der Emittentin innerhalb dieser Gruppe.	Die UBS AG ist die Muttergesellschaft der Gruppe. Weder die Unternehmensbereiche von UBS noch das Corporate Center sind rechtlich selbstständige Einheiten. Derzeit führen sie in erster Linie vielmehr ihre Geschäftsaktivitäten durch die weltweiten Niederlassungen der UBS AG aus. Die Geschäfte werden wo nötig oder wünschenswert auch durch lokale Tochtergesellschaften geführt. Die UBS hat mit einem Aktientauschangebot begonnen, um eine Konzernholdinggesellschaft, die UBS Group AG, zu schaffen. Mit der Komplettierung der Abwicklung des initialen Umtauschangebots, die am 28. November 2014 stattfand, wurde die UBS Group AG die Muttergesellschaft der UBS AG und die Holdinggesellschaft der UBS Gruppe. UBS hat ebenfalls angekündigt, dass sie beabsichtigt, Mitte 2015 eine neue Tochterbank in der Schweiz zu gründen. Der Umfang des Geschäfts dieser künftigen Tochtergesellschaft wird den Geschäftsbereich Retail & Corporate sowie das in der Schweiz gebuchte Geschäft innerhalb des Wealth Management-Geschäftsbereichs umfassen. In Großbritannien und in Absprache mit den britischen und Schweizer Regulierungsbehörden hat die UBS Limited, UBS' britische Tochterbank, im Mai 2014 ein überarbeitetes Geschäftsmodell implementiert, nach welchem UBS Limited bei ihrer Geschäftstätigkeit ein höheres Risiko trägt und eine höhere Vergütung erhält. Dies führt für UBS Limited grundsätzlich dazu, dass sie das Kreditrisiko, gewisse Marktrisiken und andere Risiken trägt und verwaltet, die UBS Limited eine unabhängigere Rolle bei der Verwaltung ihrer Finanzausstattung und Liquiditätsanforderungen einnimmt und UBS Limited ihr aufsichtsrechtliches Eigenkapital erhöht hat. In den USA wird UBS die neuen Regeln für ausländische Banken gemäss dem Dodd-Frank Wall Street Reform and Consumer Protection Act einhalten, nach denen eine Zwischenholdinggesellschaft erforderlich sein wird, unter der alle Geschäfte der UBS AG mit Ausnahme ihrer US Zweigniederlassungen bis zum 1. Juli 2016 zusammengefasst werden. UBS wird daher eine Zwischenholdinggesellschaft bestimmen, die sämtliche US Tochtergesellschaften von UBS hält.

Zahlen per 31. Dezember 2012 sind auf Grundlage der unten beschriebenen Schätzungen berechnet und werden in diesem Prospekt als „pro-forma“ bezeichnet. Der in diesem Prospekt verwendete Begriff „pro-forma“ bezieht sich nicht auf den in der Verordnung (EG) 809/2004 verwendeten Begriff „Pro forma-Finanzinformationen“. Einige bei der Berechnung der Pro-forma-Informationen angewandten Modelle erforderten eine regulatorische Bewilligung und enthielten Schätzungen (gemäss Diskussion mit primärer Aufsichtsstelle von UBS) der Auswirkung der neuen Eigenkapitalanforderungen. Diese Zahlen müssen nicht dargestellt werden, da die Basel III-Anforderungen am 31. Dezember 2012 noch nicht in Kraft waren. Sie werden jedoch aus Vergleichszwecken aufgeführt, da die Basel III-Anforderungen am 1. Januar 2013 wirksam waren. Zahlen per 31. Punkt	Abschnitt C – Wertpapiere	
C.1	Art und Gattung der Wertpapiere, einschließlich jeder Wertpapierkennung.	Art und Gattung der Wertpapiere Die Wertpapiere sind derivative Zertifikate, die nicht kapitalgeschützt sind. Die Wertpapiere werden als Wertrechte („Wertrechte“) im Sinne von Art. 973c des Schweizerischen Obligationenrechts („OR“) ausgegeben. Die Wertrechte werden in dem Hauptregister einer Schweizer Verwahrungsstelle („Verwahrungsstelle“) im Sinne des Bundesgesetzes über die Bucheffekten („BEG“) registriert. Durch (a) die Eintragung der Wertrechte in das Hauptregister der Verwahrungsstelle und (b) die Einbuchung der Wertpapiere in das Effektenkonto einer Verwahrungsstelle begründen die Wertrechte Bucheffekten im Sinn des BEG („Bucheffekten“). Die Emittentin wird üblicherweise SIS SIX AG, Baslerstrasse 100, CH-4600 Olten, Schweiz, („SIS“ oder das „Clearingsystem“) als Verwahrungsstelle einsetzen, behält sich aber das Recht vor, andere Verwahrungsstelle einschließlich der UBS AG einzusetzen. Bucheffekte werden gemäß den Bestimmungen der Verwahrungsstelle und den maßgeblichen Verträgen mit der Verwahrungsstelle übertragen (dabei dürfen insbesondere weder die Bucheffekten noch Rechte an den Bucheffekten ohne vorherige schriftliche Zustimmung der Emittentin durch Zession gemäß den Artikeln 164 ff. OR übertragen werden). Die Wertpapiergläubiger haben zu keinem Zeitpunkt das Recht, (a) die Umwandlung von Wertrechten in physische Wertpapiere und/oder (b) die Lieferung von physischen Wertpapieren zu verlangen. Zur Klarstellung und ungeachtet der Umwandlung begründen Wertrechte stets Bucheffekten. Wertpapier-Kennnummer(n) der Wertpapiere ISIN: CH0188195264 WKN: UU2GTX Valor: 18819526
C.2	Währung der Wertpapieremission.	Euro ("EUR") (die "Auszahlungswährung")
C.5	Beschränkungen der freien Übertragbarkeit der Wertpapiere.	Entfällt; die freie Übertragbarkeit der Wertpapiere ist nicht beschränkt.
C.8	Mit den Wertpapieren verbundene Rechte, einschließlich der Rangordnung und Beschränkungen dieser Rechte.	Maßgebliches Recht der Wertpapiere Die Wertpapiere unterliegen Schweizer Recht. Mit den Wertpapieren verbundene Rechte Die Wertpapiere berechtigen die Wertpapiergläubiger vorbehaltlich der Bedingungen der Wertpapiere bei Ausübung, zu einem Anspruch auf Zahlung des Auszahlungsbetrags in der Auszahlungswährung. Während der Laufzeit der Wertpapiere erhält der Anleger keine laufenden Erträge (z. B. Dividenden oder Zinsen). Beschränkungen der mit den Wertpapieren verbundenen Rechten. Die Emittentin ist unter den in den Bedingungen der Wertpapiere festgelegten Voraussetzungen zur Kündigung der Wertpapiere und zu Anpassungen der Bedingungen der Wertpapiere berechtigt. Status der Wertpapiere Die Wertpapiere begründen unmittelbare, unbesicherte und nicht

		nachrangige Verbindlichkeiten der Emittentin, die untereinander und mit allen sonstigen gegenwärtigen und künftigen unbesicherten und nicht nachrangigen Verbindlichkeiten der Emittentin gleichrangig sind, ausgenommen solche Verbindlichkeiten, denen aufgrund zwingender gesetzlicher Vorschriften Vorrang zukommt.
C.11	Antrag auf Zulassung zum Handel an einem geregelten Markt oder anderen gleichwertigen Märkten.	Die Wertpapiere sind an der SIX Swiss Exchange ("SIX") notiert und zum Handeln auf der Handelsplattform SIX Structured Products Exchange AG zugelassen.
C.15	Einfluss des Basiswerts auf den Wert der Wertpapiere.	Der Wert der UBS Open End Zertifikate während ihrer Laufzeit hängt von der Entwicklung des Basiswerts ab. Im Fall, dass der Kurs des Basiswerts steigt, wird auch der Wert der UBS Open End Zertifikate wahrscheinlich steigen. Im Fall, dass der Kurs des Basiswerts fällt, wird auch der Wert der UBS Open End Zertifikate wahrscheinlich fallen. Insbesondere hängt der bei Ausübung der UBS Open End Zertifikate gegebenenfalls an die Wertpapiergläubiger zu zahlende Zahlungsbetrag von Entwicklung des Basiswerts ab. Daher können Anleger mit den UBS Open End Zertifikaten, unter Berücksichtigung der Management Gebühr, an der positiven Kursentwicklung des Basiswerts partizipieren. Im Gegenzug nehmen Anleger mit den UBS Open End Zertifikaten aber auch an der negativen Kursentwicklung des Basiswerts teil. Bei Ausübung der UBS Open End Zertifikate durch den Wertpapiergläubiger oder die Emittentin erhalten Wertpapiergläubiger am Fälligkeitstag einen Zahlungsbetrag in der Zahlungswährung, dessen Höhe vom Abrechnungskurs des Basiswerts abhängt. Der Zahlungsbetrag wird errechnet, indem die Management Gebühr vom Abrechnungskurs des Basiswerts abgezogen und dieses Ergebnis mit dem Bezugsverhältnis multipliziert wird. Während der Laufzeit der UBS Open End Zertifikate erhält der Anleger keine laufenden Erträge (z. B. Dividenden oder Zinsen).
C.16	Verfalltag oder Fälligkeitstermin — Ausübungstermin oder letzter Referenztermin.	Der Fälligkeitstag entspricht dem fünften Bankgeschäftstag nach (i) dem maßgeblichen Bewertungstag und (ii) im Fall einer Kündigung bzw. einer Steuer-Kündigung durch die Emittentin nach dem Kündigungstag bzw. nach dem Steuer-Kündigungstag. Der Bewertungstag entspricht (i) im Fall der Ausübung der Wertpapiere durch den Wertpapiergläubiger, vorbehaltlich eines wirksamen Ausübungsverfahrens, dem 14. Juni des darauffolgenden Kalenderjahres bzw. (ii) im Fall einer Tilgung durch die Emittentin dem Tilgungstag. Der Ausübungstag entspricht jeweils dem 14. Juni eines Kalenderjahres.
C.17	Abrechnungsverfahren für die derivativen Wertpapiere.	Zahlungen werden in jedem Fall vorbehaltlich sämtlicher anwendbarer steuerlicher oder sonstiger Gesetze und Vorschriften im Zusammenhang mit der Zahlung oder sonstiger Gesetze und Vorschriften, denen sich die Emittentin unterwirft, in Übereinstimmung mit den Vorschriften und Verfahren, die auf das Clearingsystem Anwendung finden und/oder von diesem herausgegeben werden (die "CS-Regeln") dem Clearingsystem oder an dessen Order zur Gutschrift auf den Konten der betreffenden Kontoinhaber bei dem Clearingsystem bereitgestellt Die Emittentin wird mit der vorstehend beschriebenen Leistung an das Clearingsystem von den ihr unter diesen Bedingungen der Wertpapiere obliegenden Tilgungsverpflichtungen bzw. sonstigen Zahlungs-

		verpflichtungen befreit.
C.18	Tilgung der derivativen Wertpapiere.	Die Wertpapiergläubiger erhalten an dem maßgeblichen Fälligkeitstag die Zahlung des Auszahlungsbetrags.
C.19	Ausübungspreis oder endgültiger Referenzpreis des Basiswerts.	Der Abrechnungskurs des Basiswerts entspricht dem Kurs des Basiswerts an dem Bewertungstag zur Bewertungszeit.
C.20	Art des Basiswerts und Angabe des Ortes, an dem Informationen über den Basiswert erhältlich sind.	Art des Basiswerts: Der UBS Risk Adjusted Dynamic Alpha (RADA) Net Total Return Index (EUR) on EURO STOXX 50® Index (der "Index") ist ein Index, der von der UBS AG, Niederlassung London (der "Index Sponsor") verwaltet, berechnet und veröffentlicht wird. Der Index nutzt eine streng regelbasierte Methode, um eine Markttiming-Strategie umzusetzen, die auf dem proprietären UBS Dynamic Equity Risk Indicator basiert und über die jeweilige Positionierung im Aktienmarkt entscheidet. Informationen zur historischen und zukünftigen Wertentwicklung des Basiswerts und seiner Volatilität sind auf Anfrage von der Emittentin erhältlich.

Punkt	Abschnitt D – Risiken	
		Der Erwerb von Wertpapieren ist mit bestimmten Risiken verbunden. Die Emittentin weist ausdrücklich darauf hin, dass die Beschreibung der mit einer Anlage in die Wertpapiere verbundenen Risiken nur die wesentlichen Risiken beschreibt, die der Emittentin zum Datum des Prospekts bekannt waren.
D.2	Zentrale Angaben zu den zentralen Risiken, die der Emittentin eigen sind.	Die Wertpapiere beinhalten ein sog. Emittentenrisiko, das auch als Schuldnerisiko oder Kreditrisiko der Investoren bezeichnet wird. Das Emittentenrisiko ist das Risiko, dass die UBS AG zeitweise oder andauernd nicht in der Lage ist, ihren Verpflichtungen unter den Wertpapieren nachzukommen. Allgemeines Insolvenzrisiko Jeder Investor trägt allgemein das Risiko, dass sich die finanzielle Situation der Emittentin verschlechtern könnte. Die Wertpapiere begründen unmittelbare, unbesicherte und nicht nachrangige Verbindlichkeiten der Emittentin, die - auch im Fall der Insolvenz der Emittentin - untereinander und mit allen sonstigen gegenwärtigen und künftigen unbesicherten und nicht nachrangigen Verbindlichkeiten der Emittentin gleichrangig sind, ausgenommen solche Verbindlichkeiten, denen aufgrund zwingender gesetzlicher Vorschriften Vorrang zukommt. Die durch die Wertpapiere begründeten Verbindlichkeiten der Emittentin sind nicht durch ein System von Einlagensicherungen oder eine Entschädigungseinrichtung geschützt. Im Falle der Insolvenz der Emittentin könnte es folglich sein, dass Anleger einen Totalverlust ihrer Investition in die Wertpapiere erleiden. UBS als Emittentin unterliegt in ihrer Geschäftsaktivitäten verschiedenen Risiken. Diese Risiken umfassen insbesondere Risiken der folgenden Arten, wobei sämtliche dieser Risiken nachteilige Auswirkungen auf den Wert der Wertpapiere haben können: • Auswirkung einer Herabstufung des Ratings der Emittentin • Aufsichtsrechtliche und gesetzliche Veränderungen können die Geschäfte von UBS sowie die Fähigkeit von UBS, die strategischen

		Pläne umzusetzen, nachteilig beeinflussen • Die Kapitalstärke der UBS ist wichtig für die Unterstützung ihrer Strategie, den Erhalt ihrer Kundenbasis und ihrer Wettbewerbsfähigkeit • UBS kann ihre angekündigten strategischen Pläne möglicherweise nicht erfolgreich zu Ende führen oder Änderungen in ihren Unternehmensbereichen zur Anpassung an die Entwicklung der Markt-, aufsichtsrechtlichen und sonstigen Bedingungen nicht erfolgreich umsetzen • Aus der Geschäftstätigkeit der UBS können wesentliche rechtliche und regulatorische Risiken erwachsen • Operationelle Risiken können das Geschäft der UBS beeinträchtigen • Die Reputation der UBS ist ein kritischer Faktor für den Erfolg der Geschäfte der UBS • Die Ergebnisse der Finanzdienstleistungsbranche hängen von den Marktbedingungen und vom makroökonomischen Umfeld ab • UBS hält Altlast-Risikopositionen (<i>legacy risk positions</i>) und andere Risikopositionen, die von den Bedingungen an den Finanzmärkten beeinträchtigt werden könnten; Altlast-Risikopositionen könnten schwierig zu liquidieren sein • Aufgrund ihrer globalen Präsenz unterliegt UBS Risiken, die sich aus Währungsschwankungen ergeben • UBS ist auf ihre Risikomanagement- und -kontrollprozesse angewiesen, um mögliche Verluste bei ihren Kreditgeschäften mit Gegenparteien sowie Handelsgeschäften zu verhindern oder zu begrenzen • Bewertungen bestimmter Positionen hängen von Modellen ab, die naturgemäß ihre Grenzen haben und die unter Umständen Daten aus nicht beobachtbaren Quellen anwenden • Liquiditätsbewirtschaftung und Finanzierung sind für die laufende Performance der UBS von größter Bedeutung • UBS könnte außerstande sein, Ertrags- oder Wettbewerbschancen zu identifizieren und zu nutzen, oder bei der Gewinnung und Bindung qualifizierter Mitarbeiter scheitern • Die Finanzergebnisse der UBS könnten durch geänderte Rechnungslegungsstandards beeinträchtigt werden • Die Finanzergebnisse der UBS könnten durch geänderte Annahmen bezüglich des Werts des Goodwills der UBS beeinträchtigt werden • Die Steuerauswirkungen von Steuern auf die Finanzergebnisse der UBS werden erheblich durch Neueinschätzungen der latenten Steueransprüche der UBS beeinflusst
D.6	Zentrale Angaben zu den zentralen Risiken, die den Wertpapieren eigen sind.	Potenzielle Erwerber sollten sich darüber im Klaren sein, dass es sich bei Wertpapieren um eine Risikoanlage handelt, die mit der Möglichkeit von Totalverlusten hinsichtlich des eingesetzten Kapitals verbunden ist. Wertpapiergläubiger erleiden einen Verlust, wenn die gemäß den Bedingungen der Wertpapiere erhaltenen Beträge unter dem Kaufpreis der

		Wertpapiere (einschließlich etwaiger Transaktionskosten) liegt. Investoren in die Wertpapiere tragen das Risiko der Verschlechterung der finanziellen Situation der Emittentin und der daraus folgenden möglichen Unfähigkeit der Emittentin, ihren Verpflichtungen unter den Wertpapieren nachzukommen. Potenzielle Erwerber müssen deshalb bereit und in der Lage sein, Verluste des eingesetzten Kapitals bis hin zum Totalverlust hinzunehmen. Alle an einem Erwerb der Wertpapiere interessierten Anleger sollten ihre jeweiligen wirtschaftlichen Verhältnisse überprüfen, um sicherzustellen, dass sie in der Lage sind, die mit dem Wertpapier verbundenen Verlustrisiken zu tragen. Wertpapierspezifische Risikohinweise 1. <u>Spezielle Risiken im Zusammenhang mit besonderen Merkmalen der Wertpapierstruktur</u> Potenzielle Erwerber der Wertpapiere müssen vor einer Investition in die Wertpapiere beachten, dass die folgenden Besonderheiten der Wertpapiere nachteilige Auswirkungen auf den Wert der Wertpapiere bzw. die Höhe des nach den Bedingungen der Wertpapiere gegebenenfalls zu zahlenden Geldbetrags haben können und dementsprechend besondere Risikoprofile aufweisen: <u>Bestimmung des maßgeblichen Abrechnungskurs</u> Potenziellen Erwerbern der Wertpapiere sollte bewusst sein, dass im Fall einer Ausübung der Wertpapiere in Übereinstimmung mit dem in den Bedingungen der Wertpapiere festgelegten Ausübungsverfahren der für die Bestimmung des Abrechnungskurs maßgebliche Bewertungstag, vorbehaltlich der Bedingungen der Wertpapiere, dem 14. Juni des darauffolgenden Kalenderjahres entspricht. Mögliche negative Entwicklungen der Kurse des Basiswerts nach dem Zeitpunkt der Ausübung durch den Wertpapiergläubiger bis zur Ermittlung der für die Berechnung des Abrechnungskurs maßgeblichen Kurs des Basiswerts am entsprechenden Bewertungstag gehen zu Lasten der Wertpapiergläubiger. <u>Keine festgelegte Laufzeit der Wertpapiere</u> Die Wertpapiere haben - im Gegensatz zu Wertpapieren mit einer festen Laufzeit - keinen festgelegten Verfalltag und dementsprechend keine festgelegte Laufzeit. Das in den Wertpapieren verbriefte Wertpapierrecht der Wertpapiergläubiger muss dementsprechend durch den jeweiligen Wertpapiergläubiger in Übereinstimmung mit dem in den Bedingungen der Wertpapiere festgelegten Ausübungsverfahren zu einem bestimmten Ausübungstag ausgeübt werden, um das Wertpapierrecht geltend zu machen. Wenn die Ausübungserklärung nicht fristgerecht zu diesem Ausübungstermin vorliegt, kann eine erneute Ausübung erst wieder zu dem nächsten in den Bedingungen der Wertpapiere vorgesehenen Termin erfolgen. 2. <u>Kündigung und vorzeitige Tilgung der Wertpapiere durch die Emittentin</u> Potenziellen Erwerbern der Wertpapiere sollte bewusst sein, dass die Emittentin unter bestimmten Voraussetzungen die Möglichkeit hat, die Wertpapiere insgesamt zu kündigen und vorzeitig zu tilgen. Wenn die Emittentin die Wertpapiere kündigt und vorzeitig tilgt, hat der Wertpapiergläubiger das Recht, die Zahlung eines Geldbetrags in Bezug auf die Tilgung zu verlangen. Der Wertpapiergläubiger hat jedoch keinen Anspruch auf irgendwelche weiteren Zahlungen auf die Wertpapiere nach dem maßgeblichen Kündigungstag.
--	--	---

		Der Wertpapiergläubiger trägt damit das Risiko, dass er an der Wertentwicklung des Basiswerts nicht in dem erwarteten Umfang und über den erwarteten Zeitraum partizipieren und damit auch weniger als sein eingesetztes Kapital zurückerhalten kann. Im Falle einer Kündigung der Wertpapiere durch die Emittentin trägt der Wertpapiergläubiger zudem das Wiederanlagerisiko. Dies bedeutet, dass er den durch die Emittentin im Falle einer Kündigung gegebenenfalls ausgezahlten Kündigungsbetrag möglicherweise nur zu ungünstigeren Marktkonditionen als denen, die beim Erwerb der Wertpapiere vorlagen, wiederanlegen kann. 3. <u>Mögliche Kursschwankungen des Standes des Basiswerts nach Beendigung der Laufzeit der Wertpapiere</u> Soweit die Laufzeit der Wertpapiere durch die Emittentin durch Kündigung gemäß den Bedingungen der Wertpapiere beendet wird, müssen potenzielle Erwerber der Wertpapiere beachten, dass ungünstige Schwankungen des Standes des Basiswerts nach dem Zeitpunkt der Kündigungserklärung bis zur Ermittlung des für die Berechnung des dann zahlbaren Kündigungsbetrag verwendeten Standes des Basiswerts zu Lasten der Wertpapiergläubiger gehen. 4. <u>Nachteilige Auswirkungen von Anpassungen des Wertpapierrechts</u> Es kann nicht ausgeschlossen werden, dass gewisse Ereignisse eintreten oder (von Dritten, mit Ausnahme der Emittentin) in Bezug auf den Basiswert Maßnahmen ergriffen werden, die möglicherweise zu Änderungen an dem Basiswert führen oder darin resultieren, dass das dem Basiswert zu Grunde liegende Konzept geändert wird. Die Emittentin ist gemäß den Bedingungen der Wertpapiere berechtigt, Anpassungen der Bedingungen der Wertpapiere vorzunehmen, um diese Ereignisse oder Maßnahmen zu berücksichtigen. Diese Anpassungen des Basiswerts können sich negativ auf den Wert der Wertpapiere auswirken. 5. <u>Festlegungen durch die Berechnungsstelle</u> Die Berechnungsstelle hat nach Maßgabe der Bedingungen der Wertpapiere bestimmte Ermessensfreiheiten (i) bei der Feststellung, ob bestimmte Ereignisse (insbesondere in Übereinstimmung mit den Bedingungen der Wertpapiere eine Marktstörung) eingetreten sind, (ii) bei der Feststellung der sich daraus ergebenden Anpassungen und Berechnungen, (iii) hinsichtlich der Anpassungen des Basiswerts, (iv) hinsichtlich des Verschiebens von Bewertungen oder Zahlungen in Bezug auf die Wertpapiere. Die Berechnungsstelle nimmt solche Feststellungen (gemäß § 317 BGB) nach ihrem billigen Ermessen und in wirtschaftlich angemessener Weise vor. Potenziellen Anlegern sollte bewusst sein, dass eine von der Berechnungsstelle vorgenommene Feststellung sich auf den Wert der Wertpapiere und die Erträge daraus auswirken kann. Die Ausübung eines solchen Ermessens oder die Vornahme einer Berechnung durch die Berechnungsstelle ist, außer in Fällen offensichtlichen Irrtums, für die Emittentin und die Wertpapiergläubiger endgültig, abschließend und bindend. 6. <u>Handel in den Wertpapieren / Mangelnde Liquidität</u> Es lässt sich nicht voraussagen, ob und inwieweit sich ein Sekundärmarkt für die Wertpapiere entwickelt, zu welchem Preis die Wertpapiere in diesem Sekundärmarkt gehandelt werden und ob dieser Sekundärmarkt liquide sein wird oder nicht. Obwohl die Wertpapiere an der SIX Swiss Exchange ("SIX") notiert und zum Handeln auf der Handelsplattform SIX Structured
--	--	--

		Products Exchange AG zugelassen sind, besteht keine Gewähr dafür, dass eine solche Zulassung oder ein solches Listing aufrecht erhalten wird. Der Umstand, dass die Wertpapiere zum Handel zugelassen oder gelistet werden, bedeutet nicht zwangsläufig eine größere Liquidität, als wenn dies nicht der Fall wäre. Sofern die Wertpapiere an keiner Börse gelistet oder gehandelt werden, können Preisinformationen im Hinblick auf die Wertpapiere schwieriger zu erhalten sein und die Liquidität der Wertpapieren (sofern vorhanden) kann ungünstig beeinflusst werden. Die gegebenenfalls bestehende Liquidität der Wertpapiere kann ebenfalls durch Beschränkung des Kaufs und Verkaufs der Wertpapiere in bestimmten Ländern beeinflusst werden. Die Emittentin ist zudem berechtigt, jedoch nicht verpflichtet, jederzeit Wertpapiere zu einem beliebigen Kurs im offenen Markt oder im Bietungsverfahren oder durch Privatvereinbarung zu erwerben. Alle derart erworbenen Wertpapiere können gehalten, wiederverkauft oder zur Entwertung eingereicht werden. Darüber hinaus kann nicht ausgeschlossen werden, dass die Anzahl der tatsächlich emittierten und von Anlegern erworbenen Wertpapieren geringer ist als das Ausgabevolumen der Wertpapiere. Es besteht deshalb das Risiko, dass aufgrund einer geringen Anzahl tatsächlich emittierter Wertpapiere die Liquidität der Wertpapiere geringer ist, als sie bei einer Ausgabe und des Erwerbs sämtlicher Wertpapiere durch Anleger wäre. Der Manager beabsichtigt, unter gewöhnlichen Marktbedingungen regelmäßig Ankaufs- und Verkaufskurse für die Wertpapiere einer Emission zu stellen. Der Manager hat sich jedoch nicht aufgrund einer festen Zusage gegenüber der Emittentin zur Stellung von Liquidität mittels Geld- und Briefkursen hinsichtlich der Wertpapiere verpflichtet und übernimmt bzw. übernehmen keinerlei Rechtspflicht zur Stellung derartiger Kurse oder hinsichtlich der Höhe oder des Zustandekommens derartiger Kurse. Potenzielle Erwerber sollten deshalb nicht darauf vertrauen, das jeweilige Wertpapier zu einer bestimmten Zeit oder einem bestimmten Kurs veräußern zu können. 7. <u>Besteuerung der Wertpapiere</u> Potentielle Investoren sollten sich vergegenwärtigen, dass sie gegebenenfalls verpflichtet sind, Steuern oder andere Gebühren oder Abgaben nach Maßgabe der Rechtsordnung und Praktiken desjenigen Landes zu zahlen, in das die Wertpapiere übertragen werden oder möglicherweise auch nach Maßgabe anderer Rechtsordnungen. In einigen Rechtsordnungen kann es zudem an offiziellen Stellungnahmen der Finanzbehörden oder Gerichtsentscheidungen in Bezug auf innovative Finanzinstrumente wie den hiermit angebotenen Wertpapieren fehlen. Potentiellen Investoren wird daher geraten, sich nicht auf die in dem Basisprospekt enthaltene summarische Darstellung der Steuersituation zu verlassen, sondern sich in Bezug auf ihre individuelle Steuersituation hinsichtlich des Kaufs, des Verkaufs und der Rückzahlung der Wertpapiere von ihrem eigenen Steuerberater beraten zu lassen. Nur diese Berater sind in der Lage, die individuelle Situation des potentiellen Investors angemessen einzuschätzen. 8. <u>Änderung der Grundlage der Besteuerung der Wertpapiere</u> Die in der Wertpapierbeschreibung ausgeführten Überlegungen hinsichtlich der Besteuerung der Wertpapiere geben die Ansicht der Emittentin auf Basis der zum Datum der Wertpapierbeschreibung geltenden steuerrechtlichen Situation

		wieder. Eine andere steuerliche Behandlung durch die Finanzbehörden und Finanzgerichte kann jedoch nicht ausgeschlossen werden. Jeder Anleger sollte vor der Entscheidung über einen Kauf der Wertpapiere seinen persönlichen Steuerberater konsultieren. Potentielle Investoren sollten sich vergegenwärtigen, dass sich die zum Datum der Wertpapierbeschreibung geltende steuerrechtliche Situation, möglicherweise auch rückwirkend, ändern kann. Weder die Emittentin noch der Manager übernehmen gegenüber den Wertpapiergläubigern die Verantwortung für die steuerlichen Konsequenzen einer Anlage in die Wertpapiere. 9. <u>Potenzielle Interessenkonflikte</u> Die Emittentin und mit ihr verbundene Unternehmen können sich von Zeit zu Zeit für eigene Rechnung oder für Rechnung eines Kunden an Transaktionen beteiligen, die mit den Wertpapieren in Verbindung stehen. Diese Transaktionen sind möglicherweise nicht zum Nutzen der Wertpapiergläubiger und können positive oder negative Auswirkungen auf den Wert des Basiswerts und damit auf den Wert der Wertpapiere haben. Mit der Emittentin verbundene Unternehmen können außerdem Gegenparteien bei Deckungsgeschäften bezüglich der Verpflichtungen der Emittentin aus den Wertpapieren werden. Daher können hinsichtlich der Pflichten bei der Ermittlung der Kurse der Wertpapiere und anderen damit verbundenen Feststellungen sowohl unter den mit der Emittentin verbundenen Unternehmen als auch zwischen diesen Unternehmen und den Anlegern Interessenkonflikte auftreten. Zudem können die Emittentin und mit ihr verbundene Unternehmen gegebenenfalls in Bezug auf die Wertpapiere zusätzlich eine andere Funktion ausüben, zum Beispiel als Berechnungsstelle und/oder als Zahl- und Verwaltungsstelle. Die Emittentin und mit ihr verbundene Unternehmen können darüber hinaus weitere derivative Instrumente in Verbindung mit dem Basiswert ausgeben; die Einführung solcher miteinander im Wettbewerb stehenden Produkte kann sich auf den Wert der Wertpapiere auswirken. Die Emittentin und mit ihr verbundene Unternehmen können nicht-öffentliche Informationen in Bezug auf den Basiswert erhalten, und weder die Emittentin noch eines der mit ihr verbundenen Unternehmen verpflichtet sich, solche Informationen an einen Wertpapiergläubiger zu veröffentlichen. Im Zusammenhang mit dem Angebot und Verkauf der Wertpapiere kann die Emittentin oder ein mit ihr verbundenes Unternehmen, direkt oder indirekt, Gebühren in unterschiedlicher Höhe an Dritte, zum Beispiel Vertriebspartner oder Anlageberater, zahlen oder Gebühren in unterschiedlichen Höhen einschließlich solcher im Zusammenhang mit dem Vertrieb der Wertpapiere von Dritten erhalten. Potenzielle Erwerber sollten sich bewusst sein, dass die Emittentin die Gebühren teilweise oder vollständig einbehalten kann. Über die Höhe dieser Gebühren erteilt bzw. erteilen die Emittentin bzw. der Manager auf Anfrage Auskunft. Basiswertspezifische Risikohinweise Die unter dem Prospekt begebenen Wertpapiere sind an einen Index gebunden. Die im Rahmen der Wertpapiere bei Tilgung zu zahlenden Beträge werden unter Bezugnahme auf den Preis oder Wert des Basiswerts bestimmt. Dementsprechend ist eine Anlage in die Wertpapiere auch mit bestimmten Risiken verbunden, die sich auf den Basiswert beziehen, und sollten Anleger den Prospekt sorgfältig prüfen, um sich die Auswirkungen einer solchen Kopplung an den Basiswert auf die Wertpapiere bewusst zu

		machen. Der Kauf von oder die Anlage in an einen Basiswert gekoppelte Wertpapiere beinhaltet wesentliche Risiken. Diese Wertpapiere sind keine herkömmlichen Wertpapiere und mit verschiedenen besonderen Anlagerisiken verbunden, über die sich potenzielle Anleger vor einer Anlage vollständig im Klaren sein sollten. Potenzielle Anleger in diese Wertpapiere sollten mit dieser Art von Wertpapieren vertraut sein, und alle Unterlagen vollständig überprüfen, den Prospekt lesen und verstehen sowie sich über die Art und den Umfang des Exposure in Bezug auf das Verlustrisiko im Klaren sein. Eine Investition in die Wertpapiere ist daher mit Risiken verbunden, die mit dem Basiswert zusammenhängen: 1. <u>Allgemeine Risiken im Zusammenhang mit dem Basiswert</u> Anleger sollten sich bewusst machen, dass mit dem Basiswert allgemeine Risiken verbunden sind: Risiko von Wertschwankungen Die Wertentwicklung des Basiswerts ist Schwankungen unterworfen. Daher können die Wertpapiergläubiger nicht vorhersehen, welche Gegenleistung sie zu einem bestimmten in der Zukunft liegenden Tag für die Wertpapiere erwarten können. Es können bei Tilgung, Ausübung oder sonstiger Veräußerung an einem bestimmten Tag erhebliche Wertverluste gegenüber der Veräußerung zu einem späteren oder früheren Zeitpunkt eintreten. Unsicherheit über die zukünftige Wertentwicklung Es ist nicht möglich, zuverlässige Aussagen über die künftige Wertentwicklung des Basiswerts zu treffen. Auch auf Grund historischer Daten des Basiswerts können keine Rückschlüsse auf die zukünftige Wertentwicklung des Basiswerts und der Wertpapiere gezogen werden. Keine Gewährleistungen oder Zusicherungen hinsichtlich der künftigen Entwicklung des Basiswerts Die Emittentin gibt keinerlei ausdrückliche oder stillschweigende Gewährleistung oder Zusicherung hinsichtlich der künftigen Entwicklung des Basiswerts ab. Darüber hinaus übernimmt der Emittent bzw. Index Sponsor des Basiswerts keine Verpflichtung, die Interessen des Emittenten des Wertpapiers oder der Wertpapiergläubiger aus irgendeinem Grund zu berücksichtigen. Kein (Eigentums-)Recht an dem Basiswert Potenziellen Anlegern sollte bewusst sein, dass der Basiswert von der Emittentin nicht zugunsten der Wertpapiergläubiger gehalten werden und dass Wertpapiergläubiger keine Eigentumsrechte (einschließlich, ohne jedoch hierauf beschränkt zu sein Stimmrechte, Rechte auf Erhalt von Dividenden oder andere Ausschüttungen oder sonstige Rechte) an dem Basiswert erwerben, auf den sich diese Wertpapiere beziehen. Weder die Emittentin noch eines ihrer verbundenen Unternehmen ist in irgendeiner Weise verpflichtet, den Basiswert zu erwerben oder zu halten. 2. <u>Spezifische Risiken im Zusammenhang mit dem Basiswert</u> Darüber hinaus sind die folgenden Risiken spezifisch mit dem Basiswert verbunden: Anleger sollten beachten, dass mit dem Basiswert Risiken verbunden sind. Daher unterliegt eine Investition in die

		Wertpapiere in gewissem Umfang Marktrisiken, die mit einer Direktanlage in die Indexkomponenten verbunden sind. Diese Risiken beinhalten Risiken, die mit einer Direktanlage in die Indexkomponenten verbunden sind, die Abhängigkeit von dem Wert der Indexkomponenten, den Einfluss der Emittentin oder des Indexsponsors auf den Index, die negativen Auswirkungen von Gebühren auf den Index und im Index enthaltene Wechselkursrisiken. Potenzielle Anleger sollten sich entsprechend beraten lassen und sich mit dem spezifischen Risikoprofil der Indizes vertraut machen sowie professionellen Rat in Anspruch nehmen, wenn nötig.
	Risikohinweis darauf, dass der Anleger seinen Kapitaleinsatz ganz oder teilweise verlieren könnte.	Investoren in die Wertpapiere tragen das Risiko der Verschlechterung der finanziellen Situation der Emittentin und der daraus folgenden möglichen Unfähigkeit der Emittentin, ihren Verpflichtungen unter den Wertpapieren nachzukommen. Potenzielle Erwerber müssen deshalb bereit und in der Lage sein, Verluste des eingesetzten Kapitals bis hin zum Totalverlust hinzunehmen. Alle an einem Erwerber der Wertpapiere interessierten Anleger sollten ihre jeweiligen wirtschaftlichen Verhältnisse überprüfen, um sicherzustellen, dass sie in der Lage sind, die mit dem Wertpapier verbundenen Verlustrisiken zu tragen.

II. SECURITIES NOTE

A. RISK FACTORS

The different risk factors associated with an investment in the Securities are outlined below. Investments in the Securities should not be made until all the factors relevant to the Securities have been acknowledged and carefully considered. When making decisions relating to investments in the Securities, potential investors should consider all information contained in the Prospectus and, **if necessary, consult their legal, tax, financial or other advisor.**

I. Security specific Risks

Investing in the Securities involves certain risks. Among others, these risks may take the form of equity market, commodity market, bond market, foreign exchange, interest rate, market volatility and economic and political risks and any combination of these and other risks. The material risks are presented below. Prospective investors should be experienced with regard to transactions in instruments such as the Securities and in the Underlying. **Prospective investors should understand the risks associated with an investment in the Securities and shall only reach an investment decision, after careful considerations with their legal, tax, financial and other advisors of (i) the suitability of an investment in the Securities in the light of their own particular financial, fiscal and other circumstances; (ii) the information set out in this document and (iii) the Underlying.**

An investment in the Securities should only be made after assessing the direction, timing and magnitude of potential future changes in the value of the Underlying, as the value of the Securities and, hence, any amount, if any, payable according to the Conditions of the Securities will be dependent, *inter alia*, upon such changes. More than one risk factor may have simultaneous effects with regard to the Securities, so that the effect of a particular risk factor is not predictable. In addition, more than one risk factor may have a compounding effect which may not be predictable. No assurance can be given with regard to the effect that any combination of risk factors may have on the value of the Securities.

Potential investors of the Securities should recognise that the Securities **constitute a risk investment** which can lead to a **total loss** of their investment in the Securities. Securityholders will incur a loss, if the amounts received in accordance with the Conditions of the Securities are below the purchase price of the Securities (including the transaction costs). Each investor in the Securities bears the risk of the Issuer's financial situation worsening and the potential subsequent inability of the Issuer to pay its obligations under the Securities. Potential investors must therefore be prepared and able to sustain a partial or even a total loss of the invested capital.. Any investors interested in purchasing the Securities should assess their financial situation, to ensure that they are in a position to bear the **risks of loss** connected with the Securities.

None of the Securities vests a right to payment of fixed or variable interest or dividends and, as such, they **generate no regular income**. Therefore, potential reductions in the value of the Securities cannot be offset by any other income from the Securities.

It is expressly recommended that potential investors familiarise themselves with the specific risk profile of the product type described in this Prospectus and seek the advice of a professional, if necessary.

1. **Special risks related to specific features of the Security structure**

Prior to investing in the Securities, potential investors should note that the following special features of the Securities may have a negative impact on the value of the Securities or, as the case may be, on any amount payable according to the Conditions of the Securities and that the Securities accordingly have special risk profiles:

Determination of the relevant Settlement Price

Prospective investors should note in case of an exercise of the Securities in accordance with the exercise procedure described in the Conditions of the Securities, the Valuation Date relevant for determining the Settlement Price will, subject to the Conditions of the Securities, be the 14 June of the immediately succeeding calendar year. Any negative performance of the Price of the Underlying between the exercise of the Securities by the Securityholder and the determination of the Price of the Underlying on the relevant Valuation Date are borne by the Securityholders.

No pre-defined term of the Securities

The Securities have - in contrast to securities with a fixed term - no pre-determined expiration date, and thus no defined term. As a result, the Securityholder's right vested in those Securities, must be exercised by the respective Securityholder on a specific Exercise Dates in accordance with the exercise procedure described in the Conditions of the Securities, if the Security Right is to be asserted. In the event that the required Exercise Notice is not duly received on the relevant Exercise Date, the Securities cannot be exercised until the next exercise date stated in the Conditions of the Securities.

2. **No statutory or voluntary deposit guarantee scheme**

The Issuer's obligations relating to the Securities are not protected by any statutory or voluntary deposit guarantee system or compensation scheme. **In the event of insolvency of the Issuer, investors may thus experience a total loss of their investment in the Securities.**

3. **Termination and Redemption at the option of the Issuer**

Potential investors in the Securities should furthermore be aware that the Issuer is under certain circumstances pursuant to the Conditions of the Securities entitled to terminate and redeem the Securities in total. In case the Issuer terminates and redeems the Securities, the Securityholder is entitled to demand the payment of an amount in relation to this redemption. However, the Securityholder is not entitled to request any further payments on the Securities after the relevant termination date.

The Securityholder, therefore, bears the risk of not participating in the performance of the Underlying to the expected extent and during the expected period and, therefore, receives less than its capital invested.

In the case of a termination of the Securities by the Issuer, the Securityholder bears the risk of a reinvestment, *i.e.* the investor bears the risk that it will have to re-invest the Termination Amount, if any, paid by the Issuer in the case of termination at market conditions, which may be less favourable than those existing prevailing at the time of the acquisition of the Securities.

4. **Possible fluctuations in the level of the Underlying after termination of the Securities**

In the event that the term of the Securities is terminated by the Issuer pursuant to the Conditions of the Securities, potential investors of the Securities should note that any adverse fluctuations in the level of the Underlying between the announcement of the termination by the Issuer and the determination of the price of the Underlying relevant for the calculation of the then payable Termination Amount are borne by the Securityholders.

5. **Adverse impact of adjustments of the Security Right**

It cannot be excluded that certain events occur or certain measures are taken (by parties other than the Issuer) in relation to the Underlying, which potentially lead to changes to the Underlying or result in the underlying concept of the Underlying being changed. In such case, the Issuer shall be entitled to effect adjustments according to the Conditions of the Securities to account for these events or measures. The adjustments to the Underlying might have a negative impact on the value of the Securities.

6. **Determinations by the Calculation Agent**

The Calculation Agent has certain discretion under the Conditions of the Securities (i) to determine whether certain events have occurred (in particular, the occurrence of a Market Disruption in accordance with the Conditions of the Securities), (ii) to determine any resulting adjustments and

calculations, (iii) also to make adjustments to the Underlying and (iv) to postpone valuations or payments under the Securities. The Calculation Agent will make any such determination at its reasonable discretion (in accordance with § 317 of the BGB) and in a commercially reasonable manner. Potential investors should be aware that any determination made by the Calculation Agent may have an impact on the value and financial return of the Securities. Any such discretion exercised by, or any determination made by, the Calculation Agent shall (save in the case of manifest error) be final, conclusive and binding on the Issuer and the Securityholders.

7. Other factors affecting the value

The value of a Security is determined not only by changes in the Underlying, but also by a number of other factors. Since several risk factors may have simultaneous effects on the Securities, the effect of a particular risk factor cannot be predicted. In addition, several risk factors may have a compounding effect which may not be predictable. No assurance can be given with regard to the effect that any combination of risk factors may have on the value of the Securities.

These factors include the term of the Securities, the frequency and intensity of price fluctuations (volatility), as well as the prevailing interest rate and dividend levels. A decline in the value of the Security may therefore occur even if the level of the Underlying remains constant.

Prospective investors of the Securities should be aware that an investment in the Securities involves a valuation risk with regard to the Underlying. They should have experience with transactions in securities with a value derived from the Underlying. The value of the Underlying may vary over time and may increase or decrease by reference to a variety of factors which may include macro economic factors and speculation. In addition, the historical performance of the Underlying is not an indication of its future performance. Changes in the prices in relation to the Underlying will affect the trading price of the Securities, and it is impossible to predict whether the prices in relation to the Underlying will rise or fall.

8. Effect of ancillary costs

Commissions and other transaction costs incurred in connection with the purchase or sale of Securities may result in charges, particularly in combination with a low order value, **which can substantially reduce any Redemption Amount, if any, to be paid under the Securities.** Before acquiring a Security, potential investors should therefore inform themselves of all costs incurred through the purchase or sale of the Security, including any costs charged by their custodian banks upon purchase and maturity of the Securities.

9. Transactions to offset or limit risk

Potential investors of the Securities should not rely on the ability to conclude transactions at any time during the term of the Securities that will allow them to offset or limit relevant risks. This depends on the market situation and the prevailing conditions. Transactions designed to offset or limit risks might only be possible at an unfavourable market price that will entail a loss for investors.

10. Trading in the Securities / Illiquidity

It is not possible to predict if and to what extent a secondary market may develop in the Securities or at what price the Securities will trade in the secondary market or whether such market will be liquid or illiquid.

Even though the Securities are listed at SIX Swiss Exchange (“**SIX**”) and admitted to trading on the platform of SIX Structured Products Exchange AG, no assurance is given that such admission or listing will be maintained. The fact that the Securities are admitted to trading or listed does not necessarily denote greater liquidity than if this were not the case. If the Securities are not listed or traded on any exchange, pricing information for the Securities may be more difficult to obtain and the liquidity of the Securities, if any, may be adversely affected. The liquidity of the Securities, if any, may also be affected by restrictions on the purchase and sale of the Securities in some jurisdictions. Additionally, the Issuer has the right (but no obligation) to purchase Securities at any time and at any price in the open market or by tender or private agreement. Any Securities so purchased may be held or resold or surrendered for cancellation.

In addition, it cannot be excluded that the number of Securities actually issued and purchased by investors is less than the intended Issue Size of the Securities. Consequently, there is the risk that due to the low volume of Securities actually issued the liquidity of the Securities is lower than if all Securities were issued and purchased by investors.

UBS Limited, 1 Finsbury Avenue, London EC2M 2PP, United Kingdom (the "**Manager**") intends, under normal market conditions, to provide bid and offer prices for the Securities of an issue on a regular basis. However, the Manager makes no firm commitment to the Issuer to provide liquidity by means of bid and offer prices for the Securities, and assumes no legal obligation to quote any such prices or with respect to the level or determination of such prices. **Potential investors therefore should not rely on the ability to sell Securities at a specific time or at a specific price.**

11. Representation and Custody of the Securities

Securities under this Securities Note are issued in uncertificated and dematerialised form to be registered in book-entry form with the relevant Clearing System or on its behalf.

Consequently, Securityholders will have to rely on procedures of the relevant Clearing System and the applicable laws for transfer, payment and communication with the Issuer.

The Issuer has no responsibility or liability under any circumstances for any acts and omissions of any Clearing Systems or any intermediary/FISA Depository as well as for any losses which might occur to a Securityholder out of such acts and omissions.

12. Pricing of Securities

Unlike most other securities the pricing of these Securities is regularly not based on the principle of offer and demand in relation to Securities, since the secondary market traders might quote independent bid and offer prices. This price calculation is based on price calculation models prevailing in the market, whereas the theoretical value of the Securities is, in principle, determined on the basis of the value of the Underlying and the value of other features attached to the Securities, each of which features may, in economic terms, be represented by another derivative financial instrument.

The potentially quoted prices do not necessarily correspond to the Securities' intrinsic value as determined by a trader.

13. Expansion of the spread between bid and offer prices

In special market situations, where the Issuer is completely unable to conclude hedging transactions, or where such transactions are very difficult to conclude, the spread between the bid and offer prices may be temporarily expanded, in order to limit the economic risks to the Issuer. Therefore, Securityholders who wish to sell their Securities via a stock exchange or in the over-the-counter trading might sell at a price considerably lower than the actual price of the Securities at the time of their sale.

14. Borrowed funds

If the purchase of Securities is financed by borrowed funds and investors' expectations are not met, they not only suffer the loss incurred under the Securities, but in addition also have to pay interest on and repay the loan. This produces a substantial increase in investors' risk of loss. Investors of Securities should never rely on being able to redeem and pay interest on the loan through gains from a Securities transaction. Rather, before financing the purchase of a Security with borrowed funds, the investors' financial situations should be assessed, as to their ability to pay interest on or redeem the loan immediately, even if they incur losses instead of the expected gains.

15. Effect of hedging transactions by the Issuer on the Securities

The Issuer may use all or some of the proceeds received from the sale of the Securities to enter into hedging transactions relating to the risks incurred in issuing the Securities. In such a case, the Issuer or one of its affiliated companies may conclude transactions that correspond to the Issuer's obligations arising from the Securities. Generally speaking, this type of transaction will be concluded before or on the Issue Date of the Securities, although these transactions can also be concluded after the Securities have been issued. The Issuer or one of its affiliated companies may take the necessary steps for the closing out of any hedging transactions, on or prior to any of the Valuation Dates. It cannot be excluded that the price of the Underlying might, in certain cases, be affected by these transactions. In the case of Securities whose value depends on the occurrence of a specific event in relation to the Underlying, entering into or closing out such hedging transactions may affect the likelihood of this event occurring or not occurring.

16. Taxation in relation to the Securities

Potential investors should be aware that they may be required to pay taxes or other documentary charges or duties in accordance with the laws and practices of the country where the Securities are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available for innovative financial instruments such as the Securities. Potential investors are advised not to rely upon the tax summary contained in this Prospectus but to ask for their own tax adviser's advice on their individual taxation with respect to the acquisition, sale and redemption of the Securities. Only these advisors are in a position to duly consider the specific situation of the potential investor.

17. Payments under the Securities may be subject to U.S. withholdings

Investors in the Securities should be aware that payments under the Securities may under certain circumstances be subject to a U.S. withholding:

Payments under the Securities may be subject to U.S. withholding under the US Tax Code

Section 871(m) of the US Tax Code requires withholding (up to 30%, depending on whether a treaty applies) on certain financial instruments (such as, *e.g.* the Securities) to the extent that the payments or deemed payments on the financial instruments are contingent upon or determined by reference to U.S.-source dividends. Under proposed U.S. Treasury Department regulations (if finalised in their current form), certain payments or deemed payments with respect to certain equity-linked instruments ("**specified ELIs**") that reference U.S. stocks may be treated as dividend equivalents ("**dividend equivalents**") which are subject to U.S. withholding tax at a rate of 30% (or lower treaty rate). Under these proposed regulations, withholding may be required even in the absence of any actual dividend-related payment or adjustment made pursuant to the Conditions of the Securities. **In case, e.g. (but not limited to) of the Underlying providing for dividends from sources within the United States, it is possible that these rules could apply to the Securities.**

If adopted in their current form, the proposed regulations may impose a withholding tax on payments or deemed payments made on the Securities on or after 1 January 2016 that are treated as dividend equivalents for Securities acquired on or after 5 March 2014. However, under a recent notice of the U.S. Internal Revenue Service ("**IRS**") the IRS announced that it and the Treasury Department intend that final Treasury regulations will provide that "specified ELIs" will exclude equity-linked instruments issued prior to 90 days after the date such final Treasury regulations are published. Accordingly, the Issuer generally expects that Securityholders should not be subject to tax under Section 871(m). However, it is possible that such withholding tax could apply to the Securities under these proposed rules if, for example, a Securityholder (other than a U.S. securityholder) enters into certain subsequent transactions in respect of the Underlying. If an amount in respect of such U.S. withholding tax were to be deducted or withheld from payments on the Securities, none of the Issuer, any paying agent or any other person would, pursuant to the Conditions of the Securities, be required to pay additional amounts as a result of the deduction or withholding of such tax.

Securityholders should, consequently, be aware that payments under the Securities may under certain circumstances be subject to U.S. withholding tax and should consult with their tax advisors regarding the application of Section 871(m) of the US Tax Code and the regulations thereunder in respect of their acquisition and ownership of the Securities.

Payments under the Securities may be subject to U.S. withholding under FATCA

The Foreign Account Tax Compliance Act ("**FATCA**") imposes a 30% U.S. withholding tax on payments of U.S. source interest, dividends and certain other passive income, and on the gross proceeds from the sale or other disposition of certain assets and on certain "passthru payments" attributable to such income or proceeds beginning 1 January 2017, made to certain foreign financial institutions (including most foreign hedge funds, private equity funds and other investment vehicles) unless the payee foreign financial institution agrees to disclose the identity of any U.S. individuals and certain U.S. entities that directly or indirectly maintain an account with, or hold debt or equity interests in, such institution (or the relevant affiliate) and to annually report certain information about such account or interest directly, or indirectly, to the IRS. FATCA also requires withholding agents making certain payments to certain non-financial foreign entities that fail to disclose the name, address, and taxpayer identification number of any substantial direct or indirect U.S. owners of such entity to withhold a 30% tax on such payments.

Accordingly, the Issuer and other foreign financial institutions may be required under FATCA to report certain account information directly to the IRS (or to a non-U.S. governmental authority under a

relevant Intergovernmental Agreement entered into between the U.S. and such non-U.S. country that will pass such information on to the IRS) regarding the holders of the Securities. Moreover, the Issuer may be required to withhold on a portion of payments made on the Securities to holders who (i) fail to provide the relevant information, or (ii) foreign financial institutions who fail to comply with FATCA.

Securityholders holding their Securities through a foreign financial institution or other foreign entity should be aware that a portion of any payments under the Securities may be subject to 30% withholding tax under FATCA. If an amount in respect of such withholding tax under FATCA were to be deducted or withheld from payments on the Securities, none of the Issuer, any paying agent or any other person would, pursuant to the Conditions of the Securities, be required to pay additional amounts as a result of the deduction or withholding of such tax. **Securityholders should, consequently, be aware that payments under the Securities may under certain circumstances be subject to U.S. withholding under FATCA and should consult with their tax advisors regarding the application of withholding tax under FATCA in respect of their acquisition and ownership of the Securities.**

18. Changes in Taxation in relation to the Securities

The considerations concerning the taxation of the Securities set forth in this Securities Note reflect the opinion of the Issuer on the basis of the legal situation identifiable as of the date hereof. However, a different tax treatment by the fiscal authorities and tax courts cannot be excluded. In addition, the tax considerations set forth in this Securities Note cannot be the sole basis for the assessment of an investment in the Securities from a tax point of view, as the individual circumstances of each investor also have to be taken into account. Therefore, the tax considerations set forth in this Securities Note are not to be deemed any form of definitive information or tax advice or any form of assurance or guarantee with respect to the occurrence of certain tax consequences. Potential investors should also be aware that the legal situation identifiable as of the date of the Securities Note may change, possibly with retroactive effect. Each investor should seek the advice of his or her personal tax consultant before deciding whether to purchase the Securities.

Neither the Issuer nor the Manager assumes any responsibility vis-à-vis the Securityholders for the tax consequences of an investment in the Securities.

19. Potential conflicts of interest

The Issuer and affiliated companies may participate in transactions related to the Securities in some way, for their own account or for account of a client. Such transactions may not serve to benefit the Securityholders and may have a positive or negative effect on the value of the Underlying, and consequently on the value of the Securities. Furthermore, companies affiliated with the Issuer may become counterparties in hedging transactions relating to obligations of the Issuer stemming from the Securities. As a result, conflicts of interest can arise between companies affiliated with the Issuer, as well as between these companies and investors, in relation to obligations regarding the calculation of the price of the Securities and other associated determinations. In addition, the Issuer and its affiliates may act in other capacities with regard to the Securities, such as calculation agent, paying agent and administrative agent.

Furthermore, the Issuer and its affiliates may issue other derivative instruments relating to the Underlying; introduction of such competing products may affect the value of the Securities. The Issuer and its affiliated companies may receive non-public information relating to the Underlying, and neither the Issuer nor any of its affiliates undertakes to make this information available to Securityholders.

Within the context of the offering and sale of the Securities, the Issuer or any of its affiliates may directly or indirectly pay fees in varying amounts to third parties, such as distributors or investment advisors, or receive payment of fees in varying amounts, including those levied in association with the distribution of the Securities, from third parties. Potential investors should be aware that the Issuer may retain fees in part or in full. The Issuer or, as the case may be, the Manager, upon request, will provide information on the amount of these fees.

II. Underlying specific Risks

The Securities issued under the Prospectus are linked to an index. The amounts payable on redemption under the Securities will be determined by reference to the price of the Underlying. Accordingly, investing in the Securities also involves certain risks that are related to the Underlying and investors should review carefully the Prospectus to understand the effect on the Securities of such linkage to the Underlying.

The purchase of, or investment in, the Securities involves substantial risks. These Securities are not conventional securities and carry various unique investment risks which potential investors should understand clearly before investing in the Securities. Potential investors in such Securities should be familiar with this type of securities and should fully review all documentation, read and understand the Prospectus and be aware of the nature and extent of the exposure to risk of loss.

1. General risks related to the Underlying

Investors should be aware that some risks are related to the Underlying in general:

Risk of fluctuations in value

The performance of the Underlying is subject to fluctuations. Therefore, Securityholders cannot foresee what consideration they can expect to receive for the Securities they hold on a certain day in the future. When the Securities are redeemed, exercised or otherwise disposed of on a certain day, they may be worth a lot less than if they were disposed of at a later or earlier point in time.

Uncertainty about future performance

It is not possible to reliably predict the future performance of the Underlying. Likewise, the historical data of the Underlying does also not allow for any conclusions to be drawn about the future performance of the Underlying and the Securities.

No warranties or representations regarding the future performance of the Underlying

The Issuer does not give any explicit or tacit warranty or representation regarding the future performance of the Underlying. In addition, the issuer or the sponsor of the Underlying does not assume any obligation to consider the interests of the Issuer of the Securities or the Securityholders for any reason whatsoever.

No rights of ownership in the Underlying

Potential investors should be aware that the Underlying will not be held by the Issuer for the benefit of the Securityholders, and that Securityholders will not obtain any rights of ownership (including, without limitation, any voting rights, any rights to receive dividends or other distributions or any other rights) with respect to the Underlying to which the Securities are related. Neither the Issuer nor any of its affiliates is under any obligation whatsoever to acquire or hold any Underlying.

2. Specific risks related to the Underlying

In addition, the following risks are specifically related to the Underlying:

Rules-based Index

The Index operates on the basis of pre-determined rules. No assurance can be given that the algorithm on which the Index is based will be successful or that the Index will outperform any alternative algorithm that could have been employed.

Investors could lose their entire investment

The level of the Index (the “**Index Level**”) depends on the performance of the components of the Index (the “**Index Components**”), each of which may increase or decrease in value. Neither the Index nor any of the Index Components includes any element of capital protection or guaranteed return. The value of any Index Component, or the Index itself, may fall below its initial value.

Market risks may affect the Index Level

Economic, financial, political, regulatory, geographical, judicial or other events which affect the investment climate and economic sentiment may affect the value of the Index Components and, therefore, the Index Level.

The Index is not actively managed

The Index operates in accordance with a pre-determined methodology and formulae, and UBS AG, acting through its London Branch (or its successor) (in such capacity, the “**Index Administrator**”) exercises discretion only in limited situations. The Index is, therefore, not actively managed. There will be no active management of the Index so as to enhance returns beyond those embedded in the Index. Market participants are often able to adjust their investments promptly in view of market, political, financial or other factors, and an actively managed product could potentially respond more directly and appropriately to immediate market, political, financial or other factors than a non-actively managed index. In contrast, the pre-determined methodology and formulae in respect of the Index will rebalance

the weights or quantity assigned to each Index Component to its specified value only on each rebalance date.

Neither UBS AG, acting through its London Branch (or any successor thereto) (in such capacity, the “Index Owner”) nor the Index Administrator is acting as an investment adviser or performing a discretionary management role with respect to the Index and, as a result, has any fiduciary duty to any person in respect of the Index.

Influence of Currency Exchange Rates

Index Components may be denominated in currencies different from the currency of the Index, and the Index is not currency-hedged. An unfavourable performance of such currencies in relation to the currency of the Index may have an adverse effect on the Index Level at any given time.

No rights in any Index Component

The Index is purely synthetic. The exposure to each Index Component is purely notional and will exist only in the records held by the Index Administrator. A notional investment in the Index will not make a Securityholder the owner of, or as the case may be, a party to, any Index Component comprising the Index.

The Index relies on the use of third-party information about Index Components

All information in this Prospectus about any Index Component has been derived from publicly available documents. The Issuer has not participated and will not participate in the preparation of any of those documents. Nor has the Issuer made or will the Issuer make any “due diligence” investigation or any inquiry with respect to the sponsor or issuer of any Index Component in connection with the maintenance of the Index. The Issuer does not make any representation or warranty that any such publicly available document or any other relevant publicly available information is accurate or complete.

Furthermore, the Issuer does not know whether all events occurring before the date of this Prospectus, including events that would affect the accuracy or completeness of the publicly available documents referred to above or the level, value or price of any Index Component, have been publicly disclosed. Subsequent disclosure of any events of this kind or the disclosure of or failure to disclose material future events concerning any Index Component could affect the Index Level.

The Index Administrator may rely upon third party and other external and internal data sources which may be inaccessible and/or inaccurate, and the inputs used by the Index Administrator to run the Index calculations may affect the Index Level

The Index Administrator may rely upon third party brokers or external dealers and other external and internal sources to obtain certain inputs necessary to compute the Index Level. The inability of the Index Administrator to source necessary data to calculate the relevant formulae of the Index may affect the Index Level. In addition, the Index Administrator makes no warranty as to the correctness or completeness of that information and takes no responsibility for the accuracy of such data or the impact of any inaccuracy of such data on the Index Level.

The policies of the Index Administrator and changes that affect the composition and the Index Components could affect the Index Level

The policies of the Index Administrator concerning the calculation of the Index Level and the values of the Index Components could affect the Index Level.

The Index Administrator may, subject to the Index Administrator obtaining the prior consent of the Index Owner, modify the methodology for calculating the Index Level and the values of the Index Components. In addition, under a number of circumstances the Index Administrator may make certain changes to the way in which the Index Level or the value of any of the Index Components is calculated. The Index Administrator may also discontinue or suspend calculation or publication of the Index, in which case it may become difficult to determine the Index Level. Notice of such amendments shall be provided in advance on the Bloomberg Page and/or the Reuters Page and/or on the UBS Website.

The historical or hypothetical performance of the Index or any Index Component is not an indication of future performance

The historical or hypothetical performance of the Index or any Index Component should not be taken as an indication of the future performance of the Index or any Index Component. It is impossible to predict whether the future level, value or price of the Index or any Index Component will fall or rise.

Past fluctuations and trends in the Index or any Index Component are not necessarily indicative of fluctuations or trends that may occur in the future.

The level of any Index Component that is an underlying index may affect the Index Level at any time.

The level of any Index Component that is an underlying index may affect the Index Level at any time. Prospective investors should carefully read and consider the publicly available index description or manual containing information about such underlying index, including the risk factors associated with a notional investment in such underlying index.

The occurrence of certain events with respect to an Index Component that is an underlying index may affect the Index Level

The prices of component securities or other financial instruments comprising an Underlying Index may be adversely impacted by a wide range of events. For example, component securities or other financial instruments comprised in an Underlying Index may be subject to corporate actions and other extraordinary events, such as mergers, tender offers, extraordinary dividends and nationalisations. The administrator of the underlying index may be entitled to adjust the composition of the underlying index pursuant to the rules of the underlying index. Any such events or actions may affect or have an adverse effect on the level of such underlying index and in turn on the Index Level.

Market and other activities in respect of the underlying index may contribute to an increased level of investment in the underlying index.

The administrator of the underlying index has licensed, and may continue to license, the underlying index for use by other market participants, for publication in newspapers and periodicals, for distribution by information and data dissemination services and for various other purposes, any of which may contribute to an increased level of investment in the underlying index. This may have an adverse impact on the level of the underlying index and consequently the Index Level.

The administrator of the underlying index may be required to replace a component security comprised in an underlying index if the existing component security is removed.

The underlying index comprises component securities. Data concerning the component securities will be used to calculate the underlying index. If any component security was to be removed in accordance with the rules of the index methodology of the underlying index, a comparable security may be selected by the administrator of the underlying index, if available, to replace that component security. The replacement of any component security may have an adverse impact on the level of the underlying index and consequently, the Index Level.

The policies of the administrator of the underlying index and changes that affect the underlying index could affect the level of the underlying index.

The policies of the administrator of the underlying index concerning its calculation could affect the level of the underlying index. The level of the underlying index could also be affected if the administrator of the underlying index changes these policies, for example, by materially changing the manner in which it calculates the underlying index, or if it cancels or fails to calculate or publish the underlying index, in which case it may become difficult or inappropriate to determine the market value of any financial products linked to the underlying index (including the Index Level). If any such policies relating to the underlying index are changed, or the calculation or publication of the underlying index is discontinued or suspended, this could affect the Index Level.

The administrator of the underlying index will have the authority to make determinations that could materially affect the performance of the underlying index in various ways.

The underlying index was developed, and is currently owned, calculated and maintained, by the administrator of the underlying index. The administrator of the underlying index is responsible for the composition, calculation and maintenance of the underlying index and has determinative influence over its composition, calculation and maintenance. The judgements that the administrator of the underlying index makes in connection with the composition, calculation and maintenance of the underlying index, could affect the level of the underlying index and therefore the Index Level. The administrator of the underlying index may decide to discontinue calculating and publishing the underlying index and has no obligation to take the interests of holders of any product directly or indirectly linked to the performance of the underlying index into consideration for any reason in making such determination.

There is no affiliation between the administrator of the underlying index and the Index Administrator and the Index Administrator is not responsible for any disclosure by the administrator of the underlying index.

Neither the Index Administrator nor any of its affiliates is affiliated with the administrator of the underlying index as administrator of the underlying index. Neither the Index Administrator nor any of its affiliates assume any responsibility for the accuracy or the completeness of any information about the underlying index. Prospective investors should make their own investigation into the underlying index.

Short Positions, Use of Derivative Instruments and Leveraging

An asset or liability value to which the Index is linked may involve taking short positions in investments, through the use of short selling. This may represent significant investment risk as borrowed securities must be replaced by purchases at current market prices in order to close out a short position, and any appreciation in the value of the investments concerned will result in losses, as well as stock borrowing costs being incurred and may be only suitable for prospective investors who understand the risks involved in trading in sophisticated and volatile markets. In addition, a trading strategy may involve trading in futures, options, forward exchange contracts and other derivative instruments and may also involve leveraged trading positions. This may also represent a significant investment risk. As a result, relatively small price movements may result in substantial losses or gains.

Trading and other transactions by the Index Administrator and its affiliates in the Index or the Index Components may affect the Index Level.

The Index Administrator and its affiliates may also engage in trading in the Index, the Index Components, futures or options on the Index Components and other investments relating to or based on the Index or the Index Components on a regular basis as part of its general business, for proprietary accounts, for other accounts under management, to facilitate transactions for customers or to hedge obligations under products linked to the Index or Index Components. Although they are not intended to, any of these activities could adversely affect the value of the Index Components or the Index Level. It is possible that one or more of the Index Administrator and its affiliates could receive substantial returns from these activities while the value of the Index Components and the Index Level decline.

The Index Administrator or its affiliates may also issue or underwrite securities or financial or derivative instruments with returns linked or related to changes in the performance of any of the foregoing.

With respect to any of the activities described above, neither the Index Administrator nor its affiliates has any obligation to take into consideration at any time the impact of such activities on the value of the Index Components or the Index Level.

Termination or Suspension of the Index

The Index Administrator is under no obligation to continue the calculation, publication and dissemination of the Index. The Index may be terminated or temporarily suspended at any time. Should the Index cease to exist, this may have a negative impact on the return on the Securities.

Amendment or Modification to the Index

The Index may be amended, modified or adjusted from time to time by the Index Administrator, subject to the Index Administrator obtaining the prior consent of the Index Owner. Any such amendment, modification or adjustment may have an adverse effect on the Index Level. The Index Administrator will apply the method described in the Index Manual for the composition of the Index and calculation of the Index Level. However it cannot be excluded that the market environment, supervisory, legal, financial or tax reasons may require changes to be made to this method. The Index Administrator may, subject to the Index Administrator obtaining the prior consent of the Index Owner, also make changes to the provisions of this Index Manual and the method applied to calculate the Index Level, which it deems to be necessary and desirable in order to prevent obvious or demonstrable error or to remedy, correct or supplement incorrect or ambiguous provisions. Notice of such amendments, modifications or adjustments shall be provided on the Bloomberg Page and/or the Reuters Page and/or on the UBS Website.

Index Administrator Discretion

The Index confers discretion on the Index Administrator in making certain determinations, calculations and corrections from time to time. Although any such determinations, calculations and corrections must be made by the Index Administrator in good faith, the exercise of such discretion in the making of any calculations, determinations and corrections may adversely affect the performance of the Index.

Any such determination, calculation or correction by the Index Administrator will be, in the absence of manifest error, final, conclusive and binding. The Index Administrator will determine whether any such correction shall apply retrospectively or from the relevant date forward.

The role played by UBS AG, as Index Administrator and the exercise of the kinds of discretion described above could present it with significant conflicts of interest in light of the fact that UBS AG, of which the Index Administrator is a division, is the issuer or counterparty of Index Products. Neither the Index Administrator nor the Index Owner has any obligation to take into consideration the needs of any Securityholder at any time.

Change of Index Owner and Index Administrator

The Index Owner may without the consent of the Securityholders replace the Index Administrator (the “**Successor Index Administrator**”) at its discretion, and furthermore, may also designate a successor Index Owner (the “**Successor Index Owner**”) at its discretion – in the event of such replacement, any reference to the “Index Administrator” and/or the “Index Owner” shall be construed as a reference to the Successor Index Administrator and the Successor Index Owner, respectively.

Fees and Costs

The Index Level will be reduced by bid/offer spreads and/or a fee deduction which represents an approximation of the costs incurred by a hypothetical investor replicating the Index, including but not limited to those costs attributable to linking (and, therefore, notionally exposing) the relevant strategy to the Index Components. Such cost is not passed on to the Securityholders as a payment but will instead be deducted from the Index Level in accordance with this Prospectus. As such, prospective investors should understand that such cost may have a material effect on the Index Level.

Simulated history

As limited historical performance data exist with respect to the Index, any notional investment in the Index may involve greater risk than a notional investment in indices or strategies with a proven track record. The Index was first calculated on or around the index commencement date and, therefore, lacks historical performance prior to such date. All such retrospective closing levels are simulated based on quantitative screening only. They must be considered hypothetical and illustrative only.

The actual performance of the Index may be materially different from the results presented in any simulated history relating to the Index. Past performance should not be considered indicative of future performance.

Equity market risks may affect the Index Level

Because the Index, and/or any Index Component that is an index, includes equity securities, it is expected that the Index Level will fluctuate in accordance with changes in the financial condition of the relevant issuer(s) of its component stocks, the value of common stocks generally and other factors. The financial condition of the issuer(s) of the equity securities may become impaired or the general condition of the equity market may deteriorate, either of which may cause a decrease in the Index Level. Common stocks are susceptible to general equity market fluctuations, to speculative trading by third parties and to volatile increases and decreases in value as market confidence in and perceptions regarding the security or securities comprising the Index change. Investor perceptions regarding the issuer of an equity security comprising the Index or an Index Component are based on various and unpredictable factors, including expectations regarding government, economic, monetary and fiscal policies, inflation and interest rates, economic expansion or contraction, and global or regional political, economic, and banking crises.

The object of this Prospectus are additional UBS Open End Certificates (the “**Additional Securities**” or the “**Securities**”) with the International Security Identification Number CH0188195264, issued by UBS AG, acting through its London Branch, in accordance with Swiss law and in the size of 150,000 Securities.

The Additional Securities to be issued on 20 February 2015 (the “**Issue Date in relation to the Additional Securities**”) will be consolidated and form a single series with the Existing Securities. The aggregate Issue Size of the Securities will amount to 200,000 Securities.

The Securities are each based on the index (the “**Underlying**”), as described in the sections “Key Terms and Definitions of the Securities” and “Information about the Underlying”.

The Securities have - in contrast to securities with a fixed term - no pre-determined maturity date, and thus no defined term. As a result, the Securityholder's right vested in those Securities, must be exercised by the respective Securityholder on a specific Exercise Date (as defined in the section “Key Terms and Definitions of the Securities”) in accordance with the exercise procedure described in the Conditions of the Securities, if the Security Right is to be asserted.

2. Law governing the Securities

The Securities issued by the Issuer are governed by Swiss law.

3. Status of the Securities

The Securities constitute direct, unsecured and unsubordinated obligations of the Issuer, ranking *pari passu* among themselves and with all other present and future unsecured and unsubordinated obligations of the Issuer, other than obligations preferred by mandatory provisions of law.

4. Form of the Securities

The Securities are issued as uncertificated securities (*Wertrechte*; “**Uncertificated Securities**”) pursuant to article 973c of the Swiss Code of Obligations (“**CO**”). Uncertificated Securities are registered in the main register of a Swiss depositary (*Verwahrungsstelle*; “**FISA Depositary**”) according to the Swiss Federal Act on Intermediated Securities (“**FISA**”). Upon (a) entering the Uncertificated Securities into the main register of a FISA Depositary and (b) booking the Securities into a securities account at a FISA Depositary, the Uncertificated Securities will constitute intermediated securities within the meaning of the FISA (*Bucheffekten*; “**Intermediated Securities**”). The Issuer will normally choose SIS SIX AG, Baslerstrasse 100, CH-4600 Olten, Switzerland, (“**SIS**”) as FISA Depositary, but reserves the right to choose any other FISA Depositary, including UBS AG.

The records of the FISA Depositary will determine the number of Uncertificated Securities held through each participant of the FISA Depositary. In respect of Uncertificated Securities held in the form of Intermediated Securities, the holders of such Uncertificated Securities will be the persons holding such Uncertificated Securities in a securities account (*Effektenkonto*) that is in their name, or, in the case of intermediaries (*Verwahrungsstellen*), the intermediaries holding such Uncertificated Securities for their own account in a securities account that is in their name (and the terms “Securityholder” and “holder of Securities” and related expressions shall be construed accordingly). Intermediated Securities are transferred and otherwise disposed of in accordance with the provisions of the FISA and the relevant agreements with the respective FISA Depositary (in particular, neither the Intermediated Securities nor any rights pertaining to the Intermediated Securities may be transferred by way of assignment pursuant to articles 164 et seq. CO without the prior written consent of the Issuer).

The holders of the Securities shall at no time have the right to demand (a) conversion of Uncertificated Securities into physical securities and/or (b) delivery of physical securities. For the avoidance of doubt and regardless of such conversion, Uncertificated Securities will at any time constitute Intermediated Securities.

5. Clearing and Settlement of the Securities

General

The Securities are cleared through SIX SIS AG ("SIS" or the "Clearing System").

SIX SIS AG

SIS is a wholly owned subsidiary of SIX Group Ltd. and is a bank supervised by the Swiss Financial Market Supervisory Authority.

SIS acts as the central securities depository and settlement institution for the following Swiss securities: equities, government and private sector bonds, money market instruments, exchange traded funds, conventional investment funds, structured products, warrants and other derivatives. Apart from providing custody and settlement for Swiss securities, SIS acts as global custodian and offers its participants access to custody and settlement in foreign financial markets. SIS offers direct links to other international central securities depositories and central securities depositories including Clearstream, Germany, Euroclear and Clearstream, Luxembourg.

The address of SIS is SIX SIS AG, Baslerstrasse 100, CH-4600 Olten, Switzerland.

6. Listing or Trading of the Securities

The Securities are listed at SIX Swiss Exchange ("SIX") and admitted to trading on the platform of SIX Structured Products Exchange AG.

7. Maturity of the Securities

The Securities have - in contrast to securities with a fixed term - no pre-determined maturity date, and thus no defined term. As a result, the Securityholder's right vested in those Securities, must be exercised by the respective Securityholder on the Exercise Dates in accordance with the exercise procedure described in the Conditions of the Securities, if the Security Right is to be asserted.

8. Functioning of the Securities and Dependency on the Underlying

The value of the UBS Open End Certificates during their term depends on the performance of the Underlying. In case the level of the Underlying increases, the value of the UBS Open End Certificates is likely to increase. In case the level of the Underlying decreases, the value of the the UBS Open End Certificates is likely to decrease.

In particular, the Redemption Amount, if any, to be received by the Securityholder upon exercise of the UBS Open End Certificates depends on the performance of the Underlying. Therefore, the UBS Open End Certificates allow investors to participate, considering the Management Fee, in the positive development of the Underlying. Conversely, investors in UBS Open End Certificates also participate in the negative development of the Underlying.

Upon exercise of the UBS Open End Certificates by either the Securityholder or the Issuer, Securityholders receive on the Maturity Date a Redemption Amount in the Redemption Currency, the amount of which depends on the Settlement Price of the Underlying. The Redemption Amount is calculated by reducing the Settlement Price by a Management Fee and multiplying the result by the Conversion Ratio.

During their term, the UBS Open End Certificates do not generate any regular income (e.g. dividends or interest).

- (1) The Issuer will, subject to a Market Disruption (§ 8 (3)), procure on the Maturity Date the payment of the Redemption Amount or of the Termination Amount or of the Tax Termination Amount (§ 7 a or b), as the case may be, in the Redemption Currency to be credited via the Paying Agent to the account of the relevant Securityholder via the relevant FISA Depositary pursuant to its applicable rules and regulations.
- (2) The Issuer shall be discharged from its redemption obligations or any other payment or delivery obligations under these Conditions of the Securities by delivery to the Clearing System in the manner described above.
- (3) All taxes, charges and/or expenses, if any, incurred in connection with the redemption of the Securities or any other payment or delivery obligations under these Conditions of the Securities shall be borne and paid by the relevant Securityholder. The Issuer and the Paying Agent, as the case may be, are entitled, but not obliged, to withhold from any required performance under these Conditions such taxes, charges and/or expenses as be paid by the Securityholder in accordance with the preceding sentence.
- (4) In accordance with Swiss law, claims of any kind against the Issuer arising under the Securities will be prescribed 10 years after the earlier of the date on which the early redemption or the date on which the ordinary redemption of the Securities has become due, except for claims for interests which will be prescribed five (5) years after maturity of such interest claims.

- (5) Die Emittentin kann zur Deckung ihrer Verpflichtungen aus den Wertpapieren einen Deckungsbestand unterhalten. Der Deckungsbestand kann dabei nach der Wahl und dem freien Ermessen der Emittentin insbesondere aus dem Basiswert bzw. aus den darin enthaltenen Einzelwerten bzw. aus Optionen auf die vorgenannten Werte bestehen. Den Wertpapiergläubigern stehen jedoch keine Rechte oder Ansprüche in Bezug auf einen etwaigen Deckungsbestand zu.

§ 6

Anpassungen; Nachfolge-Index Sponsor; Nachfolge-Basiswert

- (1) Sollte der Index als Basiswert endgültig nicht mehr vom Index Sponsor verwaltet, berechnet und veröffentlicht werden, ist die Emittentin berechtigt, den Index Sponsor durch eine Person, Gesellschaft oder Institution, die für die Berechnungsstelle und die Emittentin nach billigem Ermessen akzeptabel ist (der „**Nachfolge-Index Sponsor**“), zu ersetzen.

In diesem Fall gilt dieser Nachfolge-Index Sponsor als Index Sponsor und jede in diesen Bedingungen enthaltene Bezugnahme auf den Index Sponsor als Bezugnahme auf den Nachfolge-Index Sponsor.

- (2) Veränderungen in der Berechnung (einschließlich Bereinigungen) des Index oder der Zusammensetzung oder Gewichtung der Indexbestandteile, auf deren Grundlage der Basiswert berechnet wird, führen nicht zu einer Anpassung, es sei denn, dass das maßgebende Konzept und die Berechnung des Basiswerts infolge einer Veränderung (einschließlich einer Bereinigung) nach Auffassung der Emittentin und der Berechnungsstelle nach billigem Ermessen nicht mehr vergleichbar sind mit dem bisher maßgebenden Konzept oder der maßgebenden Berechnung des Index. Dies gilt insbesondere, wenn sich aufgrund irgendeiner Änderung trotz gleich bleibender Kurse der in dem Index enthaltenen Einzelwerte und ihrer Gewichtung eine wesentliche Änderung des Werts des Index ergibt. Eine Anpassung kann auch bei Aufhebung des Index und/oder seiner Ersetzung durch einen anderen Basiswert erfolgen.

Zum Zweck einer Anpassung ermitteln die Emittentin und die Berechnungsstelle nach billigem Ermessen einen angepassten Wert je Einheit des Index, der bei der Bestimmung des Kurses des Basiswerts zugrunde gelegt wird und in seinem wirtschaftlichen Ergebnis der bisherigen Regelung entspricht, und bestimmen unter Berücksichtigung des Zeitpunkts der Veränderung den Tag, zu dem der angepasste Wert je Einheit des Index erstmals zugrunde zu legen ist. Der angepasste Wert je Einheit des Basiswerts sowie der Zeitpunkt seiner

Adjustments; Successor Index Sponsor; Successor Underlying

- (1) If the Index used as the Underlying is ultimately not maintained, calculated and published by the Index Sponsor any longer, the Issuer shall be entitled to replace the Index Sponsor by a person, company or institution, which is acceptable to the Calculation Agent and the Issuer at their reasonable discretion (the "**Successor Index Sponsor**").

In such case, the Successor Index Sponsor will be deemed to be the Index Sponsor and each reference in these Conditions to the Index Sponsor shall be deemed to refer to the Successor Index Sponsor.

- (2) Any changes in the calculation (including corrections) of the Index or of the composition or of the weighting of the Index components, on which the calculation of the Underlying is based, shall not lead to an adjustment unless the Issuer and the Calculation Agent, upon exercise of their reasonable discretion determine that the underlying concept and the calculation (including corrections) of the Underlying are no longer comparable to the underlying concept or calculation of the Index applicable prior to such change. This applies especially, if due to any change the Index value changes considerably, although the prices and weightings of the components included in the Index remain unchanged. Adjustments may also be made as a result of the termination of the Index and/or its substitution by another underlying.

For the purpose of making any adjustments, the Issuer and the Calculation Agent shall at their reasonable discretion determine an adjusted value per unit of the Index as the basis of the determination of the Price of the Underlying, which in its result corresponds with the economic result prior to this change, and shall, taking into account the time the change occurred, determine the day, on which the adjusted value per unit of the Index shall apply for the first time. The adjusted value per unit of

erstmaligen Anwendung werden unverzüglich gemäß § 11 dieser Bedingungen bekannt gemacht.

- (3) Erlischt die Erlaubnis der Emittentin, den Index als Basiswert für die Zwecke der Wertpapiere zu verwenden oder wird der Index aufgehoben und/oder durch einen anderen Index ersetzt, legen die Emittentin und die Berechnungsstelle nach billigem Ermessen, gegebenenfalls unter entsprechender Anpassung nach dem vorstehenden Absatz, fest, welcher Index künftig zugrunde zu legen ist (der „**Nachfolge-Basiswert**“). Der Nachfolge-Basiswert sowie der Zeitpunkt seiner erstmaligen Anwendung werden unverzüglich gemäß § 11 dieser Bedingungen bekannt gemacht.

Jede in diesen Bedingungen enthaltene Bezugnahme auf den Basiswert gilt dann, sofern es der Zusammenhang erlaubt, als Bezugnahme auf den Nachfolge-Basiswert.

- (4) Wenn der durch den Index Sponsor festgelegte und veröffentlichte Kurs des Index als Basiswert im Nachhinein berichtigt wird, und die Berichtigung (der „**Berichtigte Kurs**“) von dem jeweiligen Index Sponsor nach der ursprünglichen Veröffentlichung, jedoch bis zum Fälligkeitstag (ausschließlich) bekanntgegeben und veröffentlicht wird, sind die Emittentin und die Berechnungsstelle berechtigt, nach billigem Ermessen, unter Berücksichtigung des Berichtigten Kurses Anpassungen dieser Bedingungen vorzunehmen, um der Berichtigung Rechnung zu tragen. Die Anpassung sowie der Zeitpunkt ihrer erstmaligen Anwendung werden unverzüglich gemäß § 11 dieser Bedingungen bekannt gemacht.
- (5) Anpassungen und Festlegungen nach den vorstehenden Absätzen werden durch die Emittentin nach billigem Ermessen bzw. von der Berechnungsstelle nach billigem Ermessen, vorgenommen und von der Emittentin nach § 11 dieser Bedingungen bekannt gemacht. Anpassungen und Festlegungen sind (sofern nicht ein offensichtlicher Fehler vorliegt) für alle Beteiligten endgültig und bindend.
- (6) Das Recht der Emittentin zur Kündigung gemäß § 7 a bzw. b dieser Bedingungen bleibt hiervon unberührt.

§ 7 a

Kündigung; Rechtsänderung; Hedging-Störung; Gestiegene Hedging-Kosten

- (1) Die Emittentin ist bei Vorliegen eines der nachstehenden Kündigungsereignisse berechtigt, sämtliche, aber nicht einzelne Wertpapiere durch eine Bekanntmachung gemäß § 11 dieser Bedingungen (i) unter Angabe des Kalendertags,

- (3) In the event that the authorisation of the Issuer to use the Index used as the Underlying for the purposes of the Securities is terminated or that the Index is terminated and/or replaced by another index, the Issuer and the Calculation Agent shall determine at their reasonable discretion, after having made appropriate adjustments according to the paragraph above, which index shall be applicable in the future (the „**Successor Underlying**“). The Successor Underlying and the date it is applied for the first time shall be published without undue delay in accordance with § 11 of these Conditions.

Any reference in these Conditions to the Underlying shall, to the extent appropriate, be deemed to refer to the Successor Underlying.

- (4) In the event that the price of the Index used as the Underlying as determined and published by the Index Sponsor is subsequently corrected and the correction (the „**Corrected Price**“) is published by the Index Sponsor after the original publication, but until the Maturity Date (exclusive), the Issuer and the Calculation Agent shall be entitled to effect, under consideration of the Corrected Price, adjustments to these Conditions at their reasonable discretion, to account for the correction. The adjustment and the date it is applied for the first time shall be published without undue delay in accordance with § 11 of these Conditions.
- (5) The adjustments and determinations of the Issuer pursuant to the paragraphs above shall be effected by the Issuer at its reasonable discretion or, as the case may be, by the Calculation Agent and shall be published by the Issuer in accordance with § 11 of these Conditions. Any adjustment and determination shall be final, conclusive and binding on all parties, except where there is a manifest error.
- (6) The Issuer's right of termination in accordance with § 7 a or b, as the case may be, of these Conditions remains unaffected.

§ 7 a

Termination; Change in Law; Hedging Disruption; Increased Cost of Hedging

- (1) The Issuer shall in the case of the occurrence of one of the following Termination Events be entitled to terminate and redeem all but not some of the Securities by giving notice in accordance with § 11 of these Conditions

zu dem die Kündigung wirksam wird (der „**Kündigungstag**“), und (ii) unter Wahrung einer Kündigungsfrist von mindestens einem Kalendermonat vor dem jeweiligen Kündigungstag, zu kündigen und vorzeitig zu tilgen (die „**Kündigung**“).

(2) Ein „**Kündigungsereignis**“ bezeichnet jedes der folgenden Ereignisse:

- (i) Die Ermittlung und/oder Veröffentlichung des Kurses des Index wird endgültig eingestellt, oder der Emittentin oder der Berechnungsstelle wird eine entsprechende Absicht bekannt.
- (ii) Die Emittentin und die Berechnungsstelle sind nach Ausübung billigen Ermessens der Ansicht, dass eine Anpassung dieser Bedingungen, aus welchen Gründen auch immer, nicht möglich ist, oder dass eine Anpassung dieser Bedingungen kein wirtschaftlich vernünftiges Ergebnis erreichen würde.
- (iii) Die Emittentin und die Berechnungsstelle sind nach Ausübung billigen Ermessens der Ansicht, dass eine sonstige erhebliche Änderung der Marktbedingungen an der Börse eingetreten ist.
- (iv) Die Emittentin und die Berechnungsstelle sind nach Ausübung billigen Ermessens der Ansicht, dass eine Rechtsänderung und/oder Hedging-Störung und/oder Gestiegene Hedging-Kosten vorliegen.

Dabei gilt

„**Rechtsänderung**“ bedeutet, dass (A) aufgrund des Inkrafttretens von Änderungen der Gesetze oder Verordnungen (einschließlich aber nicht beschränkt auf Steuergesetze) oder (B) der Änderung der Auslegung von gerichtlichen oder behördlichen Entscheidungen, die für die entsprechenden Gesetze oder Verordnungen relevant sind (einschließlich der Aussagen der Steuerbehörden), die Emittentin nach Treu und Glauben feststellt, dass (X) das Halten, der Erwerb oder die Veräußerung von Transaktionen bzw. Vermögenswerten in Bezug auf den Basiswert rechtswidrig geworden ist oder (Y) die Kosten, die mit den Verpflichtungen unter den Wertpapieren verbunden sind, wesentlich gestiegen sind (einschließlich aber nicht beschränkt auf Erhöhungen der Steuerverpflichtungen, der Senkung von steuerlichen Vorteilen oder anderen negativen Auswirkungen auf die steuerrechtliche Behandlung), falls solche Änderungen an oder nach dem Ausgabetag wirksam werden;

(2) A „**Termination Event**“ means any of the following events:

- (i) The determination and/or publication of the price of the Index is discontinued permanently, or the Issuer or the Calculation Agent obtains knowledge about the intention to do so.
- (ii) It is, in the opinion of the Issuer and the Calculation Agent at their reasonable discretion, not possible, for whatever reason, to make adjustments to these Conditions or if an adjustment adjustments to these Conditions would not achieve a commercially reasonable result.
- (iii) In the opinion of the Issuer and the Calculation Agent at their reasonable discretion, another material change in the market conditions occurred in relation to the Exchange.
- (iv) In the opinion of the Issuer and the Calculation Agent at their reasonable discretion, a Change in Law and/or a Hedging Disruption and/or an Increased Cost of Hedging occurred.

In this context:

„**Change in Law**“ means that, on or after the Issue Date of the Securities (A) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (B) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Issuer determines in good faith that (X) it has become illegal to hold, acquire or dispose of any transaction(s) or asset(s) in relation to the Underlying, or (Y) it will incur a materially increased cost in performing its obligations under the Securities (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position);

„**Hedging Disruption**“ means that the Issuer is

nicht in der Lage ist unter Anwendung wirtschaftlich vernünftiger Bemühungen, (A) Transaktionen abzuschließen, fortzuführen oder abzuwickeln bzw. Vermögenswerten zu realisieren, zurückzugewinnen oder weiterzuleiten; und

„**Gestiegene Hedging-Kosten**“ bedeutet, dass die Emittentin im Vergleich zum Ausgabetag einen wesentlich höheren Betrag an Steuern, Abgaben, Aufwendungen und Gebühren (außer Maklergebühren) entrichten muss, um (A) Transaktionen abzuschließen, fortzuführen oder abzuwickeln bzw. Vermögenswerten zu realisieren, zurückzugewinnen oder weiterzuleiten, unter der Voraussetzung, dass Beträge, die sich nur erhöht haben, weil die Kreditwürdigkeit der Emittentin zurückgegangen ist, nicht als Gestiegene Hedging-Kosten angesehen werden.

- (3) Im Fall der Kündigung zahlt die Emittentin an jeden Wertpapiergläubiger bezüglich jedes von ihm gehaltenen Wertpapiers einen Geldbetrag in der Auszahlungswährung, der von der Berechnungsstelle nach billigem Ermessen, gegebenenfalls unter Berücksichtigung des dann maßgeblichen Kurses des Basiswerts, als angemessener Marktpreis eines Wertpapiers bei Kündigung festgelegt wird (der „**Kündigungsbetrag**“).

§ 7 b Steuern; Steuer-Kündigung

- (1) Alle von der Emittentin nach diesen Bedingungen zahlbaren Beträge sind ohne Einbehalt oder Abzug an der Quelle von gegenwärtigen oder irgendwelchen zukünftigen Steuern, Gebühren oder Abgaben, die von oder in Jersey, dem Vereinigten Königreich oder von oder in den Ländern, in denen die Wertpapiere öffentlich angeboten werden, oder einer ihrer Gebietskörperschaften oder Behörden mit Steuerhoheit erhoben werden („**Quellensteuern**“) zu zahlen, es sei denn, ein solcher Einbehalt oder Abzug von Quellensteuern ist gesetzlich vorgeschrieben. In diesem Fall zahlt die Emittentin, vorbehaltlich der nachfolgenden Regelungen, diejenigen zusätzlichen Beträge, die erforderlich sind, damit

unable, after using commercially reasonable efforts, to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge price risks of issuing and performing its obligations with respect to the Securities, or (B) realise, recover or remit the proceeds of any such transaction(s) or asset(s); and

„**Increased Cost of Hedging**“ means that the Issuer would incur a materially increased (as compared with circumstances existing on the Issue Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the price risk of issuing and performing its obligations with respect to the Securities, or (B) realise, recover or remit the proceeds of any such transaction(s) or asset(s), provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer shall not be deemed an Increased Cost of Hedging.

- (3) In the case of Termination the Issuer shall pay to each Securityholder an amount in the Redemption Currency with respect to each Security it holds, which is determined by the Calculation Agent at its reasonable discretion and, if applicable, considering the then prevailing Price of the Underlying, as the fair market price of a Security at the occurrence of Termination (the „**Termination Amount**“).

§ 7 b Taxes; Termination for Tax Reasons

- (1) All amounts payable by the Issuer under these Conditions are payable without any withholding or deduction at source of any present or future taxes, charges or duties imposed by or in Jersey, the United Kingdom or by or in those countries, in which the Securities are publicly offered, or by any political subdivision or any authority thereof having power to tax („**Withholding Taxes**“), unless such withholding or deduction of Withholding Taxes is required by law. In this latter case, the Issuer will, subject to the following provisions, pay such additional amounts as are necessary in order that the amounts received by the Securityholders equal the amounts they would have received in the absence of any

die Wertpapiergläubiger die Beträge erhalten, die sie ohne Quellensteuern erhalten hätten.

- (2) Die Emittentin ist jedoch nicht verpflichtet, solche zusätzlichen Beträge zu zahlen:

- wenn ein Wertpapiergläubiger solchen Steuern, Gebühren oder Abgaben auf die Wertpapiere wegen irgendeiner anderen Verbindung zu Jersey, dem Vereinigten Königreich oder den Ländern, in denen die Wertpapiere öffentlich angeboten werden, als allein der Tatsache unterliegt, dass er Wertpapiergläubiger ist;

- wenn solche Quellensteuern auf Zahlungen an einen Wertpapiergläubiger auf die Wertpapiere selbst oder jede Zahlung darauf auf der EU-Richtlinie über die Besteuerung von Kapitaleinkünften (2003/48/EG) vom 3. Juni 2003 („**EU-Zinsrichtlinie**“) beruhen. Gleiches gilt auch für jedes Gesetz oder jede andere rechtliche Maßnahme, welche die EU-Zinsrichtlinie umsetzt oder mit dieser übereinstimmt oder eingeführt wurde, um der EU-Zinsrichtlinie zu entsprechen;

- wenn Quellensteuern von dem Wertpapiergläubiger dadurch hätten vermieden werden können, dass er die Zahlungen auf die Wertpapiere, über eine andere Zahlstelle in einem EU-Mitgliedstaat zur Zahlung abgefordert hätte;

- die aufgrund einer Rechtsänderung zu zahlen sind, welche später als 30 Tage nach Fälligkeit der betreffenden Zahlung von Kapital, oder, wenn dies später erfolgt, ordnungsgemäßer Bereitstellung aller fälligen Beträge gemäß § 1 dieser Bedingungen wirksam wird.

- (3) Die Emittentin ist jederzeit berechtigt, sämtliche Wertpapiere, jedoch nicht nur teilweise, mit einer Frist von nicht weniger als 30 Tagen und nicht mehr als 45 Tagen durch Mitteilung gemäß § 11 dieser Bedingungen und unter Angabe des Kalendertags, zu dem die Kündigung wirksam wird (der „**Steuer-Kündigungstag**“), zur Rückzahlung zu einem Geldbetrag je Wertpapier in der Auszahlungswährung, der von der Berechnungsstelle nach billigem Ermessen, gegebenenfalls unter Berücksichtigung des dann maßgeblichen Kurses des Basiswerts und der durch die Kündigung bei der Emittentin angefallenen Kosten, als angemessener Marktpreis eines Wertpapiers bei Kündigung festgelegt wird (der „**Steuer-Kündigungsbetrag**“), zu kündigen, falls:

- die Emittentin bei der nächsten Zahlung nach diesen Bedingungen verpflichtet ist oder verpflichtet sein wird, als Ergebnis einer Änderung oder Ergänzung in den Gesetzen oder Vorschriften in Jersey, dem Vereinigten Königreich oder den Ländern, in denen die Wertpapiere öffentlich angeboten werden, oder irgendeiner ihrer Gebiets-

- (2) However, the Issuer will be not obliged to pay any such additional amounts:

- if a Securityholder is subject to such taxes, charges or duties on the Securities due to any other relationship with Jersey, the United Kingdom or those countries, in which the Securities are publicly offered, than the mere holding of the Securities;

- if such Withholding Taxes on payments to any Securityholder with respect to the Securities themselves or any payout thereon are based on the EU Directive on the taxation of savings income (2003/48/EC) of 3 June 2003 („**EU Savings Directive**“). The same also applies to any law or any other legal measure which implements or is in conformity with or has been adopted to comply with the EU Savings Directive;

- if the Securityholders may have avoided any Withholding Taxes by claiming payments on the Securities via another paying agent in a EU member state;

- that are payable as a result of any change in law that becomes effective more than 30 days after the relevant payment of principal becomes due or is duly provided for pursuant to § 1 of these Conditions, whichever occurs later.

- (3) The Issuer is entitled at any time to redeem all, but not only some, of the Securities on giving no less than 30 and no more than 45 days notice pursuant to § 11 of these Conditions, specifying the calendar day, on which the Termination becomes effective (the „**Tax Termination Date**“), at an amount in the Redemption Currency with respect to each Security, which is determined by the Calculation Agent at its reasonable discretion and, if applicable, considering the then prevailing Price of the Underlying and the expenses of the Issuer caused by the Termination, as the fair market price of a Security at the occurrence of Termination (the „**Tax Termination Amount**“) if:

- the Issuer, on the occasion of the next payment is or will be required under these Conditions to pay additional amounts under this § 7 b of these Conditions on account of any change or amendment to the laws or regulations of Jersey, the United Kingdom or those countries, in which the Securities are publicly

körperschaften oder Behörden mit Steuerhoheit oder einer Änderung in der Anwendung oder Auslegung solcher Gesetze oder Vorschriften, die am oder nach dem Ausgabetag dieser Wertpapiere in Kraft tritt bzw. angewendet wird, zusätzliche Beträge nach diesem § 7 b dieser Bedingungen zu zahlen; und

- die Emittentin das Erfordernis, solche zusätzlichen Beträge zahlen zu müssen, nicht durch nach eigenem Ermessen zumutbare Maßnahmen (nicht aber eine Ersetzung der Emittentin gemäß § 10 dieser Bedingungen) vermeiden kann.

Eine solche Kündigung darf nicht früher als 90 Tage vor dem Datum erfolgen, an dem die Emittentin erstmals zusätzliche Beträge nach diesem § 7 b zu zahlen hätte.

§ 8 Marktstörungen

- (1) Sind die Emittentin und die Berechnungsstelle nach Ausübung billigen Ermessens der Ansicht, dass an dem Bewertungstag eine Marktstörung (§ 8 (3)) vorliegt, dann wird der Bewertungstag für den Basiswert auf den unmittelbar darauf folgenden Basiswert-Berechnungstag, an dem keine Marktstörung mehr vorliegt, verschoben. Die Emittentin wird sich bemühen, den Beteiligten unverzüglich gemäß § 11 dieser Bedingungen mitzuteilen, dass eine Marktstörung eingetreten ist. Eine Pflicht zur Mitteilung besteht jedoch nicht.
- (2) Wenn der Bewertungstag aufgrund der Bestimmungen des § 8 (1) um acht Basiswert-Berechnungstage verschoben worden ist und auch an diesem Tag die Marktstörung fortbesteht, dann gilt dieser Tag als der maßgebliche Bewertungstag für den Basiswert.

Eine weitere Verschiebung findet nicht statt.

Die Emittentin und die Berechnungsstelle werden dann nach Ausübung billigen Ermessens sowie unter Berücksichtigung (i) der dann herrschenden Marktgegebenheiten und (ii) sämtlicher sonstigen Konditionen bzw. Faktoren, die die Emittentin und die Berechnungsstelle angemessenerweise für bedeutsam halten, auf Grundlage der zuletzt erhältlichen Kurse des Basiswerts einen Kurs des Basiswerts in Bezug auf den verschobenen Bewertungstag schätzen. (Zur Klarstellung: Dieser Kurs kann auch Null (0) betragen.)

Sind die Emittentin und die Berechnungsstelle nach Ausübung billigen Ermessens der Ansicht, dass eine Schätzung des Kurses des Basiswerts aus welchen Gründen auch immer nicht möglich ist, dann werden die Emittentin und die Berechnungsstelle nach Ausübung billigen Ermessens sowie unter Berücksichtigung (i) der dann herrschenden Markt-

offered, or any political subdivision or authority thereof with power to tax or any change in application or interpretation of such laws or regulations which change becomes effective or applicable on or after the Issue Date of these Securities; and

- the Issuer cannot avoid the requirement to pay such additional amounts by any steps reasonably available to the Issuer at its own discretion (but not by any substitution of the Issuer pursuant to § 10 of these Conditions).

Any such notice of redemption must not be given any earlier than 90 days prior to the date on which the Issuer would initially be required to pay additional amounts pursuant to this § 7 b.

§ 8 Market Disruptions

- (1) If, in the opinion of the Issuer and the Calculation Agent at their reasonable discretion, a Market Disruption (§ 8 (3)) prevails on the Valuation Date, the Valuation Date in relation to the Underlying shall be postponed to the next succeeding Underlying Calculation Date, on which no Market Disruption prevails. The Issuer shall endeavour to notify the parties pursuant to § 11 of these Conditions without delay of the occurrence of a Market Disruption. However, there is no notification obligation.
- (2) If the Valuation Date has been postponed, due to the provisions of § 8 (1), by eight Underlying Calculation Dates, and if the Market Disruption continues to prevail on this day, this day shall be deemed to be the relevant Valuation Date, as the case may be, in relation to the Underlying.

No further postponement shall take place.

The Issuer and the Calculation Agent will then, at their reasonable discretion and taking into account (i) the market conditions then prevailing and (ii) such other conditions or factors as the Issuer and the Calculation Agent reasonably consider to be relevant, estimate the Price of the Underlying in relation to the postponed Valuation Date (which for the avoidance of doubt could be zero (0)) on the basis of the last announced Prices of the Underlying.

If, in the opinion of the Issuer and the Calculation Agent at their reasonable discretion, an estimate of the Price of the Underlying is, for whatsoever reason, not possible, the Issuer and the Calculation Agent will, at their reasonable discretion and taking into account (i) the market conditions then prevailing, (ii) such other

gegebenheiten, (ii) sämtlicher sonstigen Konditionen bzw. Faktoren, die die Emittentin und die Berechnungsstelle angemessenerweise für bedeutsam halten und (iii) gegebenenfalls unter Berücksichtigung der durch die Marktstörung bei der Emittentin angefallenen Kosten, bestimmen, ob, und gegebenenfalls in welcher Höhe, die Emittentin einen Geldbetrag in der Auszahlungswährung zahlen wird. Auf diesen Geldbetrag finden die in diesen Bedingungen enthaltenen Bestimmungen über den Auszahlungsbetrag entsprechende Anwendung.

(3) Eine „**Marktstörung**“ bedeutet in Bezug auf einen Index bzw. auf sämtliche seiner Einzelwerte:

- (a) die Suspendierung oder das Ausbleiben der Bekanntgabe des Kurses des Basiswerts an einem für die Berechnung eines Auszahlungsbetrags, eines Kündigungsbetrags bzw. eines Steuer-Kündigungsbetrags maßgeblichen Basiswert-Berechnungstag, oder
- (b) die Begrenzung, Suspendierung bzw. Unterbrechung oder, vorbehaltlich von Absatz (4), eine nach Auffassung der Emittentin und der Berechnungsstelle wesentliche Einschränkung des Handels
 - (i) an der Maßgeblichen Börse oder an der/den Börse(n) bzw. in dem Markt/den Märkten, an/in der/dem/denen die Einzelwerte notiert oder gehandelt werden, allgemein (sei es wegen Kursbewegungen, die die Grenzen des von der Maßgeblichen Börse oder der/den Börse(n) bzw. dem Markt/den Märkten, an/in der/dem/denen die Einzelwerte notiert oder gehandelt werden, Erlaubten überschreiten, oder aus sonstigen Gründen), oder
 - (ii) an der Maßgeblichen Börse oder an der/den Börse(n) bzw. in dem Markt/den Märkten, an/in der/dem/denen die Einzelwerte notiert oder gehandelt werden, in dem Index bzw. in den Einzelwerten des Index an der Maßgeblichen Börse oder an der/den Börse(n) bzw. in dem Markt/den Märkten an/in der/dem/denen die Einzelwerte notiert oder gehandelt werden, sofern eine wesentliche Anzahl oder ein wesentlicher Anteil unter Berücksichtigung der Marktkapitalisierung betroffen ist (als wesentliche Anzahl bzw. wesentlicher Anteil gilt eine solche oder ein solcher von mehr als 20 %, (sei es wegen Kursbewegungen, die die Grenzen des von der Maßgeblichen Börse oder

conditions or factors as the Issuer and the Calculation Agent reasonably consider to be relevant and (iii) the expenses of the Issuer, if any, caused by the Market Disruption, determine whether and in which amount, if applicable, the Issuer will make payment of an amount in the Redemption Currency. The provisions of these Conditions relating to the Redemption Amount shall apply *mutatis mutandis* to such payment.

(3) A “**Market Disruption**” shall mean in relation to an index or, as the case may be, in relation to each of its Components:

- (a) a suspension or a failure of the announcement of the Price of the Underlying on any Underlying Calculation Date relevant for determining the Redemption Amount, the Termination Amount or the Tax Termination Amount, as the case may be, or
- (b) a limitation, suspension or disruption of or, subject to para. (4), a restriction imposed on trading, the latter of which the Issuer and the Calculation Agent consider significant,
 - (i) on the Relevant Exchange or on the stock exchange(s) or in the market(s) on/in which the Components are quoted or traded, in general (whether by movements in price exceeding limits permitted by the Relevant Exchange or the stock exchange(s) or the market(s) on/in which the Components are quoted or traded, or otherwise), or
 - (ii) on the Relevant Exchange or on the stock exchange(s) or in the market(s) on/in which the Components are quoted or traded, in the Index or, as the case may be, in the Components of the Index on the Relevant Exchange or on the stock exchange(s) or in the market(s) on/in which the Components are quoted or traded, provided that a major number or a major part in terms of market capitalisation is concerned (a number or part in excess of 20 % shall be deemed to be material), (whether by movements in price exceeding limits permitted by the Relevant Exchange or the stock exchange(s) or the market(s) on/in which the Components are quoted or

der/den Börse(n) bzw. dem Markt/den Märkten, an/in der/dem/denen die Einzelwerte notiert oder gehandelt werden, Erlaubten überschreiten, oder aus sonstigen Gründen), oder

traded, or otherwise), or

(iii) an der Maßgeblichen Terminbörse, falls dort Optionskontrakte auf das Edelmetall gehandelt werden, oder

(iii) on the Relevant Futures and Options Exchange, if Option Contracts on the precious metal are traded there, or

(iv) aufgrund einer Anordnung einer Behörde oder der Maßgeblichen Börse (sei es wegen Kursbewegungen, die die Grenzen des von der Maßgeblichen Börse Erlaubten überschreiten, oder aus sonstigen Gründen), bzw. aufgrund eines Moratoriums für Bankgeschäfte in dem Land, in dem die Maßgebliche Börse ansässig ist, oder aufgrund sonstiger Umstände.

(iv) due to a directive of an authority or of the Relevant Exchange (whether by movements in price exceeding limits permitted by the Relevant Exchange or otherwise) or due to a moratorium, which is declared in respect of banking activities in the country, in which the Relevant Exchange is located, or due to any other reasons whatsoever.

(c) Der maßgebliche Kurs ist ein Grenzpreis (*limit price*), was bedeutet, dass der für einen Tag ermittelte Kurs für den Basiswert den Kurs an dem unmittelbar vorangehenden Tag um den nach den Vorschriften der Maßgeblichen Börse oder der Börse(n) bzw. des Markts/der Märkte, an/in der/dem/denen die Einzelwerte notiert oder gehandelt werden, zulässigen maximalen Umfang überschritten bzw. unterschritten hat.

(c) The relevant price is a "limit price", which means that the price for the Underlying for a day has increased or decreased from the immediately preceding day's price by the maximum amount permitted under applicable rules of the Relevant Exchange or the stock exchange(s) or the market(s) on/in which the Components are quoted or traded.

(d) Der Eintritt eines sonstigen Ereignisses, das nach Ansicht der Emittentin und der Berechnungsstelle nach Ausübung billigen Ermessens die allgemeine Möglichkeit von Marktteilnehmern beeinträchtigt oder behindert, Transaktionen in dem Basiswert durchzuführen oder diesbezügliche Marktbewertungen zu erhalten.

(d) The occurrence of any other event that, in the opinion of the Issuer and the Calculation Agent at their reasonable discretion, disrupts or impairs the ability of market participants in general to effect transactions in, or obtain market values for the Underlying.

(4) Eine Verkürzung der regulären Handelszeiten oder eine Beschränkung der Stunden oder Anzahl der Tage, an denen ein Handel stattfindet, gilt nicht als Marktstörung, sofern die Einschränkung auf einer Änderung der regulären Handelszeiten der Maßgeblichen Börse beruht, die mindestens eine (1) Stunde vor (i) entweder dem tatsächlichen regulären Ende der Handelszeiten an der Maßgeblichen Börse oder (ii) dem Termin für die Abgabe von Handelsaufträgen zur Bearbeitung an dem betreffenden Tag an der Maßgeblichen Börse, je nachdem welcher Zeitpunkt früher ist, angekündigt worden ist. Eine im Laufe eines Tages auferlegte Beschränkung im Handel aufgrund von Preisbewegungen, die bestimmte vorgegebene Grenzen überschreiten, gilt nur dann als Marktstörung, wenn diese Beschränkung bis zum Ende der Handelszeit an dem betreffenden Tag fort dauert.

(4) Any closing prior to the scheduled trading time or any restriction of the hours or the number of days during which trading takes place is not deemed to be a Market Disruption, if the restriction is based on a change in regular trading hours on the Relevant Exchange announced in advance at least one (1) hour prior to the earlier of (i) the actual closing time for the regular trading hours on the Relevant Exchange or (ii) the submission deadline for orders entered into the Relevant Exchange for execution on the relevant day. A restriction of trading which is levied during the course of any day due to price developments exceeding certain prescribed limits shall only be deemed to be a Market Disruption if such restriction continues until the end of trading hours on the relevant day.

E. INFORMATION ABOUT THE UNDERLYING

The underlying is the UBS Risk Adjusted Dynamic Alpha (RADA) Net Total Return Index (EUR) on EURO STOXX 50® Index.

Information about the past and the further performance of the Underlying and its volatility can be obtained upon request from the Issuer.

Investors are referred to the important disclaimers and risk factors in this description of the UBS Risk Adjusted Dynamic Alpha (RADA) Net Total Return Index (EUR) on EURO STOXX 50® Index (the “Index Manual”).

Section 1. Introduction

This Index Manual sets out the rules and risk factors applicable to the UBS Risk Adjusted Dynamic Alpha (“**RADA**”) Europe Index – Net Total Return (EUR) (the “**Index**”), including the basis on which the Index Level will be calculated.

The Index is the intellectual property of UBS AG, acting through its London Branch (or any successor thereto) (in such capacity, the “**Index Owner**”). The Index Owner owns the copyright and all other intellectual property rights in the Index and this Index Manual. Any use of these intellectual property rights must be with the prior written consent of the Index Owner.

The Index will be governed by UBS AG, acting through its London Branch (or its successor) (in such capacity, the “**Index Administrator**”) via its internal processes. The Index Administrator controls the creation and operation of the Index administrative process, including all stages and processes involved in the production and dissemination of the Index. Notwithstanding that the Index relies on information from third party sources, the Index Administrator has primary responsibility for all aspects of the Index administration and determination process.

The Index Administrator has implemented and maintains the “**UBS Control Framework Document**”, which is a control framework for the process of determining and distributing a number of indices in respect of which UBS acts as the Index Administrator, including the Index. A summary of the main features of the UBS Control Framework Document is available on the UBS Website. Neither the UBS Control Framework Document, nor the summary of its main features, forms part of this Prospectus.

The information in this Index Manual reflects the policies of, and is subject to change by, the Index Administrator. The Index Administrator makes certain determinations and calculations in respect of the Index and publishes the Index Level as further described in this Index Manual. The Index Owner does not have any obligation to ensure that the Index Administrator continues to publish the Index Level and the Index Administrator may discontinue publication of the Index Level upon giving at least 10 Index Administrator Business Days’ notice on the Bloomberg Page and/or the Reuters Page (as referred to below) and/or on the UBS Website. Details of any adjustments made to the Index shall be made available by the Index Administrator on application to the Index Administrator’s principal office at UBS, 1 Finsbury Avenue, London, EC2M 2PP. The Index Administrator will make available the Index Level in respect of each Index Business Day. The Index Level is published on Bloomberg and/or on Reuters under the following codes described in the table below (the “**Bloomberg Page**” and “**Reuters Page**” respectively) and/or on the UBS Website. The Index Level in respect of any Index Business Day will be published on the immediately following London Business Day.

Index	Index Currency	BBG Ticker	Reuters Ticker
UBS RADA Europe Index - Net Total Return	EUR	ULTARADA	ULTARADA=UBSL

To the extent data used to determine the Index Level is not sourced from a regulated market or exchange with mandatory post-trade transparency requirements, the Index Administrator will publish with each publication of the Index Level an explanation of: (i) how such Index Level was determined (including the size and liquidity of the market being assessed (meaning the number and volume of transactions observed for the purposes determining the Index Level), the range and average volume and range and average price, and indicative percentages of each type of market data that has been considered in the determination of the Index Level); and

(ii) the extent to which, and the basis upon which, the exercise of discretion (including extrapolating values from prior or related transactions, adjusting values for factors that might influence the quality of data such as market events or impairment of a buyer or seller's credit quality, or weighting firm bids or offers greater than a particular concluded transaction) if any, was used in determining the Index Level.

Historical records relating to the composition and past performance of the Index is available on the Bloomberg Page and/or on the Reuters Page and/or on the UBS Website.

The Index Administrator may, upon giving at least 10 Index Administrator Business Days' notice on the Bloomberg Page and/or the Reuters Page and/or on the UBS Website, change the place and time of the publication of the Index Level and the frequency of publication of the Index Level.

Neither the Index Owner nor the Index Administrator accepts any legal liability to any person for publishing or not continuing to publish for any period of time any Index Level at any particular place or any particular time.

Any publication described in this *Section 1 – Introduction* may be restricted by means determined as appropriate for such purpose by the Index Administrator in its sole and absolute discretion, including, but not limited to, password protection restricting access to a limited set of persons in accordance with arrangements agreed between the Index Administrator and such persons.

Before making any investment decisions, prospective investors should carefully read this Index Manual, including *Section 2 – Overview of the Index*, *Section 3 – Risk Factors*, *Section 5 – Index Market Disruption Events, Force Majeure Events and Potential Adjustment Events* and *Section 8 – Disclaimer, Licensing and Trademark*.

All determinations and calculations made by the Index Administrator will (in the absence of manifest error) be final, conclusive and binding. The Index Administrator shall have no responsibility to any person for any good faith errors or omissions in any determination or calculation.

The Index relies on information from third party sources. Neither the Index Owner nor the Index Administrator makes any representation or warranty, express or implied, as to the correctness of that information and neither the Index Owner nor the Index Administrator takes any responsibility for the accuracy of such data or the impact of any inaccuracy of such data on the Index. Even if any error or discrepancy on the part of any data source is corrected or revised, neither the Index Owner nor the Index Administrator is under any obligation to, and neither the Index Owner nor the Index Administrator currently intends to, reflect any such correction or revisions into the calculation of the Index Level.

Capitalised terms used in this Index Manual have the meanings given to them in *Section 9 – Definitions*.

No legal relationship (whether in contract, tort, or otherwise) exists between any Index Product Investor and the Index Administrator or the Index Owner and neither the Index Administrator nor the Index Owner owes any duties (whether in contract, tort, or otherwise) to any Index Product Investor.

The information contained in this Index Manual is a summary of the methodology and material rules and risks relating to the Index. Neither the Index Owner nor the Index Administrator makes any representation or warranty that the Index will achieve its stated objectives.

Section 2. Overview of the Index

Objective of the Index: The Index uses a strictly rules-based methodology to implement a market timing strategy based on the proprietary UBS Dynamic Equity Risk Indicator (“DERI”) in order to rotate in and out of equity investments. The DERI seeks to produce a single, objective out-of-sample quantitative measure of investor sentiment and risk appetite across global financial markets in general with a specific focus on equity markets based on contemporarily available information and weighted in relation to its correlation with equity market movements. Specifically, the DERI is calculated as a composite of normalized scores for the following components, dynamically weighted by the rolling correlation of each to rolling daily changes in equity markets over the preceding seven years:

1. Equity index option implied volatility: VIX and VDAX.
2. Credit spreads: Moody’s BAA spread over US 10y treasuries.
3. Swap spreads: average of USD, JPY, EUR and GBP 5y swap spreads
4. Currency volatility: average of 1m and 3m daily volatility in EUR, JPY, CHF, GBP and AUD versus USD.
5. Cyclical versus defensive sector performance.
6. Excess performance of high-beta regions.
7. Excess performance of high-beta sectors.
8. Equity market momentum: MSCI AC World relative to its 200 day moving average.

The DERI is calculated and published by UBS. A copy of the current version of the manual relating to the DERI is available from UBS upon request.

Index methodology: The Index rotates in and out of equity investments through the use of long and short positions in the Underlying Index (as defined below) whenever there is a change in trend, as indicated by the DERI, thereby aiming to achieve better returns than would be generated by holding purely static positions and/or the market generally.

The strategy seeks to take a long position in the Euro Stoxx 50 Total Return Index (each an “**Underlying Index**” or an “**Index Component**”) when the DERI indicates bullish market conditions, and to take a short position in the relevant Index Component when the DERI indicates bearish market conditions, and to take a flat position by staying invested in cash when uncertain market conditions are detected by the DERI.

Index	Underlying Index	Bloomberg Ticker of Underlying Index
UBS RADA Europe Index - Net Total Return (EUR)	EURO STOXX 50 Index	SX5T Index

Determination of the Index Level: The Index Level is calculated by the Index Administrator at the Valuation Time and is based on the published official closing price, level or value of each Index Component on each Index Business Day. The Index Level is published on Bloomberg and/or Reuters and/or on the UBS Website on the London Business Day following each Index Business Day. The Index Level was first published in respect of 30 April 2007 (the “**Index Commencement Date**”). On any day where the Index Level is not calculated (for example, on a Disrupted Day), no Index Level will be published in respect of such day, subject to the provisions set out below.

Determination of the value of each Index Component: The Index shall consist of a long or a short or a flat position in the related Index Component and an Underlying Cash Position if the Index is a total return index.

The initial level of the Index was 100.00 (the “**Index Base Level**”) on 1 January 1997 (the “**Index Base Date**”).

This *Section 2 – Overview of the Index* - only provides a summary of the Index and is subject to, and qualified by, the remainder of this Index Manual. Prospective Index Product Investors should therefore carefully read the whole of this Index Manual.

Prospective Index Product Investors should also note that any purposes, aims and intentions expressed in this Index Manual may not be achieved.

Section 3. Risk Factors

This Index Manual is not, nor does it purport to be, investment advice. Neither the Index Owner nor the Index Administrator is acting as an investment adviser or providing advice of any nature and does not assume any fiduciary obligation to any investors buying, selling, entering into or holding products linked to the Index (such products, the “**Index Products**” and such investors, the “**Index Product Investors**”). Prospective investors should carefully consider whether the Index Products are suited to their particular circumstances and, if they are in any doubt, seek independent financial advice.

Risk factors in relation to a direct notional investment in the Index are set out below.

This Index Manual does not describe all of the risks associated with a direct notional investment in the Index. It describes only those risks that the Index Administrator considers to be material. There may be additional risks that the Index Administrator currently considers not to be material or of which it is not currently aware. Prospective Index Product Investors should seek independent financial advice where they do not fully understand the risks related to the Index Administrator, the Index Components or the Index itself. In addition, each of the risks highlighted below could adversely affect the market value of the Index Product or the rights of Index Product Investors and, as a result, Index Product Investors could lose some or all of their investment. Risk factors in relation to an Index Product may be set out in the relevant documents in relation to such Index Product.

1. Index Products may not be a suitable investment for all investors

Each prospective Index Product Investor must determine the suitability of that investment in light of its own circumstances. In particular, each prospective Index Product Investor should: (a) have sufficient knowledge and experience to evaluate the Index Products, the merits and risks of investing in the Index Products and the information contained or incorporated by reference in the product documentation; (b) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the relevant product and the impact the Index Products will have on its overall investment portfolio; (c) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Index Products, including where the settlement currency is different from the prospective Index Product Investor's currency or may be payable in one or more currencies; (d) understand thoroughly the terms of the Index Products and be familiar with any relevant assets, indices and financial markets; and (e) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

2. Rules-based Index

The Index operates on the basis of pre-determined rules. No assurance can be given that the algorithm on which the Index is based will be successful or that the Index will outperform any alternative algorithm that could have been employed.

3. Index Product Investors could lose their entire investment

The Index Level depends on the performance of the Index Components, each of which may increase or decrease in value. Neither the Index nor any of the Index Components includes any element of capital protection or guaranteed return. The value of any Index Component, or the Index itself, may fall below its initial value.

4. Market risks may affect the Index Level

Economic, financial, political, regulatory, geographical, judicial or other events which affect the investment climate and economic sentiment may affect the value of the Index Components and, therefore, the Index Level.

5. The Index is not actively managed

The Index operates in accordance with a pre-determined methodology and formulae as further described herein, and the Index Administrator exercises discretion only in limited situations as described in *Section 5* –

Index Market Disruption Events, Force Majeure Events and Potential Adjustment Events. The Index is, therefore, not actively managed. There will be no active management of the Index so as to enhance returns beyond those embedded in the Index. Market participants are often able to adjust their investments promptly in view of market, political, financial or other factors, and an actively managed product could potentially respond more directly and appropriately to immediate market, political, financial or other factors than a non-actively managed index. In contrast, the pre-determined methodology and formulae in respect of the Index will rebalance the weights or quantity assigned to each Index Component to its specified value only on each Rebalance Date.

Neither the Index Owner nor the Index Administrator is acting as an investment adviser or performing a discretionary management role with respect to the Index and, as a result, has any fiduciary duty to any person in respect of the Index.

6. Influence of Currency Exchange Rates

Index Components may be denominated in currencies different from the Index Currency, and the Index is not currency-hedged. An unfavourable performance of such currencies in relation to the Index Currency may have an adverse effect on the Index Level at any given time.

7. No rights in any Index Component

The Index is purely synthetic. The exposure to each Index Component is purely notional and will exist only in the records held by the Index Administrator. A notional investment in the Index will not make an Index Product Investor the owner of, or as the case may be, a party to, any Index Component comprising the Index.

8. The Index relies on the use of third-party information about Index Components

All information in this Index Manual about any Index Component has been derived from publicly available documents. UBS has not participated and will not participate in the preparation of any of those documents. Nor has UBS made or will UBS make any “due diligence” investigation or any inquiry with respect to the sponsor or issuer of any Index Component in connection with the maintenance of the Index. UBS does not make any representation or warranty that any such publicly available document or any other relevant publicly available information is accurate or complete. Furthermore, UBS does not know whether all events occurring before the date of this Prospectus, including events that would affect the accuracy or completeness of the publicly available documents referred to above or the level, value or price of any Index Component, have been publicly disclosed. Subsequent disclosure of any events of this kind or the disclosure of or failure to disclose material future events concerning any Index Component could affect the Index Level.

9. The Index Administrator may rely upon third party and other external and internal data sources which may be inaccessible and/or inaccurate, and the inputs used by the Index Administrator to run the Index calculations may affect the Index Level

The Index Administrator may rely upon third party brokers or external dealers and other external and internal sources to obtain certain inputs necessary to compute the Index Level. The inability of the Index Administrator to source necessary data to calculate the relevant formulae of the Index may affect the Index Level. In addition, the Index Administrator makes no warranty as to the correctness or completeness of that information and takes no responsibility for the accuracy of such data or the impact of any inaccuracy of such data on the Index Level.

10. The policies of the Index Administrator and changes that affect the composition and the Index Components could affect the Index Level

The policies of the Index Administrator concerning the calculation of the Index Level and the values of the Index Components could affect the Index Level.

The Index Administrator may, subject to the Index Administrator obtaining the prior consent of the Index Owner, modify the methodology for calculating the Index Level and the values of the Index Components. In addition, as described herein, under a number of circumstances the Index Administrator may make certain changes to the way in which the Index Level or the value of any of the Index Components is calculated. The Index Administrator may also discontinue or suspend calculation or publication of the Index, in which case it may become difficult to determine the Index Level. Notice of such amendments shall be provided in advance on the Bloomberg Page and/or the Reuters Page and/or on the UBS Website.

11. The historical or hypothetical performance of the Index or any Index Component is not an indication of future performance

The historical or hypothetical performance of the Index or any Index Component should not be taken as an indication of the future performance of the Index or any Index Component. It is impossible to predict whether the future level, value or price of the Index or any Index Component will fall or rise. Past fluctuations and trends in the Index or any Index Component are not necessarily indicative of fluctuations or trends that may occur in the future.

12. The level of any Index Component that is an Underlying Index may affect the Index Level at any time.

The level of any Index Component that is an Underlying Index may affect the Index Level at any time. Index Product Investors should carefully read and consider the publicly available index description or manual containing information about such Underlying Index, including the risk factors associated with a notional investment in such Underlying Index.

13. The occurrence of certain events with respect to an Index Component that is an Underlying Index may affect the Index Level

The prices of component securities or other financial instruments comprising an Underlying Index may be adversely impacted by a wide range of events. For example, component securities or other financial instruments comprised in an Underlying Index may be subject to corporate actions and other extraordinary events, such as mergers, tender offers, extraordinary dividends and nationalisations. The Underlying Index Administrator may be entitled to adjust the composition of the Underlying Index pursuant to the rules of the Underlying Index. Any such events or actions may affect or have an adverse effect on the level of such Underlying Index and in turn on the Index Level.

14. Market and other activities in respect of the Underlying Index may contribute to an increased level of investment in the Underlying Index.

The Underlying Index Administrator has licensed, and may continue to license, the Underlying Index for use by other market participants, for publication in newspapers and periodicals, for distribution by information and data dissemination services and for various other purposes, any of which may contribute to an increased level of investment in the Underlying Index. This may have an adverse impact on the level of the Underlying Index and consequently the Index Level.

15. The Underlying Index Administrator may be required to replace a component security comprised in an Underlying Index if the existing component security is removed.

The Underlying Index comprises component securities. Data concerning the component securities will be used to calculate the Underlying Index. If any component security was to be removed in accordance with the rules of the index methodology of the Underlying Index, a comparable security may be selected by the Underlying Index Administrator, if available, to replace that component security. The replacement of any component security may have an adverse impact on the level of the Underlying Index and consequently, the Index Level.

16. The policies of the Underlying Index Administrator and changes that affect the Underlying Index could affect the level of the Underlying Index.

The policies of the Underlying Index Administrator concerning its calculation could affect the level of the Underlying Index. The level of the Underlying Index could also be affected if the Underlying Index Administrator changes these policies, for example, by materially changing the manner in which it calculates the Underlying Index, or if it cancels or fails to calculate or publish the Underlying Index, in which case it may become difficult or inappropriate to determine the market value of any financial products linked to the Underlying Index (including the Index Level). If any such policies relating to the Underlying Index are changed, or the calculation or publication of the Underlying Index is discontinued or suspended, this could affect the Index Level.

17. The Underlying Index Administrator will have the authority to make determinations that could materially affect the performance of the Underlying Index in various ways.

The Underlying Index was developed, and is currently owned, calculated and maintained, by the Underlying Index Administrator. The Underlying Index Administrator is responsible for the composition, calculation and maintenance of the Underlying Index and has determinative influence over its composition, calculation and

maintenance. The judgements that the Underlying Index Administrator makes in connection with the composition, calculation and maintenance of the Underlying Index, could affect the level of the Underlying Index and therefore the Index Level. The Underlying Index Administrator may decide to discontinue calculating and publishing the Underlying Index and has no obligation to take the interests of holders of any product directly or indirectly linked to the performance of the Underlying Index (including any Index Product) into consideration for any reason in making such determination.

18. There is no affiliation between the Underlying Index Administrator as administrator of the Underlying Index and the Index Administrator and the Index Administrator is not responsible for any disclosure by the Underlying Index Administrator.

Neither the Index Administrator nor any of its affiliates is affiliated with the Underlying Index Administrator as administrator of the Underlying Index. Neither the Index Administrator nor any of its affiliates assume any responsibility for the accuracy or the completeness of any information about the Underlying Index. Index Product Investors should make their own investigation into the Underlying Index.

19. Short Positions, Use of Derivative Instruments and Leveraging

An asset or liability value to which the Index is linked may involve taking short positions in investments, through the use of short selling. This may represent significant investment risk as borrowed securities must be replaced by purchases at current market prices in order to close out a short position, and any appreciation in the value of the investments concerned will result in losses, as well as stock borrowing costs being incurred and may be only suitable for prospective Index Product Investors who understand the risks involved in trading in sophisticated and volatile markets. In addition, a trading strategy may involve trading in futures, options, forward exchange contracts and other derivative instruments and may also involve leveraged trading positions. This may also represent a significant investment risk. As a result, relatively small price movements may result in substantial losses or gains.

20. Trading and other transactions by the Index Administrator and its affiliates in the Index or the Index Components may affect the Index Level.

The Index Administrator and its affiliates may also engage in trading in the Index, the Index Components, futures or options on the Index Components and other investments relating to or based on the Index or the Index Components on a regular basis as part of its general business, for proprietary accounts, for other accounts under management, to facilitate transactions for customers or to hedge obligations under products linked to the Index or Index Components. Although they are not intended to, any of these activities could adversely affect the value of the Index Components or the Index Level. It is possible that one or more of the Index Administrator and its affiliates could receive substantial returns from these activities while the value of the Index Components and the Index Level decline.

The Index Administrator or its affiliates may also issue or underwrite securities or financial or derivative instruments with returns linked or related to changes in the performance of any of the foregoing.

With respect to any of the activities described above, neither the Index Administrator nor its affiliates has any obligation to take into consideration at any time the impact of such activities on the value of the Index Components or the Index Level.

21. Termination or Suspension of the Index

The Index Administrator is under no obligation to continue the calculation, publication and dissemination of the Index. The Index may be terminated or temporarily suspended at any time. Should the Index cease to exist, this may have a negative impact on the return on any notional investment in the Index.

22. Amendment or Modification to the Index

The Index may be amended, modified or adjusted from time to time by the Index Administrator, subject to the Index Administrator obtaining the prior consent of the Index Owner. Any such amendment, modification or adjustment may have an adverse effect on the Index Level. The Index Administrator will apply the method described in this Index Manual for the composition of the Index and calculation of the Index Level. However it cannot be excluded that the market environment, supervisory, legal, financial or tax reasons may require changes to be made to this method. The Index Administrator may, subject to the Index Administrator obtaining the prior consent of the Index Owner, also make changes to the provisions of this Index Manual and the

method applied to calculate the Index Level, which it deems to be necessary and desirable in order to prevent obvious or demonstrable error or to remedy, correct or supplement incorrect or ambiguous provisions. Notice of such amendments, modifications or adjustments shall be provided on the Bloomberg Page and/or the Reuters Page and/or on the UBS Website.

23. Index Administrator Discretion

The Index confers discretion on the Index Administrator in making certain determinations, calculations and corrections from time to time. Although any such determinations, calculations and corrections must be made by the Index Administrator in good faith, the exercise of such discretion in the making of any calculations, determinations and corrections may adversely affect the performance of the Index. Any such determination, calculation or correction by the Index Administrator will be, in the absence of manifest error, final, conclusive and binding. The Index Administrator will determine whether any such correction shall apply retrospectively or from the relevant date forward.

The role played by UBS AG, as Index Administrator and the exercise of the kinds of discretion described above could present it with significant conflicts of interest in light of the fact that UBS AG, of which the Index Administrator is a division, is the issuer or counterparty of Index Products. Neither the Index Administrator nor the Index Owner has any obligation to take into consideration the needs of any Index Product Investor at any time.

24. Change of Index Owner and Index Administrator

The Index Owner may without the consent of Index Product Investors replace the Index Administrator (the “**Successor Index Administrator**”) at its discretion, and furthermore, may also designate a successor Index Owner (the “**Successor Index Owner**”) at its discretion – in the event of such replacement, any reference to the “Index Administrator” and/or the “Index Owner” shall be construed as a reference to the Successor Index Administrator and the Successor Index Owner, respectively.

25. Fees and Costs

The Index Level will be reduced by bid/offer spreads and/or a fee deduction which represents an approximation of the costs incurred by a hypothetical investor replicating the Index, including but not limited to those costs attributable to linking (and, therefore, notionally exposing) the relevant strategy to the Index Components. Such cost is not passed on to Index Product Investors as a payment but will instead be deducted from the Index Level in accordance with this Index Manual. As such, prospective Index Product Investors should understand that such cost may have a material effect on the Index Level. For more information about the calculation of these fees and costs, please refer to *Section 4 – Calculation of the Index and Rebalancing* in this Index Manual.

26. Simulated history

As limited historical performance data exist with respect to the Index, any notional investment in the Index may involve greater risk than a notional investment in indices or strategies with a proven track record. The Index was first calculated on or around the Index Commencement Date and, therefore, lacks historical performance prior to such date. All such retrospective closing levels are simulated based on quantitative screening only. They must be considered hypothetical and illustrative only.

The actual performance of the Index may be materially different from the results presented in any simulated history relating to the Index. Past performance should not be considered indicative of future performance.

27. Equity market risks may affect the Index Level

Because the Index, and/or any Index Component that is an index, includes equity securities, it is expected that the Index Level will fluctuate in accordance with changes in the financial condition of the relevant issuer(s) of its component stocks, the value of common stocks generally and other factors. The financial condition of the issuer(s) of the equity securities may become impaired or the general condition of the equity market may deteriorate, either of which may cause a decrease in the Index Level. Common stocks are susceptible to general equity market fluctuations, to speculative trading by third parties and to volatile increases and decreases in value as market confidence in and perceptions regarding the security or securities comprising the Index change. Investor perceptions regarding the issuer of an equity security comprising the Index or an Index Component are based on various and unpredictable factors, including expectations regarding government, economic, monetary

and fiscal policies, inflation and interest rates, economic expansion or contraction, and global or regional political, economic, and banking crises.

Section 4. Calculation of the Index and Rebalancing

The Index Level shall be determined by the Index Administrator using the formulae below.

1. Base Date and Value

Index BBG ticker	Index	Index Currency	Index Base Date	Index Level on Index Base Date
ULTARADA	UBS RADA Europe Index - Net Total Return	EUR	01-Jan-1997	100

2. Index Equations

From and including the Index Commencement Date, the Index Level will be determined by the Index Administrator at the Valuation Time on each Index Business Day in accordance with the following applicable formula depending on the value of DERI published on Bloomberg Ticker "ULTADERI Index" at the Valuation Time on the relevant Index Business Day as set out below (each of Long, Short and Flat (in each case as defined below) a "Position").

Value of DERI one (1) Business Day prior to Index Business Day 't':	Position:
Greater than 1.25	Flat
Greater than -0.75 and less than or equal to 1.25	Long
Greater than -1.25 and less than or equal to -0.75	Flat
Greater than -2 and less than or equal to -1.25	Short
Less than or equal to -2	Flat

2.1 Long Position

If one Business Day prior to Index Business Day 't', the published value of DERI is lower than or equal to 1.25 and greater than -0.75 ("Long"), then the Index shall track the Index Component 'k' on close of business of Index Business Day 't':

$$Strategy_{t+1}^{k,c,v} = Strategy_t^{k,c,v} \times \left[1 + \left(\frac{UI_{t+1,k}}{UI_{t,k}} - 1 - Cov_{k,c} \times Day(t) / 360 \right) - (Libor_{t,k} - v \times Libor_{t,c}) \times Day(t) / 360 - f \times Day(t) / 360 \right]$$

2.2 Short Position

If one (1) Business Day prior to Index Business Day 't', the published value of DERI is less than or equal to -1.25; and greater than -2 ("Short"), then the Index shall track the Index Component 'k' on close of business of Index Business Day 't'

$$Strategy_{t+1}^{k,c,v} = Strategy_t^{k,c,v} \times \left[1 + \left(1 - \frac{UI_{t+1,k}}{UI_{t,k}} + Cov_{k,c} \times Day(t) / 360 \right) + (Libor_{t,k} + v \times Libor_{t,c}) \times Day(t) / 360 - f \times Day(t) / 360 \right]$$

2.3 Flat Position

If one (1) Business Day prior to Index Business Day 't', the published value of DERI is greater than 1.25, less than or equal to -0.75 and greater than -1.25, or less than or equal to -2 ("Flat"), the Index shall invest in cash on close of 't':

$$Strategy_{t+1}^{k,c,v} = Strategy_t^{k,c,v} \times [1 + v \times Libor_{t,c} \times Day(t) / 360 - f \times Day(t) / 360]$$

Where:

$Strategy_t^{k,c,v}$ means 100, if 't' is the Index Base Date, otherwise $Strategy_t^{k,c,v}$ is the value of the Index on Index Component 'k' on Index Business Day 't';

c: means the Index Currency of the related Index;

v: represents if the Index is a total return or an excess return index. 1 means total return and 0 means excess return;

$UI_{t,k}$: means the closing level of Index Component 'k' on Index Business Day 't';

$UI_{t+1,k}$: means the closing level of Index Component 'k' on Index Business Day 't+1';

f: means 1.00% which represents the Index Fee;

$Libor_{t,k}$: means the overnight USD Libor or Euribor fixing of currency of Index Component 'k' as defined in Table 2.2 below as determined by the Calculation Agent as of 11am, London Time on Index Business Day t;

$Libor_{t,c}$: means the overnight USD Libor or Euribor fixing of currency 'c' as defined in Table 2.2 below as determined by the Calculation Agent as of 11am, London Time on Index Business Day t minus 10 basis points;

Day(t): means the number of calendar days from and including Index Business Day 't' to but excluding Index Business Day 't+1'; and

$Cov_{k,c}$: means the quanto cost for converting the performance of the Index Component from its local currency to the Index Currency.

Table 2.1 List of Index Components and other parameters

k	Index	Index Currency	Index Component Bloomberg Ticker	Index Component Currency	v	Cov _{k,c}

3. Rounding of Calculated Values

The Index Level published by the Index Administrator shall be rounded to two decimal places. All other determinations shall not be rounded.

4. Exercise of expert judgment

If the Index Administrator is required or entitled to make a determination in relation to the Index pursuant to the Index methodology and that determination involves the exercise of discretion with respect to the use of data in determining the Index Level, then the Index Administrator will exercise that discretion (i) in good faith and in a commercially reasonable manner and (ii) in such manner as to ensure, as far as commercially reasonable, consistency in the approach it adopts with regard to the exercise of such discretion between Index Level determinations, including having regard to previous occasions on which the Index Administrator has exercised that discretion in relation to the Index. If the Index Administrator requires data (including prices, estimates, values or rates) from a third party or its front office division (each, a **"Data Submitter"**) to determine the Index Level and the Data Submitter has discretion as to the data to be provided, then the Index Administrator will provide the Data Submitter with prescribed criteria to be followed by such Data Submitter in exercising such discretion in order to ensure, as far as commercially reasonable, consistency in the approach the Data Submitter adopts with regard to the exercise of discretion.

Section 5. Index Market Disruption Events, Force Majeure Events and Potential Adjustment Events

1. Index Market Disruption Events

Any of the following will constitute an “Index Market Disruption Event”:

- a suspension, absence or material limitation of trading in any Index Component on their respective primary markets, in each case for more than two hours of trading or during the one hour before the close of trading in that market, as determined by the Index Administrator; or
- a suspension, absence or material limitation of trading in options or futures contracts relating to any Index Component, if available, in the respective primary markets for those contracts, in each case for more than two hours of trading or during the one-half hour before the close of trading in that market, as determined by the Index Administrator; or
- any Index Component, or options or futures contracts relating to any Index Component, if available, do not trade on what were the respective primary markets for those indices or contracts, as determined by the Index Administrator; or
- a change in law, such that on or after the Index Commencement Date (a) due to the adoption or announcement of any change in any applicable law or regulation (including, without limitation, any tax law or limitations on the repatriation of invested capital in the jurisdiction of the underlying), or (b) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Index Administrator determines that (i) it would be illegal for the Index Administrator and/or any of its affiliates to hold, acquire, deal or dispose of the securities, options, futures or derivatives included in the Index or (ii) market participants would incur a materially increased cost in performing their obligations in respect of any Index Products (including, without limitation, due to any increase in tax liability, decrease in tax benefits or other adverse effect on their tax position); or
- the Index Administrator is unable to obtain the price in respect of any Index Component, or any other data used for the purposes of calculating the Index, within a reasonable amount of time;

and, in respect any of these events, the Index Administrator determines that the event could materially interfere with its ability or the ability of any of its affiliates to unwind all or a material portion of a hedge that could be affected with respect to the Index or any Index Product.

The following event will not be an Index Market Disruption Event:

- a limitation on the hours or number of days of trading, but only if the limitation results from a previously announced change in the business hours of the relevant market.

For the purposes of determining whether an Index Market Disruption Event has occurred, an “absence of trading” in the primary securities market on which an Index Component is traded or on which options or futures contracts relating to the Index or an Index Component are traded will not include any time when that market is itself closed for trading under ordinary circumstances. In contrast, a suspension or limitation of trading in any Index Component or in options or futures contracts relating to the Index or any Index Component in the primary market for that Index Component or those contracts, by reason of:

- a price change exceeding limits set by that market;
- a disruption in, or an impairment of, the ability of market participants in general to effect transactions in, or obtain market values for, that Index Component or those contracts;
- an imbalance of orders relating to that Index Component or those contracts; or
- a disparity in bid and ask quotes relating to that Index Component or those contracts,

will constitute a suspension or material limitation of trading in that Index Component or those contracts in that primary market.

2. Force Majeure Events

A “**Force Majeure Event**” is an event or circumstance (including without limitation, a systems failure, natural or man-made disaster, act of God, armed conflict, act of terrorism, riot or labour disruption or any similar intervening circumstance) that is beyond the reasonable control of the Index Administrator.

3. Consequences of an Index Market Disruption Event or Force Majeure Event

If an Index Market Disruption Event or a Force Majeure Event occurs or is continuing on one or more Scheduled Trading Days (each a “**Disrupted Day**”) that, as determined by the Index Administrator, affects the Index, any or all of the Index Components or the methodology in respect of the Index, the Index Administrator may:

- defer publication of information relating to the Index until the next Index Business Day on which such Index Market Disruption Event or Force Majeure Event, as applicable, is not continuing; and
- if such calendar day is a Rebalance Date, postpone such rebalancing to the next Index Business Day on which such Index Market Disruption Event or Force Majeure Event, as applicable, is not continuing,

and, in any such case, make such determinations and/or adjustments to the terms of the Index as it deems appropriate.

If such “Index Market Disruption Event” or a “Force Majeure Event” persists for each of the 5 Scheduled Trading Days immediately following the original Scheduled Trading Day that is a Disrupted Day, then the Index Administrator shall determine what actions or further actions it may reasonably take. Such reasonable actions may include the following:

- making such determinations and/or adjustments to the terms of the Index as it deems appropriate in order to determine the Index Level on such day (if such day is an Index Business Day);
- calculating a substitute level for the Index based on but not restricted to the last published price, level or value of any disrupted Index Component and such price, level or value may be zero;
- making other adjustments to the Index in order to maintain the objectives of the Index; and
- discontinuing supporting the Index or terminate the calculation of the Index Level or the publication of the Index Level.

As soon as reasonably practicable, following the occurrence of a Market Disruption Event or a Force Majeure Event, the Index Administrator will provide notice of such events and details of its actions on the Bloomberg Page and/or on the Reuters Page and/or on the UBS Website.

Section 6. Change in Methodology of the Index and Termination

1. Change in Methodology

While the Index Administrator currently employs the methodology described in this Index Manual to calculate the Index Level, the Index Administrator may determine (acting reasonably and in good faith) that it is necessary or appropriate to modify the Index methodology or any other provision of this Index Manual to:

- (i) take into account market, regulatory, juridical, financial, fiscal or other similar circumstances (including, but not limited to, any changes to or any suspension or termination of or any other events affecting any Index Components) that arise; or
- (ii) to prevent an obvious or demonstrable error; or
- (iii) to remedy, correct or supplement any incorrect or ambiguous provisions.

In such event the Index Administrator shall be entitled (acting in good faith) to modify or change the Index and any provision of this Index Manual subject to the provisions of the following paragraph and the Index Administrator obtaining the prior consent of the Index Owner. Any changes made to the Index or any

provisions of this Index Manual will be made in good faith and in a commercially reasonable manner and in a manner that maintains the objectives of the Index. Any such determination by the Index Administrator will be, in the absence of manifest error, final, conclusive and binding.

If the Index Administrator proposes to modify or change the Index methodology and the Index Committee determines that the proposed modification or change will have, or is reasonably likely to have, a material effect on the objectives of the Index, the underlying market or economic interests referenced by the Index, the Index Level or the method of calculating the Index Level (a “**Material Change**”), then the Index Administrator will make available details of the proposed Material Change at least 10 days in advance of the proposed Material Change taking effect (such period, the “**Index Modification Consultation Period**”). Such details will be published on the Bloomberg Page and/or the Reuters Page and/or on the UBS Website. During the Index Modification Consultation Period, Index Product Investors may provide comments to the Index Administrator in relation to the impact of the Material Change. Following the expiry of the Index Modification Consultation Period, the Index Administrator will make available a summary of any comments received from Index Product Investors in relation to the Material Change, and a summary of the Index Administrator’s responses to such comments, on the Bloomberg Page and/or the Reuters Page and/or on the UBS Website (unless the relevant Index Product Investor has requested confidentiality).

The Index Administrator will take into account (but shall not be obliged to follow) any comments received from Index Products Investors during the Index Modification Consultation Period in relation to the implementation of any proposed Material Change.

2. Termination

The Index Administrator may, in its sole and absolute discretion, terminate the calculation and publication of the Index Level. If the Index Administrator proposes to terminate the calculation and publication of the Index Level, then (i) the Index Administrator will give at least 10 Index Administrator Business Days’ notice of such termination by publication on the Bloomberg Page and/or on the Reuters Page and/or on the UBS Website and (ii) in such notice specify if there will be any transition process in relation to the termination of the calculation and publication of the Index Level and, if so, invite Index Product Investors to provide comments on the proposed transition process within such time period as may be specified by the Index Administrator (the “**Index Transition Consultation Period**”). During the Index Transition Consultation Period, Index Product Investors may provide comments to the Index Administrator in relation to the proposed transition process. Following the expiry of the Index Transition Consultation Period, the Index Administrator will make available a summary of any comments received from Index Product Investors in relation to the proposed transition process, and a summary of the Index Administrator’s responses to such comments, on the Bloomberg Page and/or the Reuters Page and/or on the UBS Website (unless the relevant Index Product Investor has requested confidentiality).

The Index Administrator will take into account (but shall not be obliged to follow) any comments received from Index Products Investors during the Index Transition Consultation Period.

The Index Administrator will make available any transition process in relation to the termination of the calculation and publication of the Index Level on the Bloomberg Page and/or the Reuters Page and/or on the UBS Website.

3. Errors and Adjustments

The Index Administrator reserves the right to make adjustments to correct errors contained in previously published information relating to the Index, including but not limited to the Index Level, and to publish the corrected information, but it is under no obligation to do so and shall have no liability in respect of any errors or omissions contained in any subsequent publication. The Index Administrator will determine in good faith whether to adjust or correct any previously published Index Level in order to maintain the objectives of the Index. The Index Administrator will provide notice of such adjustments on the Bloomberg Page and/or the Reuters Page and/or on the UBS Website. The Index Administrator will provide any information about any such adjustments it makes upon written request.

The Index Owner may, at any time, change the name of the Index. Notice of such a change will be provided on the Bloomberg Page and the Reuters Page and/or on the UBS Website.

If the Index Administrator determines (acting reasonably) that market, regulatory, juridical, financial, fiscal, operational or other similar circumstances have arisen that would necessitate a change to the place and time of publication of the Index Level and/or the frequency of publication of the Index Level, then the Index

Administrator may, upon giving at least 10 Index Administrator Business Days' notice, change the place and time of the publication of the Index Level and/or the frequency of publication of the Index Level.

4. Annual review

The Index Administrator will review the Index methodology on an annual basis to evaluate whether the Index methodology continues to achieve its objectives.

5. Construction of this Index Manual

This Index Manual is published by the Index Administrator. In the event of any inconsistency between the English language version of this Index Manual and that translated into any other language, the English language version shall prevail.

Section 7. Index Governance

1. Index Committee

The Index Administrator has established an index committee (the "**Index Committee**").

The Index Committee's role is to provide an oversight function to review and provide challenge on all aspects of the Index determination process and provide effective oversight of the Index Administrator in accordance with, and subject to, the applicable procedures set out in the UBS Control Framework Document. The Index Committee's oversight function includes consideration of the features and intended, expected or known usage of the Index and the materiality of identified existing or potential conflicts of interest. The Index Committee's oversight function and its composition are appropriate to provide effective scrutiny over the Index Administrator.

The Index Administrator considers information about changes to its indices and related matters to be potentially market moving and material. Therefore, all Index Committee discussions are confidential.

Further details in relation to the Index Committee, including the criteria and procedures for the selection of members of the Index Committee, the membership of the Index Committee and its compliance functions are set out in the UBS Control Framework Document.

2. Conflicts of Interest

The Index confers on the Index Administrator discretion in making certain determinations, calculations and corrections from time to time. The role played by UBS, as Index Administrator and the exercise of the kinds of discretion described above could present it with significant conflicts of interest in light of the fact that UBS, of which the Index Administrator is a division, may be the issuer or counterparty of Index Products. Neither the Index Administrator nor the Index Owner has any obligation to take the needs of any Index Product Investor into consideration at any time. UBS, its affiliates and its subsidiaries may each face conflicts between the roles it performs in respect of the Index and its own interests. In particular, in its other businesses, UBS may have, or enter into transactions to create, a physical, economic or other interest (including an adverse and/or short interest, as the case may be) in the Index, any Index Product, any Index Component, any investments referenced by or linked to any Index Component or any other related investments and may exercise remedies or take other action with respect to its interests as it deems appropriate.

The following actions could adversely affect the Index Level:

- UBS may actively trade Index Products, any Index Component, any investments referenced by or linked to any Index Component and any other related investments. These activities could adversely affect the Index Level, which could in turn affect the return on, and the value of, any Index Products.
- UBS may have access to information relating to the Index, any Index Product, any Index Component, any investments referenced by or linked to any Index Component or any other related investments. UBS is not obliged to use that information for the benefit of any person acquiring or entering into any Index Products.

- UBS, its affiliates and other parties may issue, underwrite, trade or enter into, as applicable, securities, financial or derivative instruments or other investments referenced to the Index or any Index Component. An increased level of investment and trading in these securities, financial or derivative instruments or investments may negatively affect the performance of the Index and could adversely affect the Index Level and, therefore, the amount payable at maturity on any Index Products and the value of any such products before that date.
- Although UBS is not obliged to do so, it may elect to hedge its exposure to the Index, any Index Product, any Index Component, any investments referenced by or linked to any Index Component or any other related investments with an affiliate or a third party. Such affiliate or third party, in turn, is likely to directly or indirectly hedge any or all of its exposure, including through transactions taking place on the futures and/or options markets. Where UBS or such affiliate or third party chooses to hedge its exposure, it may adjust or unwind such hedges by purchasing or selling Index Products, Index Components, products linked to any Index Component, any investments referenced by or linked to any Index Component or any other products on or before the date that the Index is valued for the purposes of any Index Product. UBS or such affiliate or third party may also enter into, adjust or unwind hedging transactions relating to other instruments linked to the Index or any Index Component. Any such hedging activity may adversely affect the Index Level, which could in turn affect the return on, and the value of, any Index Products.
- Certain activities conducted by UBS may conflict with the interests of those acquiring or entering into Index Products. For example, as described above, UBS may elect to hedge its obligations, if any, with an affiliate or a third party. It is possible that UBS could receive substantial returns with respect to these activities while the value of an Index Product may decline.
- UBS may also engage in trading for its proprietary accounts, for other accounts under its management or to facilitate transactions, including block transactions, on behalf of customers relating to one or more Index Products, products linked to any Index Component, any investments referenced by or linked to any Index Component and/or any other related investments. In the course of these transactions, UBS's customers may receive information about the Index before it is made available to other Index Product Investors. Any of these activities could also adversely affect the Index Level directly or indirectly by affecting the value of any Index Component, any investments referenced by or linked to any Index Component or any other related investments and, therefore, the amount paid at maturity on any Index Products and the value of any such products before that date.
- UBS, its affiliates and other parties may issue, underwrite, trade or enter into, as applicable, securities or financial or derivative instruments with returns linked or related to changes in the performance of the Index, any Index Product, any Index Component, any investments referenced by or linked to any Index Component or any other related investments, which might compete with the Index Products. By introducing competing products into the marketplace in this manner, UBS could adversely affect the amount paid at maturity, redemption or termination of on any Index Products and the value of any such products before that date. To the extent that UBS serves as issuer, underwriter, trader or counterparty of those securities or instruments, its interests with respect to those securities or instruments may be adverse to the interests of a holder of any Index Products.
- As administrator of the Index, under certain circumstances UBS will have discretion in making various determinations that affect the Index and Index Products. UBS may use these determinations to calculate the amount it must pay at maturity or, as the case may be, upon any early redemption or termination of any such Index Product. The exercise by UBS of this discretion could adversely affect the value of any such Index Product.

3. UBS Control Framework Document

The Index Administrator has implemented and maintains the “UBS Control Framework Document”, which is a control framework for the process of determining and distributing a number of indices in respect of which UBS acts as the Index Administrator, including the Index. A summary of the main features of the UBS Control Framework Document is available on the UBS Website. G. TAXATION

The following is a general description of certain tax considerations relating to the EU Savings Tax Directive and to the taxation of the Securities in the Federal Republic of Germany, the Republic of Austria and Switzerland. It does not purport to be a complete analysis of all tax considerations relating to the Securities, whether in those countries or elsewhere. **Prospective purchasers of Securities should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and disposing of Securities and receiving payments of interest, principal and/or other amounts under the Securities and the consequences of such actions under the tax laws of those countries.** This summary is based upon the law as in effect on the date of this Securities Note and is subject to any change in law that may take effect after such date.

The Issuer does not assume any responsibility for the withholding of taxes at the source.

1. EU Savings Directive

Under EC Council Directive 2003/48/EC on the taxation of savings income (the "**EU Savings Directive**"), each Member State is required to provide to the tax authorities of another Member State details of payments of interest or other similar income paid by a person within its jurisdiction to, or collected by such a person for, an individual resident or certain limited types of entity established in that other Member State; however, for a transitional period, Austria applies instead a withholding system in relation to such payments, deducting tax at a rate of 35% (unless during that transitional period it elects to provide information in accordance with the EU Savings Directive). The transitional period is to terminate at the end of the first full fiscal year following agreement by certain non-EU countries to the exchange of information relating to such payments.

A number of non-EU countries, and certain dependent or associated territories of certain Member States, have adopted similar measures (either provision of information or transitional withholding) in relation to payments made by a person within its jurisdiction to, or collected by such a person for, an individual resident or certain limited types of entity established in a Member State. In addition, the Member States have entered into provision of information or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a person in a Member State to, or collected by such a person for, an individual resident or certain limited types of entity established in one of those territories.

The Council of the European Union formally adopted a Council Directive amending the EU Savings Directive on 24 March 2014 (the "**Amending Directive**"). The Amending Directive broadens the scope of the requirements described above. Member States have until 1 January 2016 to adopt the national legislation necessary to comply with the Amending Directive. The changes made under the Amending Directive include extending the scope of the EU Savings Directive to payments made to, or collected for, certain other entities and legal arrangements. They also broaden the definition of "interest payment" to cover income that is equivalent to interest.

Investors who are in any doubt as to their position should consult their professional advisers.

2. The proposed financial transactions tax ("FTT")

On 14 February 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**participating Member States**").

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in the Securities (including secondary market transactions) in certain circumstances.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Securities where at least one party is a financial institution, and at least one party is established in a participating Member State.

A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

Joint statements issued by participating Member States indicate an intention to implement the FTT by 1 January 2016.

The FTT proposal remains subject to negotiation between the participating Member States. It may, therefore, be altered prior to any implementation. Additional EU Member States may decide to participate.

Prospective Securityholders are advised to seek their own professional advice in relation to the FTT.

3. Taxation in the Federal Republic of Germany

The information about the German taxation of the Securities issued under the Prospectus set out in the following section deals only with German withholding tax and is not exhaustive. It is based on current tax laws in force at the date of this Securities Note. Such tax laws may be subject to change at short notice and, within certain limits, also with retroactive effect.

The following is a general description of certain German withholding tax considerations relating to the Securities. It does not purport to be a complete analysis of all German tax considerations relating to the Securities. In particular, this discussion does not consider any specific facts or circumstances that may apply to a particular investor. This summary does not allow any conclusions to be drawn with respect to issues not specifically addressed.

Prospective purchasers of Securities are advised to consult their own tax advisors as to the tax consequences of the purchase, ownership and disposition of the Securities on the basis of this Prospectus, including the effect of any state or local taxes, under the tax laws of Germany and each country of which they are residents.

German withholding tax

In principle, only persons (individuals and incorporated entities) who are tax resident in Germany (in particular, persons having a residence, habitual abode, seat or place of management in Germany) are subject to German withholding tax with respect to payments under debt instruments. Non-resident persons generally do not suffer German withholding tax. If, however, the income from the Securities is subject to German tax, i.e. if (i) the Securities are held as business assets (*Betriebsvermögen*) of a German permanent establishment (including a permanent representative) which is maintained by the relevant investor or (ii) the income from the Securities qualifies for other reasons as taxable German source income, German withholding tax is applied, as a rule, as in the case of a German tax resident investor.

German withholding tax will be levied at a flat withholding tax rate of 26.375% (including solidarity surcharge (*Solidaritätszuschlag*)) on proceeds from the sale of the Securities if the Securities are held in a custodial account which the relevant investor maintains with a German branch of a German or non-German credit or financial services institution or with a German securities trading business or a German securities trading bank (a "German Disbursing Agent"). If the Securities are redeemed, repaid, assigned or contributed into a corporation by way of a hidden contribution (*verdeckte Einlage*), such transaction is treated like a sale. If the Issuer exercises the right to substitute the debtor of the Securities, the substitution might, for German tax purposes, be treated as an exchange of the Securities for new notes issued by the new debtor. Such a substitution could result in the recognition of a taxable gain or loss for the respective investors.

If an investor sells or redeems the Securities, the tax base is, in principle, the difference between the acquisition costs and the proceeds from the sale or redemption of the Securities reduced by expenses directly and factually related to the sale or redemption. Where the Securities are acquired and/or sold in a currency other than Euro, the sales/redemption price and the acquisition costs have to be converted into Euro on the basis of the foreign exchange rates prevailing on the sale or redemption date and the acquisition date respectively. If the Securities have not been held in the custodial account maintained with the Disbursing Agent since their acquisition and the acquisition costs of the Securities are not proven to the German Disbursing Agent in the form required by law (e.g. if the Securities had been transferred from a non-EU custodial account prior to the sale), withholding tax is applied to 30% of the proceeds from the sale or redemption of the Securities.

When computing the tax base for withholding tax purposes, the German Disbursing Agent has to deduct any negative savings income (*negative Kapitalerträge*) or paid accrued interest (*Stückzinsen*) in the same calendar year or unused negative savings income of previous calendar years.

Individuals who are subject to church tax may apply in writing for this tax to be withheld as a surcharge to the withholding tax. Individuals subject to church tax but declining the application have to include their savings income in their tax return and will then be assessed to church tax. For German credit institutions an electronic information system as regards church withholding tax will apply in respect of savings income received after 31 December 2014, with the effect that church tax will be collected by the German Disbursing Agent by way of withholding unless the investor has filed a blocking notice (*Sperrvermerk*) with the German Federal Central Tax Office (*Bundeszentralamt für Steuern*), in which case the obligation to include savings income in the tax return for church tax purposes will persist.

With regard to individuals holding the Securities as private assets, any withholding tax levied shall, in principle, become definitive and replace the income taxation of the relevant investor. If no withholding tax has been levied other than by virtue of a withholding tax exemption certificate (*Freistellungsauftrag*) and in certain other cases, the relevant investor is nevertheless obliged to file a tax return, and the savings income will then be taxed within the tax assessment procedure. However, the separate tax rate for savings income applies in most cases also within the assessment procedure. In certain cases, the investor may apply to be assessed on the basis of its personal tax rate if such rate is lower than the above tax rate. Such application can only be filed consistently for all savings income within the assessment period. In case of jointly assessed husband and wife the application can only be filed for savings income of both spouses.

With regard to other investors, German withholding tax is a prepayment of (corporate) income tax and will be credited or refunded within the tax assessment procedure.

No German withholding tax will be levied if an individual holding the Securities as private assets has filed a withholding tax exemption certificate (*Freistellungsauftrag*) with the German Disbursing Agent, but only to the extent the savings income does not exceed the exemption amount shown on the withholding tax exemption certificate. Currently, the maximum exemption amount is EUR 801 (EUR 1,602 in the case of jointly assessed husband and wife). Similarly, no withholding tax will be levied if the relevant investor has submitted a certificate of non-assessment (*Nichtveranlagungs-Bescheinigung*) issued by the relevant local tax office to the German Disbursing Agent. Further, with regard to investors holding the Securities as business assets, no withholding tax will be levied on capital gains from the redemption, sale or assignment of the Securities if (a) the Securities are held by a corporation or (b) the proceeds from the Securities qualify as income of a domestic business and the investor notifies this to the German Disbursing Agent by use of the officially required form.

The Issuer is not obliged to levy German withholding tax in respect of payments on the Securities.

4. Taxation in the Republic of Austria

This section on taxation contains a brief summary of the Issuer's understanding with regard to certain important principles which are of significance in connection with the purchase, holding or sale of the Securities in the Republic of Austria. This summary does not purport to exhaustively describe all possible tax aspects and does not deal with specific situations which may be of relevance for certain potential investors. The following comments are rather of a general nature and included herein solely for information purposes. They are not intended to be, nor should they be construed to be, legal or tax advice. This summary is based on the currently applicable tax legislation, case law and regulations of the tax authorities, as well as their respective interpretation, all of which may be amended from time to time. Such amendments may possibly also be effected with retroactive effect and may negatively impact on the tax consequences described. It is recommended that potential investors in the Securities consult with their legal and tax advisors as to the tax consequences of the purchase, holding or sale of the Securities. Tax risks resulting from the Securities Notes (in particular from a potential qualification as a foreign investment fund within the meaning of sec. 188 of the Austrian Investment Funds Act 2011 (*Investmentfondsgesetz 2011*)) shall in any case be borne by the investor. For the purposes of the following it is assumed that the Securities are legally and factually offered to an indefinite number of persons.

General remarks

Individuals having a domicile (*Wohnsitz*) and/or their habitual abode (*gewöhnlicher Aufenthalt*) in Austria are subject to income tax (*Einkommensteuer*) in Austria on their worldwide income (unlimited income tax liability; *unbeschränkte Einkommensteuerpflicht*). Individuals having neither a domicile nor their habitual abode in Austria are subject to income tax only on income from certain Austrian sources (limited income tax liability; *beschränkte Einkommensteuerpflicht*).

Corporations having their place of management (*Ort der Geschäftsleitung*) and/or their legal seat (*Sitz*) in Austria are subject to corporate income tax (*Körperschaftsteuer*) in Austria on their worldwide income (unlimited corporate income tax liability; *unbeschränkte Körperschaftsteuerpflicht*). Corporations having neither their place of management nor their legal seat in Austria are subject to corporate income tax only on income from certain Austrian sources (limited corporate income tax liability; *beschränkte Körperschaftsteuerpflicht*).

Both in case of unlimited and limited (corporate) income tax liability Austria's right to tax may be restricted by double taxation treaties.

Income taxation of the Securities

Pursuant to sec. 27(1) of the Austrian Income Tax Act (*Einkommensteuergesetz*), the term investment income (*Einkünfte aus Kapitalvermögen*) comprises:

- income from the letting of capital (*Einkünfte aus der Überlassung von Kapital*) pursuant to sec. 27(2) of the Austrian Income Tax Act, including dividends and interest;
- income from realised increases in value (*Einkünfte aus realisierten Wertsteigerungen*) pursuant to sec. 27(3) of the Austrian Income Tax Act, including gains from the alienation, redemption and other realisation of assets that lead to income from the letting of capital, zero coupon bonds and broken-period interest; and
- income from derivatives (*Einkünfte aus Derivaten*) pursuant to sec. 27(4) of the Austrian Income Tax Act, including cash settlements, option premiums received and income from the sale or other realisation of forward contracts like options, futures and swaps and other derivatives such as index certificates.

Also the withdrawal of the Securities from a bank deposit (*Depotentnahme*) and circumstances leading to a loss of Austria's taxation right regarding the Securities *vis-à-vis* other countries, *e.g.* a relocation from Austria (*Wegzug*), are in general deemed to constitute a sale (*cf.* sec. 27(6)(1) of the Austrian Income Tax Act).

Individuals subject to unlimited income tax liability in Austria holding the Securities as non-business assets are subject to income tax on all resulting investment income pursuant to sec. 27(1) of the Austrian Income Tax Act. In case of investment income with an Austrian nexus (*inländische Einkünfte aus Kapitalvermögen*), basically meaning income paid by an Austrian paying agent (*auszahlende Stelle*) or an Austrian custodian agent (*depotführende Stelle*), the income is subject to withholding tax (*Kapitalertragsteuer*) of 25%; no additional income tax is levied over and above the amount of tax withheld (final taxation pursuant to sec. 97(1) of the Austrian Income Tax Act). In case of investment income without an Austrian nexus, the income must be included in the investor's income tax return and is subject to tax at a flat rate of 25%. In both cases upon application the option exists to tax all income subject to tax at the flat rate of 25% at the lower progressive income tax rate (option to regular taxation pursuant to sec. 27a(5) of the Austrian Income Tax Act). Sec. 27(8) of the Austrian Income Tax Act, *inter alia*, provides for the following restrictions on the offsetting of losses: negative income from realised increases in value and from derivatives may be neither offset against interest and other claims *vis-à-vis* credit institutions nor against income from private law foundations and comparable legal estates (*privatrechtliche Stiftungen und damit vergleichbare Vermögensmassen*); income subject to tax at a flat rate of 25% may not be offset against income subject to the progressive income tax rate (this equally applies in case of an exercise of the option to regular taxation); negative investment income not already offset against positive investment income may not be offset against other types of income.

Individuals subject to unlimited income tax liability in Austria holding the Securities as business assets are subject to income tax on all resulting investment income pursuant to sec. 27(1) of the Austrian Income Tax Act. In case of investment income with an Austrian nexus the income is subject to withholding tax of 25%. While withholding tax has the effect of final taxation for income from the letting of capital, income from realised increases in value and income from derivatives must be included in the investor's income tax return (nevertheless tax at a flat rate of 25%). In case of investment income without an Austrian nexus, the income must always be included in the investor's income tax return (generally tax at a flat rate of 25%). In both cases upon application the option exists to tax all income subject to tax at the flat rate of 25% at the lower progressive income tax rate (option to regular taxation pursuant to sec. 27a(5) of the Austrian Income Tax Act). Pursuant to sec. 6(2)(c) of the Austrian Income Tax Act, depreciations to the lower fair market value and losses from the alienation, redemption and other realisation of financial assets and derivatives in the sense of sec. 27(3) and (4) of the Austrian Income Tax Act, which are subject to tax at the flat rate of 25%, are primarily to be offset against income from realised increases in value of such financial assets and derivatives and with

appreciations in value of such assets; only half of the remaining negative difference may be offset against other types of income (and carried forward).

Corporations subject to unlimited corporate income tax liability in Austria are subject to corporate income tax on interest from the Securities at a rate of 25%. In case of investment income with an Austrian nexus the income is subject to withholding tax of 25%, which can be credited against the corporate income tax liability. However, under the conditions set forth in sec. 94(5) of the Austrian Income Tax Act withholding tax is not levied in the first place. Income from the alienation of the Securities is subject to corporate income tax of 25%. Losses from the alienation of the Securities can be offset against other income (and carried forward).

Private foundations (*Privatstiftungen*) pursuant to the Austrian Private Foundations Act (*Privatstiftungsgesetz*) fulfilling the prerequisites contained in sec. 13(3) and (6) of the Austrian Corporate Income Tax Act (*Körperschaftsteuergesetz*) and holding the Securities as non-business assets are subject to interim taxation at a rate of 25% on interest income, income from realised increases in value and income from derivatives (*inter alia*, if the latter are in the form of securities). Interim tax does not fall due insofar as distributions subject to withholding tax are made to beneficiaries in the same tax period. In case of investment income with an Austrian nexus income is in general subject to withholding tax of 25%, which can be credited against the tax falling due. Under the conditions set forth in sec. 94(12) of the Austrian Income Tax Act withholding tax is not levied.

Individuals and corporations subject to limited (corporate) income tax liability in Austria are taxable on investment income from the Securities if they have a permanent establishment (*Betriebsstätte*) in Austria and the Securities are attributable to such permanent establishment (*cf.* sec. 98(1)(3) of the Austrian Income Tax Act, sec. 21(1)(1) of the Austrian Corporate Income Tax Act). Individuals subject to limited income tax liability in Austria are also taxable on interest in the sense of the Austrian EU Withholding Tax Act (*EU-Quellensteuergesetz*, see below) from the Securities if withholding tax is levied on such interest (this does not apply, *inter alia*, if the Issuer has neither its place of management nor its legal seat in Austria and is not acting through an Austrian branch, which condition is understood to be fulfilled in the case at hand; *cf.* sec. 98(1)(5)(b) of the Austrian Income Tax Act, sec. 21(1)(1) of the Austrian Corporate Income Tax Act).

Pursuant to sec. 93(6) of the Austrian Income Tax Act, the Austrian custodian agent is obliged to automatically offset negative investment income against positive investment income, taking into account all of a taxpayer's bank deposits with the custodian agent. If negative and at the same time or later positive income is earned, then the negative income is to be offset against the positive income. If positive and later negative income is earned, then withholding tax on the positive income is to be credited, with such tax credit being limited to 25% of the negative income. In certain cases the offsetting is not permissible. The custodian agent has to issue a written confirmation on each offsetting of losses.

Pursuant to sec. 188 of the Austrian Investment Funds Act 2011 as amended in the course of the implementation of Directive 2011/61/EU and as applicable to business years of investment funds starting after 21 July 2013, the term "foreign investment fund" comprises (i) undertakings for collective investment in transferable securities the state of origin of which is not Austria; (ii) alternative investment funds pursuant to the Austrian Act on Alternative Investment Fund Managers (*Alternative Investmentfonds Manager-Gesetz*) the state of origin of which is not Austria; and (iii) secondarily, undertakings subject to a foreign jurisdiction, irrespective of the legal form they are organized in, the assets of which are invested according to the principle of risk-spreading on the basis either of a statute, of the undertaking's articles or of customary exercise, if one of the following conditions is fulfilled: (a) the undertaking is factually, directly or indirectly, not subject to a corporate income tax in its state of residence that is comparable to Austrian corporate income tax; (b) the profits of the undertaking are in its state of residence subject to corporate income tax that is comparable to Austrian corporate income tax, at a rate of less than 15%; or (c) the undertaking is subject to a comprehensive personal or material tax exemption in its state of residence. Certain collective investment vehicles investing in real estate are exempted. To date no guidance has been issued by the tax authorities on the interpretation of this new provision. In case of a qualification as a foreign investment fund the tax consequences would substantially differ from those described above.

EU withholding tax

Sec. 1 of the Austrian EU Withholding Tax Act – implementing Council Directive 2003/48/EC of 3 June 2003 on taxation of savings income in the form of interest payments – provides that interest payments paid or credited by an Austrian paying agent (*Zahlstelle*) to a beneficial owner who is an individual resident in another EU Member State (or in certain dependent or associated territories, which currently include Anguilla, Aruba, the

British Virgin Islands, Curaçao, Guernsey, the Isle of Man, Jersey, Montserrat, Sint Maarten and the Turks and Caicos Islands) are subject to EU withholding tax (*EU-Quellensteuer*) of 35%. Sec. 10 of the Austrian EU Withholding Tax Act provides for an exemption from EU withholding tax if the beneficial owner presents to the paying agent a certificate drawn up in his/her name by the competent authority of his/her EU Member State of residence for tax purposes, indicating the name, address and tax or other identification number or, failing such, the date and place of birth of the beneficial owner, the name and address of the paying agent, and the account number of the beneficial owner or, where there is none, the identification of the security; such certificate shall be valid for a period not exceeding three years. It is expected that changes to the EU Withholding Tax Act – implementing Council Directive 2014/48/EU of 24 March 2014 amending Directive 2003/48/EC on taxation of savings income in the form of interest payments – will enter into effect by 1 January 2017. However, in connection with a planned amendment of Council Directive 2011/16/EU of 15 February 2011 on administrative cooperation in the field of taxation and repealing Directive 77/799/EEC, interest, dividends and other income as well as account balances and sales proceeds from financial assets shall be brought within the scope of the automatic exchange of information provisions of Council Directive 2011/16/EU, which will most likely at some point in time lead to a repeal of Council Directive 2003/48/EC.

Regarding the issue of whether also index certificates are subject to EU withholding tax, the Austrian tax authorities distinguish between index certificates with and without a capital guarantee, a capital guarantee being the promise of repayment of a minimum amount of the capital invested or the promise of the payment of interest. In case of certificates without a capital guarantee the qualification of income depends on the type of the underlying (*e.g.* in the case of equity indices as underlying assets such income is not considered as interest).

Tax treaties Austria/Switzerland and Austria/Liechtenstein

The Treaty between the Republic of Austria and the Swiss Confederation on Cooperation in the Areas of Taxation and Capital Markets and the Treaty between the Republic of Austria and the Principality of Liechtenstein on Cooperation in the Area of Taxation provide that a Swiss, respectively Liechtenstein, paying agent has to withhold a tax amounting to 25% on, *inter alia*, interest income, dividends and capital gains from assets booked with an account or deposit of such Swiss, respectively Liechtenstein, paying agent, if the relevant holder of such assets (*i.e.* in general individuals on their own behalf and as beneficial owners of assets held by a domiciliary company (*Sitzgesellschaft*)) is tax resident in Austria. The same applies to such income from assets managed by a Liechtenstein paying agent if the relevant holder of the assets (*i.e.* in general individuals as beneficial owners of a transparent structure) is tax resident in Austria. For Austrian income tax purposes this withholding tax has the effect of final taxation regarding the underlying income if the Austrian Income Tax Act provides for the effect of final taxation for such income. The treaties, however, do not apply to interest covered by the agreements between the European Community and the Swiss Confederation, respectively the Principality of Liechtenstein, regarding Council Directive 2003/48/EC on taxation of savings income in the form of interest payments. The taxpayer can opt for voluntary disclosure instead of the withholding tax by expressly authorising the Swiss, respectively Liechtenstein, paying agent to disclose to the competent Austrian authority the income, which subsequently has to be included in the income tax return.

Austrian inheritance and gift tax

Austria does not levy inheritance or gift tax.

Certain gratuitous transfers of assets to private law foundations and comparable legal estates are subject to foundation transfer tax (*Stiftungseingangssteuer*) pursuant to the Austrian Foundation Transfer Tax Act (*Stiftungseingangssteuergesetz*). Such tax is triggered if the transferor and/or the transferee at the time of transfer have a domicile, their habitual abode, their legal seat or their place of management in Austria. Certain exemptions apply in cases of transfers *mortis causa* of financial assets within the meaning of sec. 27(3) and (4) of the Austrian Income Tax Act (except for participations in corporations) if income from such financial assets is subject to income tax at the flat rate of 25%. The tax basis is the fair market value of the assets transferred minus any debts, calculated at the time of transfer. The tax rate is in general 2.5%, with a higher rate of 25% applying in special cases. Special provisions apply to transfers of assets to entities falling within the scope of the tax treaty between Austria and Liechtenstein.

In addition, there is a special notification obligation for gifts of money, receivables, shares in corporations, participations in partnerships, businesses, movable tangible assets and intangibles if the donor and/or the donee have a domicile, their habitual abode, their legal seat or their place of management in Austria. Not all gifts are covered by it: In case of gifts to certain related parties, a threshold of EUR 50,000 per year applies; in

all other cases, a notification is obligatory if the value of gifts made exceeds an amount of EUR 15,000 during a period of five years. Furthermore, gratuitous transfers to foundations falling under the Austrian Foundation Transfer Tax Act described above are also exempt from the notification obligation. Intentional violation of the notification obligation may trigger fines of up to 10% of the fair market value of the assets transferred.

Further, gratuitous transfers of the Securities may trigger income tax at the level of the transferor pursuant to sec. 27(6)(1) of the Austrian Income Tax Act (see above).

5. Taxation in Switzerland

The following is a generic summary only of the Issuer's understanding of current law and practice in Switzerland relating to the taxation of the Securities issued under the Prospectus. Because this summary does not address all tax considerations under Swiss law and as the specific tax situation of an investor cannot be considered in this context, potential investors are recommended to consult their personal tax advisors as to the tax consequences of the purchase, ownership, sale or redemption of and the income derived from the Securities issued under the Prospectus including, in particular, the effect of tax laws of any other jurisdiction.

The Swiss Federal Tax Administration has issued on 7 February 2007 a Circular Letter No. 15 regarding Certificates and Derivative Financial Instruments subject to Direct Federal Tax, Withholding Tax and Stamp Tax. The Securities issued under the Prospectus will be taxed in accordance with this Circular Letter No. 15 and its appendices. Depending on the qualification of the relevant Security by the competent Swiss tax authorities the taxation of each Security may be different.

The taxation depends on the set-up of each single Security for which reason the following remarks are again only of generic nature.

Income Tax

For private investors resident in Switzerland holding the Securities (understood as the right but not the obligation of the holder which it acquired against consideration to buy or sell a specific amount of a certain underlying at or until a fixed date at an agreed price) as private assets any capital gains realized in relation to such Securities are in principle not subject to individual income tax in Switzerland. However, Low Exercise Price Options in the sense of the practice of the Swiss Federal Tax Administration (defined as an option with a tenor of more than 12 months and a strike price of less than half of the market value of the underlying at issuance) are an exception to the before-mentioned principle in that an interest component is taxable at redemption or at exercise.

For individual investors resident in Switzerland holding the Securities as business assets as well as for Swiss corporate investors, capital gains realized upon a sale, re-evaluation or redemption of such Securities are in principle subject to either Swiss individual income tax with respect to an individual investor resident in Switzerland holding the Securities as business assets or subject to Swiss corporate income tax with respect to a corporate investor resident in Switzerland.

If the Securities are combined with other financial instruments ("**Structured Products**"; e.g. combination of a Security with a bond for a capital protected Security) the taxation is different and depends on the set-up of each single Structured Product for which reason the following remarks are again only of generic nature.

For private investors resident in Switzerland holding the Structured Products as private assets capital gains realized are in principle Swiss individual income tax exempt whereas investment income (such as, in particular but not limited to, interest, dividends etc.) deriving from the Structured Products is subject to Swiss personal income tax. For individual or corporate investors resident in Switzerland holding the Structured Products as business assets, capital gains realized upon a sale, exchange, redemption or re-evaluation of the Structured Products or income derived from Structured Products, irrespective of whether such income stems from investment income or capital gains, are in principle subject to either Swiss individual income tax with respect to an individual investor resident in Switzerland holding the Structured Products as business assets or subject to Swiss corporate income tax with respect to a corporate investor resident in Switzerland.

Withholding Tax

In principle profits derived from transactions in Securities are not subject to Swiss Withholding Tax.

If the Securities are combined with other financial instruments ("**Structured Products**"; e.g. combination of a Security with a bond for a capital protected Security) the taxation is different and depends on the set-up of each single Structured Product for which reason the following remarks are again only of generic nature.

The Swiss Withholding Tax is in principle levied on income (such as, but not limited to, interest, pensions, profit distributions etc.) from, amongst others, bonds and other similar negotiable debt instruments issued by a Swiss tax resident ("*Inländer*"), distributions from Swiss tax resident corporations, interest on deposits with Swiss banks as well as distributions of or in connection with Swiss tax resident collective investment schemes. For Swiss Withholding Tax purposes, an individual or corporation qualifies as a Swiss tax resident ("*Inländer*") being subject to withholding taxation if it (i) is resident in Switzerland, (ii) has its permanent abode in Switzerland, (iii) is a company incorporated under Swiss law having its statutory seat in Switzerland, (iv) is a company incorporated under foreign law but with a registered office in Switzerland, or (v) is a company incorporated under foreign law but is managed and conducts business activities in Switzerland. Hence, as long as the Structured Products are not issued by an issuer qualifying as a Swiss tax resident for the purposes of the Swiss Withholding Tax, income derived from the *Structured Products* is in principle not subject to Swiss Withholding Tax.

The Swiss Federal Council proposed draft legislation as part of the Swiss TBTF (Too Big To Fail) legislation. For bonds, this draft legislation foresees a shift from the current source withholding tax system to a paying agent tax system with regard to interest payments. According to the current practice of the Swiss Federal Tax Administration certain Structured Products qualify as bonds. Therefore, if this legislation is enacted, Swiss paying agents such as banks in Switzerland would be required to deduct Swiss withholding tax at a rate of 35 per cent on certain payments to certain investors irrespective of the fact whether the Structured Products are issued by UBS AG Switzerland or a foreign branch of UBS AG. According to the draft legislation Swiss paying agents would be required to deduct a Swiss paying agent tax on interest paid on bonds to Swiss-resident individuals as final recipients. For the time being not all relevant details of the proposed regime are published.

Neither the Issuer nor any other person would pursuant to the Conditions of the Securities or Structured Products be obliged to pay additional amounts with respect to any Security or Structured Product as a result of the deduction or imposition of such Swiss Withholding Tax.

Transfer and Issue Stamp Tax

Swiss Stamp Tax is, amongst other, either levied as securities transfer tax or as issuance tax.

In principle Securities do not qualify as taxable securities for Swiss Stamp Tax purposes. They are in principle neither subject to Swiss Transfer Stamp Tax nor to Issuance Stamp Tax.

If, however, the Securities are combined with other financial instruments ("**Structured Products**"; e.g. combination of a Security with a bond for a capital protected Security) the taxation is different and depends on the set-up of each single Structured Product for which reason the following remarks are again only of generic nature. Further, Low Exercise Price Options in the sense of the practice of the Swiss Federal Tax Administration (defined as an option with a tenor of more than 12 months and a strike price of less than half of the market value of the underlying at issuance) do qualify as taxable securities and are subject to Swiss Transfer Stamp Tax.

Swiss Transfer Stamp Tax is levied on the transfer of ownership against consideration of certain taxable securities if a Swiss securities dealer in the sense of the Swiss Stamp Tax Act is involved in the transaction and no exemption applies. This tax levy applies in particular to Structured Products which include a bond component or which qualify as instruments similar to a collective investment scheme or as shares and share-like instruments as per the practice of the Swiss Federal Tax Administration. If shares or other taxable securities are delivered to the investor at redemption or due to an exercise right, the delivery of the security may be subject to Swiss Transfer Stamp Tax.

Swiss Issuance Stamp Tax is levied on the issuance of Swiss shares and similar participation rights. For Swiss Stamp Tax purposes, an individual or corporation qualifies as a Swiss tax resident ("*Inländer*") being subject to Swiss Stamp Tax if it (i) is resident in Switzerland, (ii) has its permanent abode in Switzerland, (iii) is incorporated under Swiss law and having its statutory or legal seat in Switzerland or (v) if it is registered as an enterprise with the Swiss register of commerce. Hence, as long as the Securities are not issued by an issuer qualifying as a Swiss tax resident they are not subject to Swiss Issuance Stamp Tax.

Measures equivalent to the EU Savings Directive

Switzerland has introduced a tax retention (withholding tax) of 35% pursuant to the agreement between the European Community and the Swiss Confederation providing for measures equivalent to those laid down in the Council Directive 2003/48/EC on taxation of savings income in the form of interest payments effective as of 1 July 2005 on interest payments or similar income paid by a Swiss paying agent to an individual resident in an EU Member State, unless the interest payments are made as debt-claims issued by debtors who are residents of Switzerland or pertaining to permanent establishments in Switzerland of non-residents.

The beneficial owner may avoid the retention by expressly authorizing the paying agent in Switzerland to report the interest payments. If the paying agent receives such an authorisation, he reports the interest payment to the Swiss Federal Tax Administration which in turn communicates the information to the competent authority of the EU Member State of residence of the beneficial owner.

Bilateral agreements (Quellensteuerabkommen)

Switzerland has signed agreements on a final withholding tax (Quellensteuerabkommen) with the United Kingdom and with Austria. Furthermore, it is possible that Switzerland will sign similar agreements with other countries in the near future. According to these agreements, qualifying Swiss paying agents levy a final withholding tax on any investment income if the Securities or the Structured Products are held in custody account with a qualifying Swiss paying agent and if the custody account is directly or indirectly owned by an individual resident in the other contracting state (e.g. Austria). The applicable final withholding tax rate may vary depending on the applicable tax rate in the other contracting state and the type of realised investment income (dividend, interest, capital gain, etc.). Furthermore, the calculation of the income subject to a final withholding tax may vary depending on the applicable agreement. A person subject to a final withholding tax ("**Relevant Person**") may avoid such final withholding tax by expressly allowing the qualifying Swiss paying agent to report to the foreign tax authorities in the state of residence of the Relevant Person, amongst others, the identity of the Relevant Person and the amount the realised investment income in a certain period.
