Reference-Portfolio Guidelines

Tareno US Leaders Growth Basket – (USD)

The Tareno US Leaders Growth Basket (the "Reference-Portfolio") is a notional USD ("USD") denominated actively managed Reference-Portfolio, created and maintained by Tareno AG, (the "Reference-Portfolio Advisor"). The Reference-Portfolio aims to replicate (i) the performance of a basket of stocks traded in North America (the "Constituents"), and (ii) from time to time, a cash position (the "Cash Position", which together with the Constituents shall be referred to as the "Reference-Portfolio Components"), less fees and expenses.

The Reference-Portfolio Components are selected by the Reference-Portfolio Advisor in accordance with the following guidelines (the "**Reference-Portfolio Guidelines**"):

1. Only shares of companies (the "**Investment Universe is attached in the appendix**") with sufficient liquidity may be incorporated as Reference-Portfolio Constituents in the Reference-Portfolio ("**Eligible Shares**").
2. The Reference-Portfolio may only reflect long positions in Eligible Shares.

In case of a Rebalancing the theoretical volume of a buy or sell order for a Constituent is limited to 200% of the average traded daily volume of that Constituent. A Rebalancing may happen at the discretion of the Reference-Portfolio Advisor. The Calculation Agent has the right to reject constituents that form part of a Rebalancing. The theoretical volume is defined as the number of outstanding Certificates multiplied by the Reference-Portfolio Level (using the appropriate foreign exchange rate to convert into the currency of the Constituent) and multiplied by the change in the percentage weight of the Constituent. The average traded daily volume is defined as the 30 Day average trading turnover. The expected number of Rebalancings per year is 52.

At any time, the Reference-Portfolio may reflect a cash position which mirrors the holding of cash, money market instruments or cash obligations (the "Cash Position"). No interest will be paid on the Cash Position.

A Quarterly fee of 0.225% (0.9% per year) of the Reference-Portfolio Level accrued on a daily basis, plus (i) certain expenses commonly to be associated with establishing, maintaining and rebalancing a portfolio similar to the notional portfolio mirrored by the Reference-Portfolio and (ii) the Adjustment Fee, charged by the Calculation Agent and deducted from the Reference-Portfolio Level. The dates of the fee deduction are 31 March, 30 June, 30 September and 31 December (in case any of the dates is not a Business Day, the next following Business Day will apply). A part of the Reference-Portfolio Fee will be used to compensate the Reference Portfolio Advisor.

An Adjustment Fee is levied for each adjustment made in the Reference-Portfolio, and represents a percentage of the notional volume of each of the purchase and/or sale of an Eligible Stock. The Adjustment Fee was set by the Reference-Portfolio Advisor in accordance with the Reference-Portfolio Calculation Agent at 0.25% as at the Launch Date. The Adjustment Fee can be adjusted by the Reference-Portfolio Calculation Agent, but may not amount to more than 0.50%. The Reference-Portfolio Fee is accrued on a daily basis and paid on a quarterly basis, on 31 March, 30 June, 30 September and 31 December should any of these dates fall on a day which is not a Business Day, the Fee is paid on the next Business Day).

The Reference-Portfolio is denominated in USD, while the Constituents, notionally comprised in the Reference-Portfolio, might be denominated in other currencies than USD. In order to appropriately reflect the performance of the Constituents in the determination of the value of the Reference-Portfolio, the value of the Constituents denominated in other currencies than USD is expressed in USD. The exchange rate equals the currently prevailing exchange rate. The exchange-rate risk is not mitigated.

The below Universe can be amended in agreement between the Calculation Agent and the Reference-Portfolio Advisor. The Calculation Agent has the right to reject Constituents that form part of a Rebalancing.
