1. Description of the Product

Reference Portfolio

The Innovation Leaders Portfolio (the "**Reference Portfolio**") is a notional US-Dollar ("USD" or the "**Reference Portfolio Currency**") denominated reference portfolio, created, actively managed and maintained by the Reference Portfolio Advisor in accordance with the provision in the description of the Reference Portfolio (the "**Reference Portfolio Description**") in Annex 1.

The Reference Portfolio aims to replicate the performance of:

- (i) long only positions in stocks (each a "**Stock Constituent**") comprised in the Stock Investment Universe,

- (ii) long or short positions in various FX forward contracts (each a "**FX Constituent**") comprised in the FX Investment Universe,
- (iii) long positions in exchange-traded funds (ETFs) (each an "**ETF Constituent**") comprised in the ETF Investment Universe,
- (iv) long and/or short positions in various exchange-traded call and put equity vanilla options (each an "**Equity Option Constituent**") comprised in the Equity Option Investment Universe,
- (v) short only positions in equity gross total return indices (each an "**Equity Index Constituent**") comprised in the Equity Indices Investment Universe,
- all of the above together referred to as the "Constituents", combined with,
- (vi) a cash position denominated in the Reference Portfolio Currency (the "**Cash Position**"),

which together with the Constituents shall be referred to as the "**Reference Portfolio Components**". The performance of the Reference Portfolio will be net of the relevant fees and costs described herein.

The Cash Position will accrue interest at the prevailing reference rate (the "**Reference Rate**"), as described in Annex 1, which may be negative from time to time.

The notional value of the Reference Portfolio (the "**Initial Reference Portfolio Level**") will be USD 100.00 on the Pricing Date.

Whilst the Redemption Amount is linked to the market value of the Reference Portfolio Components, the Issuer is not obliged to invest the proceeds of the issuance of the Portfolio Certificates in any Reference Portfolio Component at any time and the holders of the Portfolio Certificates do not have any direct interest in, or beneficial ownership in any Reference Portfolio Component at any time.

Dates

Launch Date	25 January 2018
Pricing Date (" Pricing ")	25 January 2018 and 26 January 2018
Issue Date / Payment Date	02 February 2018
Last Trading Day	24 January 2025
Expiration Date (" Expiry ")	24 January 2025 (subject to Market Disruption Events provisions, Early Termination, Automatic Early Termination and Unwind Disruption provisions), extendable once at the option of the Issuer for an additional 7 years period, with a notice period of 180 calendar days prior to the scheduled Expiration Date.
	With respect to the initial scheduled Expiration Date, and in case of an extension of the term, the Investor may with a notice period of 90 days prior to the initial scheduled Expiration Date request in writing from the Issuer that part or all of investment in the Portfolio Certificates shall be redeemed on the Redemption Date following the scheduled Expiration Date.
	Provided, in each case that if the initial scheduled or extended Expiration Date is not a Constituents Business Day, then such Expiration Date shall be the first following day that is a Constituents Business Day.
Redemption Date	The fifth Business Day immediately following the Expiration Date, the Early Termination Date or the Automatic Early Termination Date (in any case subject to Market Disruption Event provisions).
Closing Date (for Swiss Tax purposes)	1st January of each year.

Redemption

Redemption Amount	Each Portfolio Certificate entitles the Investor to receive on the Redemption Date an amount in the Settlement Currency (the " Redemption Amount "), as calculated by the Calculation Agent, according to the following formula:
-------------------	---

$$\text{Denomination} \times \text{Max} \left(0 ; \frac{\text{Final Reference Portfolio Level}}{\text{Initial Reference Portfolio Level}} \right)$$

Where:

"**Final Reference Portfolio Level**" means the value of the Reference Portfolio as determined by the Calculation Agent on the Expiration Date, the Early Termination Date or the Automatic Early Termination Date (as applicable) and subject to Unwind Disruption, as the sum of:

- i) the sale proceeds, as converted into the Settlement Currency where applicable, using the prevailing exchange rate, as determined by the Calculation Agent in its reasonable discretion, that would be realized by a notional investor (in the same position as the Issuer) when selling and/or, as the case may be, unwinding the prevailing Constituents comprising the Reference Portfolio; and
- ii) the value of the Cash Position minus any accrued but not yet deducted Adjustment Fee, Reference Portfolio Fee and Reference Portfolio Advisor Performance Fee.

In the event that a notional investor (in the same position as the Issuer) would be unable to unwind its investment in the Constituents by the Expiration Date, the Early Termination Date or the Automatic Early Termination Date, as applicable (such event an "**Unwind Disruption**"), the Issuer reserves the right to postpone the Expiration Date, the Early Termination Date or the Automatic Early

Termination Date in accordance with the Market Disruption Events provisions below.

Please note that the Redemption Amount may be less than the initially invested capital.

Early Termination by Issuer

The Issuer is entitled to terminate the Portfolio Certificates early in full subject to the following notice period:

Quarterly, i.e. as of each 30 June, 30 September, 31 December and 31 March of each year (the "**Early Termination Date**"), subject to at least 30 Business Days prior notice being given to the Investors (provided in each case if such day is not a Constituents Business Day, then the immediately following Constituents Business Day shall be the Early Termination Date). The first possible Early Termination Date will be 31 March 2018. There is no early termination right for the investor in the Portfolio Certificates.

Automatic Early Termination

Should (i) the Reference Portfolio Advisor cease to be or to act as the Reference Portfolio Advisor, (ii) the Reference Portfolio Level be equal or lower than the Stop Loss Level in respect of any Business Day, the Product will automatically terminate (the "**Automatic Early Termination**") on the Constituents Business Day immediately following the date on which such event occurs (the "**Automatic Early Termination Date**"), as determined at the reasonable discretion of the Calculation Agent. No notice period shall apply in that case.

Reference Portfolio Level

Except on the Expiration Date, the Early Termination Date or the Automatic Early Termination Date, as applicable, the Calculation Agent shall calculate the Reference Portfolio Level in its own reasonable discretion in respect of each Business Day, subject to a Market Disruption Event (each a "**Reference Portfolio Calculation Date**").

The Reference Portfolio Level in respect of each Reference Portfolio Calculation Date is the sum of (i) the closing price or value of each Constituent on such Reference Portfolio Calculation Date, and (ii) the value of the Cash Position.

For the avoidance of doubt, the Reference Portfolio Level in respect of the Expiration, Early Termination Date or Automatic Early Termination Date, as applicable, shall be calculated by the Calculation Agent in accordance with the provisions under "**Redemption Amount**" above.

Fees

Reference Portfolio Advisor Fee (calculated daily)	The Reference Portfolio Advisor will receive a quarterly fee of 0.325% (1.30% per year) of the Reference Portfolio Level, deducted from the respective Reference Portfolio Level on a pro-rata daily basis as determined by the Calculation Agent.
Issuer Management Fee (calculated daily)	The Issuer will receive a quarterly fee of 0.050% (0.20% per year) of the Reference Portfolio Level, deducted from the respective Reference Portfolio Level on a daily basis by the Calculation Agent.
Reference Portfolio Fee	The sum of the Reference Portfolio Advisor Fee and the Issuer Management Fee.
Reference Portfolio Advisor Performance Fee (calculated daily) (High Water Mark)	<p>A fee, as defined below, levied on the positive daily performance of the Reference Portfolio, as calculated by the Calculation Agent.</p> <p>On any Business Day, such Reference Portfolio Advisor Performance Fee will be applied as a percentage number to the positive difference, if any, between the Gross Reference Portfolio Level in respect of the previous Business Day, as calculated by the Calculation Agent and as described below, to the High Water Mark Level ("HWM") on the Business Day that is 2 Business Days preceding, but not including, the current Business Day, as calculated by the Calculation Agent and as described below. The product of the Performance Fee and this difference is deducted from the Gross Reference Portfolio Level in respect of the current</p>

Business Day to provide the Reference Portfolio Level in respect of the current Business Day:

$$RPL_t = GRPL_t - \text{Max} [PF \times (GRPL_{t-1} - HWM_{t-2}) ; 0]$$

Where:

"**PF**": The Performance Fee of 10.00%

Reference Portfolio Level ("**RPL_t**"): The Reference Portfolio Level in respect of Business Day "t",

Gross Reference Portfolio Level ("**GRPL_t**"): The Gross Reference Portfolio Level on each Business Day "t" is the Reference Portfolio Level as of the immediately preceding Business Day "t-1", adjusted for the performance of Portfolio on Business Day "t", net of the Reference Portfolio Fee for such Business Day "t", and before the application or deduction of the Reference Portfolio Advisor Performance Fee for such Business Day, if any, as described above.

High Water Mark Level ("**HWM_t**"): The HWM on the Pricing Date shall be 100.00% of the Reference Portfolio Level on the Pricing Date. On each subsequent Business Day "t", the HWM Level shall be the greater of the HWM Level on the immediately preceding Business Day "t-1" and the Gross Reference Portfolio Level in respect of the current Business Day.

Portfolio Certificates bought in the secondary market will be bought with the current High Water Mark Level and will benefit from this HWM if it is set at a level above the purchase price and thus new investors will only be charged performance fees above the current High Water Mark Level.

Adjustment Fee

An Adjustment Fee is levied for each Rebalancing, as defined in Annex 1, made in the Reference Portfolio and represents a percentage of the notional volume of each of the purchase and/or sale of a Constituent. The Adjustment Fee equals 0.10%, except for Option Constituents, for which it is 0.05% and except for FX Constituents, for which it is equal to 0.03%.

The Adjustment Fee shall be deducted from the Cash Position.

For the avoidance of doubt, unwind costs to determine the Final Reference Portfolio Level shall constitute Adjustment Fees.

The Adjustment Fees fully remain with the Issuer.

Distribution Fee

None

Product Structure

The Product allows for participation in the performance of the Reference Portfolio, which is calculated net of relevant fees and costs. The Reference Portfolio is a notional actively managed portfolio, created and maintained by the Reference Portfolio Advisor.

Adjustments and Market Disruption Events

Adjustments to the composition of the Reference Portfolio	If, at any time, any event occurs in relation to any Constituent which the Calculation Agent determines requires any adjustment(s) to be made to the composition of the Reference Portfolio, then the Calculation Agent shall (i) determine which adjustment(s) are to be made to the Constituent with a view to account for the effect of the relevant event and to preserve the prevailing composition of the Reference Portfolio immediately prior to the occurrence of such event and (ii) determine the date on which such adjustment(s) shall take effect.
Market Disruption Events	<p>(A) In the event that the Calculation Agent determines that any Constituents Business Day is a Disrupted Day with respect to any Constituent or Eligible Constituent selected by the Reference Portfolio Advisor for the purposes of a Rebalancing, then such Constituent or Eligible Constituent shall not be notionally sold or purchased on the intended effective date of the relevant Rebalancing.</p> <p>(B) In the event that the Calculation Agent determines that any Reference Portfolio Calculation Date is a Disrupted Day with respect to any Constituent or Eligible Constituent, then for the purposes of determining the value of the Reference Portfolio as at such Reference Portfolio Calculation Date, (a) the price of each Constituent not affected by the occurrence of such Disrupted Day shall be the closing price of such Constituent on the relevant Exchange or Related Exchange and (b) the price of each Constituent affected by the occurrence of such Disrupted Day shall be determined by the Calculation Agent in its good faith estimate of the fair market value (which may be zero) of such Constituent as of such Reference Portfolio Calculation Date.</p> <p>(C) If the Calculation Agent determines that the date scheduled to be the Expiration Date, the Early Termination Date or the Automatic Early Termination Date, as applicable, is a Disrupted Day in respect of any Constituent, such date shall be the Expiration Date, the Early Termination Date or the Automatic Early Termination Date, as applicable, for those Constituents which are not affected by the occurrence of a Disrupted Day while the Expiration Date, the Early Termination Date or the Automatic Early Termination Date, as applicable, for any Constituent that is affected by the occurrence of a Disrupted Day shall be postponed to the following Constituents Business Day with respect to such Constituent. If such day does not occur within 8 (eight) Constituents Business Days immediately following the date scheduled to be the Expiration Date, the Early Termination Date or the Automatic Early Termination Date, as applicable, the price of such Constituent shall be determined by the Calculation Agent by reference to its good faith estimate of the value for such Constituent on that eighth Constituents Business Day.</p> <p>(D) On the occurrence of an FX Disruption Event, the value of any Constituent not denominated in the Settlement Currency shall be determined by the Calculation Agent in its sole and absolute discretion and the Calculation Agent shall have the right to adjust the value of the Reference Portfolio to account for such FX Disruption Event.</p>
Disrupted Day	Any Business Day on which the Calculation Agent determines that trading and/or transactions in the relevant Constituent or Eligible Constituent, as the case may be, is or are adversely affected (including without limitation where trading and/or transactions are limited by reason of illiquidity, any circumstances of market or trading disruption or the unavailability for any reason of any quote, official price or valuation in relation to the relevant Constituent or Eligible Constituent).
FX Disruption Event	Means (i) an event that generally makes it illegal, impossible, impractical or inadvisable to convert one unit of the currency in which any non-USD denominated Constituent is denominated (the " Denomination Currency ") into the Settlement Currency, or an event that generally makes it impossible to deliver the Settlement Currency from accounts in which they are held to accounts outside of the jurisdiction of the Denomination Currency; or (ii) the general unavailability to exchange the Settlement Currency at a spot rate (applicable to

2. Prospects of Profits and Losses

Market Expectations	Investors in this Product expect the Reference Portfolio to trade positively over the life of the Product.
Effect of the performance of the Underlying on the Redemption Amount:	
<ul style="list-style-type: none"> Positive Performance 	If the Reference Portfolio performs positively, Investors realise a positive return.
<ul style="list-style-type: none"> Sideways to slightly negative performance 	If the Reference Portfolio performs sideways to slightly negative, Investors fully participate in the negative performance of the Reference Portfolio. Investors may lose some of their investment.
<ul style="list-style-type: none"> Pronounced negative performance 	If the Reference Portfolio performs negatively, Investors may lose some or all of their investment.
Profit potential	The profit potential is unlimited. The Product allows for full participation in the positive performance of the Reference Portfolio, as adjusted by fees and costs as described in more detail herein.
Loss potential	Investors may lose some or all of the investment as they are fully exposed to the negative performance of the Reference Portfolio as well as to currency risks where the as the currency risk is not hedged.

3. Significant Risks For Investors

General risk warning	Potential Investors should understand the risks associated with an investment in the Product and shall only reach an investment decision after careful considerations with their legal, tax, financial and other advisors of (i) the suitability of an investment in the Product in the light of their own particular financial, fiscal and other circumstances; (ii) the information set out in this document and (iii) the Reference Portfolio Components. The following is a summary of the most significant risks. Further risks are set out in the Product Documentation.

Risk Tolerance Investors in this Product should be experienced investors and familiar with both derivative products and the general markets as well as with the investment management abilities of the Reference Portfolio Advisor.

Investors must be willing to make an investment that is fully exposed to the performance of the Reference Portfolio, meaning that Investors might lose their whole investment in the Product in the worst case. In additions, Investors should be aware that the Issuer is entitled to redeem the Product early.

Product Specific Risks

Capital Protection (at Expiry)	None
Risk Potential in comparison to a direct investment in the Underlying	The risk potential is similar to a direct investment in the assets contained in the notional Reference Portfolio.
Issuer Call right	Yes; additionally, an Automatic Early Termination may occur.
Stop Loss Event	Applicable
Currency risk	As the Settlement Currency is different from the currency in which some or all assets contained in the notional Reference Portfolio are denominated, the value of this product is exposed to the corresponding FX exchange rates. The currency risk may be partially hedged by the Reference Portfolio Advisor at his own discretion.
Risk relating to Short Constituents	Investors should be aware that in relation to a Constituent in respect of which the Reference Portfolio has a short position, the potential gain is limited, but there is the theoretical possibility of unlimited loss if such Constituent rises dramatically in price. When asset prices go up, the Issuer may be forced to buy the Constituent to cover its position. In certain circumstances, particularly if such Constituent has significant short positions held by market participants and such Constituent experiences a surge in price, short sellers may have to cover their position at high costs (known as a "short squeeze"). Investors should also be aware that regulators may impose bans on short sales on certain Constituents forcing short sellers to cover their positions at high costs and that short sellers are also exposed to the risk of a so called buy-in. A buy-in may become effective if the borrow costs incurred regarding such Constituent cannot be maintained or the borrowed asset is called by its owner and no other asset can be borrowed to replace it.
Risk relating to Loss of Stock Borrow	Investors should be aware that a Loss of Stock Borrow could occur and as a consequence the Issuer is entitled to unwind the position on any affected Constituent and thereafter the Calculation Agent shall have the right to adjust the value of the Reference Portfolio to account for such Loss of Stock Borrow. Therefore, a Loss of Stock Borrow possibly will have a negative impact on the overall performance of the Reference Portfolio.
Risk relating to Borrow Fee	Investors should be aware that the Borrow Fee of a Constituent in respect of which the Reference Portfolio has a short position may increase substantially in case of a short squeeze or a buy-in, which could have a negative impact on the overall performance of the Reference Portfolio.
Price Source Disruption Event	It may become impossible to obtain one or more Constituent levels during the lifetime of the Product and/or on the Expiration Date, the Early Termination Date or the Automatic Early Termination Date, as applicable, due to one or more of the price sources normally used in the relevant market for the Constituents being unavailable because an unscheduled bank closure is declared on short notice in the relevant country or due to the occurrence of any other disruption (each a "Price Source Disruption Event"). The Calculation Agent will determine in good faith and in a commercially reasonable manner whether a Price Source Disruption Event has occurred. A Price Source Disruption Event may lead to (i) a postponement of the Expiration Date, the Early Termination Date or the Automatic Early Termination Date, as applicable, and therefore of the Redemption Amount, (ii) to the use of an alternative source for the relevant Constituent level and/or (iii) to the unilateral determination of the applicable Constituent level by the Calculation Agent.

	Such postponement, use of alternative price source and/or determination of the applicable Constituent level by the Calculation Agent may affect, materially or otherwise, the Redemption Amount which the Investor will receive.
Extraordinary termination risk	The Issuer may terminate and redeem the Product prior to the Expiration Date in accordance with the Product Documentation. In case of such extraordinary termination, the Issuer shall pay to the Investors an extraordinary termination amount as determined by the Calculation Agent which is equivalent to the market value of the Product, less any costs. Potential Investors should note that the extraordinary termination amount may deviate from and may be considerably below the amount which would be payable pursuant to the final redemption provisions on the Redemption Date. Investors are not entitled to request any further payments on the Product after the termination date.
Risks specific to exchange traded funds	<p>Regarding the performance of exchange traded funds (ETFs), investors should also note the following risks specific to ETFs:</p> <p>(i) market risk: Investment aim of most ETFs is to track the performance of indices, market sectors, or groups of assets such as stocks, bonds or commodities. Investors are subject to risk of loss and volatility associated with the underlying index/assets. The net asset value (NAV) of the ETF will change with changes in the market value of the underlying securities or other assets it holds and such changes may be amplified or inverse in the case of leveraged or inverse ETFs.</p> <p>(ii) tracking error risk: The performance of the ETFs may deviate from the underlying index, market sectors or assets. This may be due to the impact of fees and expenses incurred to the ETFs, currency differences, the replication strategy of the ETF, and/or the failure of such strategy.</p> <p>(iii) counterparty risk: If the ETF uses a synthetic replication strategy by entering into swaps or other derivatives transactions to gain exposure to the index or assets it tracks, investors are exposed to the risk that such counterparties may default on their obligations which may expose the ETF to greater losses than if the ETF invested only in conventional securities. There is always a risk that the market value of any collateral held by such ETF has deteriorated and is substantially below the amount secured by such collateral and thus, resulting in significant loss to the ETF.</p> <p>(iv) foreign exchange risk: Assets and securities of an ETF may be denominated in a currency that differs from the currency in which the ETF's NAV and/or the Product is denominated. Accordingly, any fluctuation in the relevant currency exchange rates will affect the value of the underlying securities and assets of the ETF as well as the NAV of the ETF, which in turn may affect the market value of the Product.</p> <p>(v) liquidity risk: The ETF may be less liquid than the underlying securities it tracks and as a result, an investor could be exposed to greater liquidity risk in the event of early termination than if the Product is linked directly to the underlying securities.</p> <p>(vi) trading at discount or premium: An ETF may be traded at discount or premium to its NAV and such price discrepancy is caused by supply and demand factors. This may arise during the periods of high market volatility and in particular, where index/market that the ETF tracks is subject to direct investment restrictions.</p>
Risk relating to leverage	Investors should be aware that the inclusion of leverage will amplify gains or losses. Leverage has the effect of increasing the volatility of an investment. Investors should be aware this Product may have a gross exposure (the sum of the exposure of leverage applied to each underlying asset) may be greater than the Denomination of the Product.
Illiquidity risk in secondary market	The Issuer or the Lead Manager, as applicable, intends, under normal market conditions, to provide bid and/or offer prices for this Product on a regular basis. However, the Issuer or the Lead Manager, as applicable, makes no firm commitment to provide liquidity by means of bid and/or offer prices for this Product, and assumes no legal obligation to quote any such prices or with respect to the level or determination of such prices.
Market Disruption risk	Investors are exposed to market disruption events (such as trading disruption, exchange disruption and early closure of the relevant exchange), which could have an impact on the redemption amount through delay in payment, change in value or suspension of trading in the Product in the secondary market. Calculation Agent's discretion	The Calculation Agent has a broad discretionary authority to make various determinations and adjustments under the Products, any of which may have an adverse effect on the value and/or the amounts payable under the Products. Prospective investors should be aware that any determinations made by the Calculation Agent may have an impact on the value and financial return of the Products. Where the Calculation Agent is required to make a determination it may do so without taking into account the interests of the holders of the Product.
Withholding tax	Investors in this Product should note that any payment under this Product may be subject to withholding tax (such as, inter alia, Swiss Withholding Tax, and/or withholding related to FATCA or 871(m) of the US Tax Code). Any payments due under this Product are net of such tax. Please refer to the General Terms and Conditions for detailed information. If the Issuer is required to withhold any amount pursuant to Section 871(m) or FATCA of the U.S. Tax Code, the Issuer will not be required to pay additional amounts with respect to the amount so withheld.

Risk Factors relating to the Issuer

In addition to the market risk with regard to the development of the Underlying, each Investor bears the general risk that the financial situation of the Issuer could deteriorate. The Products constitute immediate, unsecured and unsubordinated obligations of the Issuer, which, particularly in case of insolvency of the Issuer, rank *pari passu* with each and all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of those that have priority due to mandatory statutory provisions. The general assessment of the Issuer's creditworthiness may affect the value of the Products. This assessment generally depends on the ratings assigned to the Issuer or its affiliated companies by rating agencies such as Moody's, Fitch and Standard & Poor's.

The Issuer Ratings indicated in this document reflect the situation at the time of issuance and may be subject to changes. The actual Issuer Ratings at any given time can be seen on the Issuer's website (www.ubs.com) under "Analysts & Investors".

Annex 1 – Reference Portfolio Description Document

1. General information about the Reference Portfolio

As described in Section 1 ("**Description of the Product**") in this document, the **Reference Portfolio** is a notional reference portfolio (denominated in the Reference Portfolio Currency), actively created, managed and maintained by the **Reference Portfolio Advisor**.

The Reference Portfolio Advisor has created the Reference Portfolio by selecting the initial Constituents (the "**Initial Constituents**") on 25 January 2018 (the "**Pricing Date**"). The Initial Constituents are listed in Section 3 below.

The Reference Portfolio Advisor is responsible for adjusting the composition of the Reference Portfolio from time to time thereafter (any such adjustment a "**Rebalancing**") in accordance with Section 4 below. Certain limitations apply as to the composition of the Reference Portfolio from time to time as described in such section.

The level of the Reference Portfolio (the "**Reference Portfolio Level**") is calculated in the Reference Portfolio Currency, net of fees and costs associated with the creation, maintenance and management of the Reference Portfolio, as described Section 1 ("**Description of the Product**") of this document.

The Calculation Agent may adjust the composition of the Reference Portfolio from time to time to account for corporate actions in respect of the Constituents and other similar events, as described in Section 6 below.

Unless otherwise specifically provided herein, terms used in this document shall have the meanings given to such terms in, and shall be interpreted in accordance with, the terms and conditions of the relevant product linked to the Reference Portfolio.

2. Reference Portfolio Investment Universe, title selection criteria and investment restrictions

The Reference Portfolio, whose composition may vary from time to time, is actively managed by the Reference Portfolio Advisor and represents a notional investment in the Reference Portfolio Components as described in detail in the following. The Reference Portfolio Advisor is not allowed to select any additional securities, assets, exposures or contracts for inclusion in the notional Reference Portfolio apart from the ones that are part of the Investment Universes described below. The Reference Portfolio Advisor may select any securities, assets, exposures or contracts from the Investment Universes for inclusion in the notional Reference Portfolio (with such securities, assets, exposures or contracts becoming "Constituents" after inclusion in the Reference Portfolio) in its reasonable discretion pursuant and subject to the provisions contained in this document.

2.1 Stock Constituents

The Reference Portfolio may reference as Stock Constituents long positions in stocks from the universe described below (the "**Stock Investment Universe**").

Only Developed Market (according to MSCI Global Investable Market Indexes Methodology, August 2015) worldwide stocks may be incorporated as Stock Constituents in the Reference Portfolio (each an "**Eligible Stock Constituent**").

In respect of the dividend treatment of Stock Constituents, refer to Section 1 ("**Description of the Product**") of this document.

Eligible Stock Constituents from the Stock Investment Universe may be selected in the sole discretion of the Reference Portfolio Advisor pursuant and subject to the provisions contained in this document. The Calculation Agent may retain the right to reject the inclusion of any Eligible Stock Constituent due to any applicable rules, regulations and internal or external restrictions according to the provisions as set out below in Section 4 ("**Rebalancing of the Reference Portfolio**") below.

Please note that calls made to the numbers marked with an asterisk (*) may be recorded. Should you call one of these numbers, we shall assume that you consent to this business practice.

2.2 ETF Constituents

The Reference Portfolio may reference as ETF Constituents long positions in certain ETFs from the universe described below (the "**ETF Investment Universe**").

Only ETFs that are physically replicated, exposed to Developed Market (as defined in the most recent MSCI Global Investable Market Indexes Methodology) worldwide stocks or benchmark indices and with assets under management greater or equal to USD 100 million may be incorporated as long ETF Constituents in the Reference Portfolio, subject to the Issuer's ability to access and offer such ETF at a commercially reasonable cost to the Issuer, as determined by the Calculation Agent in its sole discretion.]

In respect of the dividend treatment of ETF Constituents, refer to the section "**Product Details**".

2.3 FX Constituents

The Reference Portfolio may reference as FX Constituents long or short positions in certain FX forwards (each an "**Eligible FX Constituent**") from the universe described below (the "**FX Investment Universe**").

Only FX Forwards exposed to G10 currencies may be incorporated as FX Constituents in the Reference Portfolio.

In the absence of other instructions from the Reference Portfolio Advisor, FX Constituents will be closed out automatically on the expiration date of the FX forwards and their performances will be taken into account at the Reference Portfolio Level by converting them into the Settlement Currency at the then prevailing exchange rate, as determined by the Calculation Agent. Such automatic close out shall not count as a Rebalancing.

Eligible FX Constituents from the FX Investment Universe may be selected in the sole discretion of the Reference Portfolio Advisor pursuant and subject to the provisions contained in this document. The Calculation Agent may retain the right to reject the inclusion of any Eligible FX Constituent due to any applicable rules, regulations and internal or external restrictions according to the provisions as set out below in Section 4 ("**Rebalancing of the Reference Portfolio**") below.

2.4 Equity Option Constituents

The Reference Portfolio may reference as Equity Option Constituents long or short positions in various exchange-traded call and put equity vanilla options from the universe described below (the "**Equity Option Investment Universe**").

Only exchange-traded call and put equity vanilla options that are exposed to Developed Market (according to the most recent MSCI Global Investable Market Indexes Methodology) worldwide stocks or benchmark indices and/or ETFs tracking Developed Market worldwide stocks or benchmark indices may be incorporated as Equity Option Constituents in the Reference Portfolio (each an "**Eligible Equity Option Constituent**").

Eligible Equity Option Constituents from the Equity Option Investment Universe may be selected in the sole discretion of the Reference Portfolio Advisor pursuant and subject to the provisions contained in this document. The Calculation Agent may retain the right to reject the inclusion of any Eligible Equity Option Constituent due to any applicable rules, regulations and internal or external restrictions according to the provisions as set out below in Section 4 ("**Rebalancing of the Reference Portfolio**") below.

2.5 Equity Index Constituents

The Reference Portfolio may reference as Equity Index Constituents short positions in gross total return equity indices (each an "**Eligible Equity Index Constituent**") from the universe described below (the "**Equity Index Investment Universe**").

NASDAQ-100 Total Return Index	NXDX Index

Eligible Equity Index Constituents from the Equity Indices Investment Universe may be selected in the sole discretion of the Reference Portfolio Advisor pursuant and subject to the provisions contained in this document. The Calculation Agent may retain the right to reject the inclusion of any Eligible Equity Index Constituent due to any applicable rules, regulations and internal or external restrictions according to the provisions as set out below in Section 4 ("**Rebalancing of the Reference Portfolio**") below.

2.6 Cash Position

The Reference Portfolio will also contain a Cash Position as a Reference Portfolio Component, which represents a notional holding of a cash account denominated in the Reference Portfolio Currency and accruing interest at the prevailing reference rate (the "**Reference Rate**"), which can be negative from time to time.

The Reference Rate is observed on every week day and shall be equal to the United States SOFR Secured Overnight Financing Rate (Bloomberg page: SOFRRATE <Index>) (the "**Relevant Screen Page**") plus a spread (the "**Spread**").

In respect of a positive Cash Position, the Spread shall be 0.00% and in respect of a negative Cash Position, the Spread shall be 0.30%.

If (i) the Reference Rate is no longer displayed or is discontinued permanently without an official legal successor rate, (ii) a public statement by the administrator of the relevant Reference Rate has been issued that (in circumstances where no successor administrator has been or will be appointed that will continue publication of such Reference Rate) it has ceased publishing such Reference Rate permanently or indefinitely or that it will cease to do so by a specified future date, (iii) a public statement by the supervisor of the administrator of the relevant Reference Rate has been issued that, in the view of such supervisor, such Reference Rate is or will, by a specified future date, be no longer representative of an underlying market or the methodology to calculate such Reference Rate has materially changed; or (iv) the administrator of the relevant Reference Rate fails to obtain or maintain any necessary approvals or registrations, the Issuer is entitled to replace the Relevant Screen Page respective such Reference Rate by another rate (which may include an adjustment spread (which may be positive or negative)), representing, at the reasonable discretion of the Calculation Agent, an economically comparable concept, (the "**Successor Rate**").

The specification of a successor Relevant Screen Page respective such Successor Rate may also result in an adjustment of the Spread.

The value of the Cash Position will thereafter be negatively or positively affected by any fee or any other distribution as described in the relevant section under Section 1 ("**Description of the Product**") of this document.

2.7 Investment Restrictions

Eligible Constituents as well as Constituents may be selected by the Reference Portfolio Advisor for notional purchase or, as the case may be, sale or unwind in accordance with the following investment restrictions (the "**Investment Restrictions**"):

- (i) The Weight of the Cash Position shall at all times be greater than -5%.
- (ii) The Weight of the Cash Position shall, on average throughout a calendar year, be smaller than 50%.
- (iii) on the Pricing Date, the exposure in the Constituents is capped at 100% of the Reference-Portfolio Level;
- (iv) The Exposure of any single ETF Constituent is capped at 30%.
- (v) The absolute value of the Currency Exposure of each Stock and ETF Constituent shall not exceed 20% of its 30 day average daily trading volume, determined by the Calculation Agent in its sole discretion.

- (vi) The absolute value of the sum of the Weights of all Constituents, with the exception of FX Constituents, is capped at a maximum of 200% (the "**Gross Leverage Threshold**") at all times during the lifetime of the product. In case the sum of the Weights of all Constituents, with the exception of FX Constituents, exceeds the Gross Leverage Threshold, the Calculation Agent is entitled to notionally sell Constituents at its reasonable discretion until the sum of the Weights of all Constituents, with the exception of FX Constituents, is smaller than or equal to 190%. In respect of such notional sales of such Constituents, a notional credit (which may be equal to zero) shall be made to the Cash Position corresponding to the Notional Net Disposal Value (which may be equal to zero) of such Constituents with effect from the date of such Constituents' notional sale.
- (vii) The sum of the Weights of all Constituents, with the exception of FX Constituents, is capped at a maximum of 100% (the "**Leverage Threshold**") at all times during the lifetime of the product. In case the sum of the Weights of all Constituents, with the exception of FX Constituents, exceeds the Leverage Threshold, the Calculation Agent is entitled to notionally sell Constituents at its reasonable discretion until the sum of the Weights of all Constituents, with the exception of FX Constituents, is smaller than or equal to 95%. In respect of such notional sales of such Constituents, a notional credit (which may be equal to zero) shall be made to the Cash Position corresponding to the Notional Net Disposal Value (which may be equal to zero) of such Constituents with effect from the date of such Constituents' notional sale.
- (viii) The sum of the absolute Exposures of all FX Constituents is capped at the sum of the Weights of all Stock Constituents that are not denominated in the Reference Portfolio Currency at all times during the lifetime of the product (the "**FX Threshold**"). In case the sum of the absolute Exposures of all FX Constituents exceeds the FX Threshold, the Calculation Agent is entitled to notionally close out FX Constituents at its reasonable discretion until the sum of the absolute Exposures of all FX Constituents is smaller than or equal to the FX Threshold. In respect of such notional closing-out of such FX Constituents, the performances of the such FX Constituents will be taken into account at the Reference Portfolio Level by converting them into the Settlement Currency at the then prevailing exchange rate, as determined by the Calculation Agent.
- (ix) Short positions in any exchange-traded call equity vanilla option can only be used for covered call strategies. As such, the Exposure of any short position in any exchange-traded call equity vanilla option must be covered by a long position into the respective underlying Stock Constituent, Equity Index Constituent or ETF Constituent, as the case may be. The Weight of the long exposure into the respective underlying Stock Constituent, Equity Index Constituent or ETF Constituent, as the case may be, must be equal or greater than the Exposure of the relevant short position in the exchange-traded call equity vanilla option.
- (x) Short positions in exchange-traded put equity vanilla options can only be used if covered by the Cash Position. As such, the Weight of the Cash Position must be equal or greater than the sum of all the Exposures of all short positions in exchange-traded equity vanilla put options.
- (xi) A value at risk ("**VaR**") limit of 60% of the Stop Loss Level must be maintained at all times, including for the avoidance of doubt when a Rebalance occurs (taking into account the Eligible Constituents to which the Reference Portfolio shall acquire exposure, or the existing Constituents to which the Portfolio shall increase or decrease exposure in respect of such Rebalance). The VaR shall be the worst of the 99% confidence level over a 2 week period time horizon (calculated by scaling the 1 day VaR) between the 1 year, 2 year and 3 year and Monte Carlo VaR, as specified by the Calculation Agent in its sole discretion.

For the avoidance of doubt: The responsibility and legal duty that the Reference Portfolio complies with the above guidelines is solely with the Reference Portfolio Advisor.

2.8 Additional Definitions

"Weight" means, with respect to the Pricing Date or any Business Day and pertaining to a Stock Constituent and/or to the Cash Position, the notional value of such Stock Constituent as converted into the Reference Portfolio Currency, where such Stock Constituent is not denominated in the Reference Portfolio Currency, at the then prevailing exchange rate, divided by the Reference Portfolio Level, both as determined by the Calculation Agent in its reasonable discretion.

"Exposure" means, with respect to the Pricing Date or any Business Day and pertaining to an Equity Option Constituent and/or to a FX Constituent, the notional exposure in the Reference Portfolio Currency of such Equity option Constituent and/or FX Constituent, as converted into the Reference Portfolio Currency, where such Equity Option Constituent and/or FX Constituent is not denominated in the Reference Portfolio Currency, at the then

4. Rebalancing of the Reference Portfolio

- 4.1 A Rebalancing may be initiated by the Reference Portfolio Advisor on any Business Day following the Pricing Date, effective as soon as reasonably practicable, as determined by the Calculation Agent in a commercially reasonable manner (such day, a **"Reference Portfolio Adjustment Date"**), subject to the occurrence of a Market Disruption Event on such Constituents Business Day. However, no more than 52 Rebalancings may be initiated in any 12

month period starting with the Pricing Date and reset on each anniversary of the Pricing Date. The expected number of Rebalancings in any such 12 month period is 52.

For the avoidance of doubt, a single Rebalancing may comprise of a change to more than one Constituent, and therefore a change in the position of multiple Constituents which were the result of a single Rebalancing instruction by the Reference Portfolio Advisor shall be considered as one Rebalancing.

- 4.2 On any Business Day, the Reference Portfolio Advisor may, as it deems appropriate in its reasonable discretion, give notice to the Calculation Agent not later than 5 p.m. CET for European orders and 7 p.m. CET for all other orders, of its intention to initiate a Rebalancing on such day (a "**Rebalancing Notice**"), and effective as soon as reasonably practicable, as determined by the Calculation Agent in a commercially reasonable manner. Save as the Calculation Agent may otherwise agree, a Rebalancing Notice shall not be effective if, at the time of such Rebalancing Notice is received, a Rebalancing in respect of any Rebalancing Notice received earlier on such Business Day has not yet been completed or otherwise rejected. For the purposes hereof, a Rebalancing is deemed completed upon notification by the Calculation Agent to the Reference Portfolio Advisor, with respect to the relevant Rebalancing, of the relevant Notional Net Acquisition Cost of each Eligible Constituent notionally included in the Reference Portfolio, the Notional Net Disposal Value(s) of each Constituent notionally removed from the Reference Portfolio, the FX Forward performance for FX Constituents and the Weight and/or of each Constituent notionally comprised in the Reference Portfolio following the relevant Rebalancing as provided in sub-Section 4.6 below.
- 4.3. The Calculation Agent will determine the exact number of Constituents based on prevailing market conditions, including exchange rates when relevant, in its reasonable discretion. Such number may deviate from the exact Weight recommended by the Reference Portfolio Advisor.
- 4.4 On each Reference Portfolio Adjustment Date, notional debits and credits to the Cash Position shall be made as follows:
 - (i) In respect of the notional purchase of an Eligible Stock Constituent a notional debit shall be made to the Cash Position corresponding to the Notional Net Acquisition Cost of such Eligible Stock Constituent with effect from the date of such Eligible Stock Constituent's notional purchase; and
 - (ii) In respect of the notional sale or unwind of a Stock Constituent, a notional credit (which may be equal to zero) shall be made to the Cash Position corresponding to the Notional Net Disposal Value (which may be equal to zero) of such Stock Constituent with effect from the date of such Stock Constituent's notional sale.
 - (iii) In respect of the unwind of an FX Constituent, a notional credit (which may be equal to zero) or a notional debit corresponding to the performance of such FX Constituent, as converted into Reference Portfolio Currency, where such performance is not denominated in the Reference Portfolio Currency, at the then prevailing exchange rate, both as determined by the Calculation Agent in its reasonable discretion, shall be made to the Cash Position with effect from the date of such FX Constituent's unwind.
- 4.5 The Calculation Agent is entitled but has no legal duty to refuse the notional purchase of any Eligible Constituent and/or the notional sale or unwind of any Constituents and to require the Reference Portfolio Advisor to initiate a Rebalancing in certain circumstances, as follows:
 - (i) The Reference Portfolio Advisor has selected an asset for inclusion in the notional Reference Portfolio which is not part of the Investment Universes;
 - (ii) The Reference Portfolio is, or following the relevant Rebalancing would breach any of the Investment Restrictions or any other rule or provision contained herein;
 - (iii) A Market Disruption Event has occurred in respect of the relevant Eligible Constituent or Constituent on the relevant Reference Portfolio Adjustment Date;
 - (iv) A FX Disruption Event has occurred in respect of the relevant Eligible Constituent or Constituent on the relevant Reference Portfolio Adjustment Date;

- (v) The Calculation Agent determines that a Hedging Disruption Event has occurred in relation to any Constituent or Eligible Constituent. In this paragraph, "**Hedging Disruption Event**" means the determination by the Calculation Agent that it would not be reasonably practicable or it would otherwise be undesirable, for any reason, for a notional Investor wholly or partially to establish, re-establish, substitute or maintain any hedging transaction which in the determination of the Calculation Agent would be necessary or desirable to hedge the obligations of an issuer of securities linked to the performance of the Reference Portfolio (such reasons may include, but are not limited to (i) any material illiquidity in the market for any Constituent or Eligible Constituent, (ii) a change in any applicable law (including, without limitation, any tax law) or the promulgation of, or change in, the interpretation of any court, tribunal or regulatory authority with competent jurisdiction of any applicable law (including any action taken by a taxing authority); or (iii) the general unavailability of market participants who would agree to enter into any such hedging transaction on commercially reasonable terms or at all; and
- (vi) The Calculation Agent determines that it would not be reasonably practicable for a notional Investor in the same position as the Issuer to make purchases and/or sales or unwind of any Eligible Constituent or Constituent, as the case may be, due to compliance, regulatory, reporting or reputational constraints, take-over considerations, internal restrictions or lack of internal approval.

In the event that the Calculation Agent requires the Reference Portfolio to initiate a Rebalancing such that the Reference Portfolio complies with the foregoing, the Reference Portfolio Advisor shall, as soon as is reasonably practicable and without undue delay, initiate a Rebalancing such that the Reference Portfolio complies with the foregoing as at the immediately following Reference Portfolio Adjustment Date. The Reference Portfolio Advisor has no right to object to such Rebalancing required by the Calculation Agent.

For the avoidance of doubt: Notwithstanding the entitlements of the Calculation Agent under this paragraph, the sole responsibility and legal duty to manage the Reference Portfolio in compliance with the rules and provisions contained in this document is with the Reference Portfolio Advisor.

- 4.6 As soon as is reasonably practicable after receipt of an effective Rebalancing Notice on a Reference Portfolio Adjustment Date, and subject to any rejection pursuant to sub-Section 4.5 above, the Calculation Agent shall notify the Reference Portfolio Advisor of (a) the Notional Net Acquisition Cost and Notional Net Disposal Value or FX Forward performance for FX Constituents, applicable to each Eligible Constituent and/or Constituent that is subject to the Rebalancing and (b) the Weight and/or of each Constituent comprised in the Reference Portfolio as a result of the Rebalancing. Upon receipt by the Reference Portfolio Advisor of such notice from the Calculation Agent, the Rebalancing shall be binding and conclusive on the Reference Portfolio Advisor in the absence of manifest error.

For the avoidance of doubt, a proposed Rebalancing shall be effective only if and to the extent that the Calculation Agent, on the Reference Portfolio Adjustment Date on which the relevant Rebalancing Notice is given, notifies to the Reference Portfolio Advisor the information mentioned in (a) and (b) above. Should a proposed Rebalancing not be fully effective on a Reference Portfolio Adjustment Date, the Reference Portfolio Advisor will be required to deliver one or more further Rebalancing Notices in accordance with the provisions hereof to execute the remainder of the initially proposed Rebalancing.

- 4.7 In this Section:

- (i) "**Notional Net Acquisition Cost**" means, in relation to an Eligible Stock Constituent, the notional price (including any applicable Adjustment Fee) at which the Calculation Agent determines that a notional Investor would be able to purchase or otherwise acquire such Eligible Stock Constituent (where applicable, on the relevant Exchange) at execution time on the relevant Reference Portfolio Adjustment Date, as converted into EUR; where such Eligible Stock Constituent is non EUR denominated, at the then prevailing exchange rate, each as determined by the Calculation Agent in its reasonable discretion; and
- (ii) "**Notional Net Disposal Value**" means, in relation to a Eligible Stock Constituent, the notional price (net of any applicable Adjustment Fee) at which the Calculation Agent determines that a notional Investor would be able to sell or otherwise realise or dispose of such Eligible Stock Constituent (where applicable, on the relevant Exchange) at execution time on the relevant Reference Portfolio Adjustment Date, as converted into EUR; where such Eligible Stock Constituent is non EUR denominated, at the then prevailing exchange rate, each as determined by the Calculation Agent in its reasonable discretion.

5. Fees and Costs applicable to the Reference Portfolio

The Reference Portfolio Level is calculated net of fees and costs described under the "Fees" definition in Section 1 ("Description of the Product") of this document.

6. Adjustments of the Reference Portfolio

If, at any time, any event occurs in relation to any Constituent which the Calculation Agent determines requires any adjustment(s) to be made to the composition of the Reference Portfolio, then the Calculation Agent shall (i) determine which adjustment(s) are to be made to the Reference Portfolio with a view to account for the effect of the relevant event and to preserve the prevailing composition of the Reference Portfolio immediately prior to the occurrence of such event and (ii) determine the date on which such adjustment(s) shall take effect.

For the avoidance of doubt: Notwithstanding the entitlements of the Calculation Agent under this paragraph, the sole responsibility and legal duty to manage the Reference Portfolio in compliance with the rules and provisions contained in this document is with the Reference Portfolio Advisor.
